SALARY OF THE COUNTY SUPERINTENDENT.— It is strange that citizens or directors should grudge their county Superintendent a liberal salary. His duties are laborious and important, and it is idle to expect any one to discharge them faithfully unless he is paid for it. Some of the candidates who will be as are hereafter provided. before the convention on next Tuesday, in their inordinate greed for the office, have offered to take it at half the present salary. We trust that such quackery will not be permitted to influence the minds of directors. Such an offer is prima facia evidence that he who makes it is either incompetent or means to neglect his duties. If the duties of the office are faithfully discharged such a salary

will not pay indispensable expenses by nearly a hundred dollars: and it will be hard we a hundred dollars; and it will be hard we think, to find anyone who is fool enough to suppose that these gentlemen propose to do think, to find any one who is fool enough to the work and pay a hundred dollars besides for the luxury of being County Superintendent. He who takes the the office at such a price

must either neglect his duties or lose money t is not difficult to foresee which he will do. It will be seen by reference to the School laws (Old Edition Page 81, New Edition Page 127) that the salary of the County Superinendent is not paid by the county nor out of noneys belonging to the county. It is paid by the State. It is a mere trifle to the county, hardly worth noticing at all. If the presnt salary were reduced five hundred dollars, that sum would not be added to the State ap propriation coming to this county. It would

mply remain in the general school fund and be distributed throughout the State in proportion to the number of taxables. There are 642.291 taxables in the State. Dividing \$500 dollers among them gives each taxable. 00077. There are 6.037 taxables in this county. Hence out of \$500 this county would get but \$4.65. Thus it is, that to increase the salary of the county Superintendent of this county \$500 would only diminish the State appropriation belonging to the county \$4.65. To diminish the salary \$500 would add only 4.65 to the appropriation belonging to the county Why then should we grudge a liberal salary? Our richer and more liberal neigbors will on next Tuesday vote their Superintendents fat salaries, just as they have always done before. These salaries we must help to pay even if we did not pay our own superintendent a singl

dollar. Under such circumstances if we should reduce our salary to a mere pittance, we should simply be laughed at for our stu pidity. But we have no fears of this, we feel confident that a man will be elected who is thoroughly competent, and who will devote all his time to the discharge of his duties, and

sioned

that he will be well paid for his services. We print below the law with regard to the qualifications county superintendents elect must possess before they can be commis

BLACKWOODS' MAGAZINE for March is on our table. To American readers the most in teresting portion of its contents are "The Po sition of the Government and their Party,' and "Reform of the Bank of England." The former, as showing the spirit in which the Tories discuss the conduct of the Government under the management of the Liberals: the latter as showing the defects of the present English Banking system and proposing reforms, is interesting to all concerned or interested in monetary matters as our monnetary system is more nearly allied to the English than any other ; both articles are well worthy a perusal. In the field of fiction Miss "Majoribanks" and "Sir Brook Foss broke" afford amusing and interesting read ing, to which we might perhaps without impropriety add "Memoirs of the Confederate War for Independence," "A Religious Nov el" and "Part XVII of the inimitable "O, Dowd," papers make up the number. Reprinted by Leonard Scott & Co. 38 Walker Street, New York.
