I want once more to recommend the use and value of coal ashes, as a particularly valuable article for trees. I think that of all aids for the growth and health of pear and apple trees, I have found nothing equal to coal ashes. I have tried it on low and high lands, and have found it useful in both. My fruit is better and freer from worms than before. I had a large pear tree in a decaying state, which was dug about and manured, but it did no good. I then put around the tree two wheel-barrow loads of coal ashes, and from that time the tree began to thrive, and I have been rewarded with large and perfect fruit, which I as-

cribe to the beneficial effect of the ashes. The ashes keeps the ground free from weeds, kills the grass and keeps the ground loose around the trunk. Will those who have apple, pear, peach, quince and plum trees try it once? Two wheel-barrow loads should be put around the trunk, making a space about three feet in diameter. If it can be put on in

the fall or winter, it will do the more good. When I put out my pear orchard, I set at the same time a row of white pine trees on the north boundary, and a row of oak trees on the west; the east being protected by a grove of trees. The forest trees grew up and elegant assortment of When my neighbors' pears are blown off in the fall, mine are uninjured by wind and

In low lands, I put all the clinkers around my pear trees to keep the soil loose and cover them with ashes. By that means I am saved

appreciation of dollars and cents than of the at." In the course of years, however, when these trees had attained a heighth of some twenty feet, and had afforded ample shelter from the winds that swept across the bleak hill occupied by his dwelling, the neighbors

ornamental trees, and were disposed to adopt what they had once ridiculed. Screens placed along straight boundaries may be in right lines, like hedges; but shelter in immediate proximity of dwellings appears better if in scattered trees, groups and irregular belts. The straight seams may be made by setting the trees three or four feet apart, or at a greater distance—say eight or ten feet.

will not be so tall and stout ultimately. of the best trees for this purpose is the Norway spruce-which, if planted three feet apart will form a good and close shelter in five or six years, if well cultivated, eight or ten feet high, while the tops of the trees will extend some feet higher. If not cultivated, but allowed to grow up with grass or in hard ground. ten or twelve years will be required to attain the same dimensions. If the trees are placed six feet apart, they will in time make an excellent screen, and cost less at the start. Many erroneously suppose that if they se

the soonest, (a very mistaken opinion) for moval, and they induce the planter to believe soon outstrip them, and present at the same time a more handsome and thriving appearance. A height of two or three feet will, in the present time-in the depth of winterevergreens may often be removed from the covers the soil from freezing, especially if snow has fallen before intensely cold weather sets in. In such localities, select small trees. only a few feet high; cut a circle with a spade about the roots, so as to lift up a cake or ball where they are to be planted.

moved in winter without great labor, at the ly done in the spring, as they require the removal of less earth on the roots-they scarcely ever fail if the roots are immediately im mediately immersed in mud as soon as they are taken up, and before the moisture on the surface of the roots has become dry.

CHAPPED HANDS. by using very little soap, if any, keeping it if chapping, and well rubbed off if necessary, goes far toward preventing further chapping, and promotes the healing of cracks already

DELICATE RICE PUDDING. One cup of rice cleaned, washed, put into one quart of milk, and set in a kettle of boiling water. Keep the water boiling until the one quart of milk, and set in a kettie of boiling water. Keep the water boiling until the rice is soft, then add the yolks of three eggs, putting a very little cold milk to them, that they may not change at once, and a little salt. Bake about one hour in a pretty hot oven. Just before taking up, allowing just time to fit it for the table, beat the whites of the three eggs to a foam, and add one cup of sugar; flavor if you wish; when all beaten together, pour over the pudding, which should be baked in a shoal dish, as this is the sauce to be eaten with it. Put in a brisk oven about five minutes, or until this foam begins to brown. There is so much difference in the length of time required by differed ovens it is impossible to give exact time for the finishing....Ib.

BOUNTY AND BACK PAY.

BOUNTY AND BACK PAY.

To enable those who may have claims upon the United States for moneys due deceased officers and soldiers on account of military services rendered, while in the regular or volunteer service, we publish the following order of payment:

FIRST.—If the deceased was Married, payment will be made: 1st, to the widow; 2d, if no widow, to his child or children (if minors, to a guardian.)

SECOND.—If he died unmarried: 1st, to the father; 2d, if the father is dead, to the mother; 3d, if both parents are dead, to the brothers and sisters, collectively; lastly, to the heirs general (to be distributed in accordance with the laws of the State in which the deceased had his domicile.)

In the number entitled to Bounty may be added the pro rata Bounty due soldiers discharged for wounds received in actual battle.

PENSIONS.

Under the Act of Congress, approved July 14th,

Under the Act of Congress, approved July 14th, 1862, pensions are granted to the following classes of persons:

1st. Invalids disabled since March 4th, 1861, in the military and naval service of the United States in the line of duty.

2d. Widows of officers, soldiers, or scamen, dy-

2d. Whows of one of disease contracted in the military or naval service as above.

3d. Children under sixteen years of age, of such deceased persons, if their be no widow surviving, or from the time of the widow's second marriage.

4th. Mothers (who have no husband living) of officers, soldiers, or seamen, deceased as aforesaid, provided the latter have left neither widow nor shildren under sixteen years of age; and provided

BACCO, 40 d. c for sale cheap at CRAMER'S.

the trouble of digging around the trees. New England Farmer. EVERGREENS FOR PROTECTION. Many landowners, who have a more distinct

beauties of nature, cannot see the propriety of occupying ground and labor in setting out ornamental trees. To such, as well as to all MUSICAL INSTRUMENTS. others, we wish to urge the importance of planting evergreen trees as a shelter agains the cold winds of winter. We once knew a country resident who flanked his house on the sides of prevailing winds with groups and masses of evergreens from the neighboring forests and borders of swamps-and drew upon himself pretty freely the jeers of his neighbors, for setting out trees that "bore nothing to eat," and were "only good to look

discovered that the place had become decidedly more comfortable in cold weather-also that many dollars'in firewood were annually saved by the beautiful and efficient protection afforded. They began to see new charms in

In the cormer case, the screen will soonest become a dense barrier against the winds, but

out large trees they will obtain a given height large trees receive the greatest check by rethat he need not give good cultivation to his plantation. Smaller traes well cultivated will most instances, prove most profitable. At borders of woods and swamps if the earth is but slightly frozen. The protection which the trees as well as the coating of fallen leaves afford, often nearly prevent the mould which

of soil; place the trees in their natural position on a sled, and draw them to the place Trees from the nursery row cannot be resame time that the work may be more readi-

They may in a great measure be prevented on as briefly as possible, washing it off clean, and then finishing the washing with water to which a little vinegar is added--a teaspoonful to a pint of clear water will answer. This neutralizes any alkali of the soap left on the and those indebted are notified to make immed skin, and gives it a soft feel, while it stops the | payment. destruction of the cuticle, and saves chapping. The diluted vinegar is also good as a final washing after shaving the face, as it both saves the skin and prevents the alkali from bleaching the whiskers. A little tallow, or even lard, thinly applied at night, or when going out into the cold air, to the hands and face,
