The Union State Central Committee Will meet at the rooms of the National Union Clnb, No. 1105 Chestnut street, Philadelphia, on Wednesday, the 16th day of May, at three o'clock, P. M. The attendance of every member of the

Committee is earnestly solicited. FR. JORDAN, Chairman. PHILADELPHIA, April 30, 1866.

Best At a Soldiers' Convention, held in Fulton county, the following resolutions complimenting our citizens were passed:

Resolved, That the thanks of Pennsylvania Resolved, That the thanks of Pennsylvania soldiers are due Col. Jordan, Penn'a. State Agent, at Washington, for the efficient and able manner he fills his position.

Resolved, That the thanks of this convention are due Mr. Householder of the Senate and Messrs. Ross and Armstrong of the House for the interest they have taken in securing to the re-enlisted Veteran Volunteers an equalization of bounts. an equalization of bounty.

PENSIONS TO SOLDIERS OF 1812.-The bill granting gratuities and annuities to soldiers of the war of 1812, and their widows, has passed the Senate and House; and no doubt has the signature of the Governor. It provides for the payment of a gratuity of \$40, and hereafter of a yearly pension of \$40, to all soldiers who served at least two months in the war of 1812, or were disabled in the service, or to the widows of the same. Application to be made to the Auditor General, by affidavit of the applicant to the fact of service or disability, verified by two witnesses; and in the case of widows, by the affidavit of the widow as to the time of service of her husband, and the fact of her lawful marriage. Durborrow & Lutz have the blanks and are prepared to make immediate application.

ADMITTED TO PRACTICE .-- J. W. Dickerson and Isaiah H. Rawlins were admitted last week, to practice in the several courts of gion affords, and carry it away to supply the Bedford county. These gentlemen, we are told, passed very creditable examinations. We welcome them to the legal fraternity and hope they may become leading members of the profession. It is currently reported that Mr. Dickerson and B. F. Meyers, Esq. are about to open a law office in this place. Mr. Rawlins is at present located in Washington, D. C., where he expects to remain for the present. We wish both these worthy gentlemen abundant success in the prosecution of the arduous duties of their profession.

THE LIBEL SUITS .- The libel suits instituted by Hon. John Cessna against Messrs. Myers & Mengel and Messrs. Myers and Shannon were disposed of last week. The cases attracted considerable attention although not as much as they would have attracted six months ago. The case against Messrs. DIGNIFIED RIVALRY .- A late number of the Gettysburg Star contains the following unjustifiable attack upon the Bedford Springs :

"But a watering place at Gettysburg must in the nature of things be a positive and a controlling influence for the public good. It must prove more than a match for the Demperatic secession concern at Bedford, which under the auspices of James Buchanan and his associates, has exerted such a malign in-fluence on the politics of the State and na-

The establishing of a rival watering place at Gettysburg is all right and proper within itself, and the project will meet with much favor with those who desire to visit the historic grounds in that vicinity, but the effort to elevate Gettysburg by a depreciation of the merits of its neighbor, Bedford, we are compelled to say is the unkindest cut of all. Mr. Espey Anderson, the proprietor of the Bedford Springs, is, and was during the entire war, as loyal and patriotic a man as his Gettysburg cotemporaries dare be. The Springs were a public resort and if disloyal or obnoxious individuals visited them the proprietor was no more deserving of blame for it than were the citizens of Gettysburg deserving of credit for the victory gained at that place. We are ne apologists for the Bedford Springs, but on the contrary we have had very little sympathy for the lack of enterprise manifested by the proprietor. We have every confidence that 5,-00 or 6,000 visitors could be accommodated here as readily as the 1,000 or 1,500 that are now from year to year. Spring season barely opens up here when the announcemen goes forth that Bedford is full and the thou sands who would willingly come here, go off elsewhere. This is very much to be regreted and by a little more enterprise it could be remedied. We admire the joint stock plan being adopted at Gettysburg, which gives every individual in the community a specified amount of stock, provided he desires it, and thus the Springs will virtually belong to the people. We hope to hear that the above extract crept into the columns of the Star inad. vertently as we cannot think that our neighpors desired to do such manifest injustice.

While we are upon this subject we will add that Levi Smith & Co. will erect a large three story hotel near the residence of Capt. George Smith, during the season for the accommo dation of visitors. Hafer & Co. intend erecting buildings also at the Calybeate Spring north east of the Borough. We learn that Wm. Chenowith is also about to erec a large addition to his residence for the same purpose. There has been quite a demand here lately for hotel property and we are led to believe that in a few years a sufficien amount of enterprise will come forward and rescue us from the apathy which has settled down over the place. We want men of money and enterprise to come to this point at possible to do so, until the entire row of once and to spend both freely; we do not know a better opening.

Americans are proverbial for the avidity and commendable zeal with which they participate in enterprises having for their object the development of our national resources. At one time "Railroads"—at another "Coal"—then "Copper" or "Iron" and more recently "Oil" have been the all-absorbing topics.
In all these several enterprises, as will be recollected, those who plass took hold of them made money; some larger amounts than others, according to their investments.

The space of a circular is too limited to give the opinions of numerous distinguished citizens and men of science who have examined this district; the following extracts relate thereto, and that of Professor Edward N. Kent in particular, of the New York U. S. Assay Office is directly in point: oint: Our late lamented President-Mr. Lincoln-du-

The Hon. J. P. Upsher, Secretary of the Interior, in the Official Report presented to Congress, dated December 5th, 1864, referring to the then present condition of our Western Territories, says: "The wealth embedded in the rocks of that extensive region is actually inexhaustible, and it will furnish in future years, indiffectly a principal part of our means of liquidating the debt contracted by the Government for the overthrow of the Great Rebellion."

The Hon. H. P. Bennett, delegate in Congress from Colorado, in a speech before the House of Representatives said: "Judging from what I know of the undeveloped resources of this country; from what I am told by practical miners who are well informed upon this subject, I do say here to-day before this House and before this Country, to be placed upon the records and read of all men—that within five year's time, and by the year 1869, the gold fields of Colorado Territory will produce \$50,000,000 annually; and even then its

Professor Edward N. Kent, of the New York Assay Office, says:

"As to the extent of the gold mines of Colorado, I am not prepared to give an estimate, as I found enough to fully employ my time within a radius of five miles of Central City, [the location of the above Ledges,] but as to the richaess of THEM, I have no hesitation in saying, that I believe them to be the richaest ever discovered. With science, capital and the Pacific Railroad, Colorado is destined in my opinion, to rival or supersede California and Australia, and become the El Dorado of the World."

The opinion entertained by those abroad of claims in this district, is shown by the following

aims in this district, is shown by the following

English capitalists have purchased £600,000 of the Colorado mining lands, and their agents and employees are now en route to develop the same. The claims are principally in Russell and Trail districts, and a recent purchase has been the Seaton Lode of 1000 feet for which they paid £100,-

An idea of the value of some claims (100 feet each) may be formed when the fact is considered that often occurs that they yield millions of dollars, and have in several instances been sold for \$25,000 per foot. Mr. Fields, from 33½ feet of the Bobtail Lode has taken out already over \$200,000 in gold, and \$266,000 has been offered and refused for 3½ feet of this same lode, equal to \$800,000 for a claim of one hundred feet.

As the purchase of either of the above lodes would require more money than the majority of persons have at command, it has been determined to consolidate them, and to divide them into Twelve Hundred and Fifty

As all are aware, the usual plan adopted for the development of such a property is to form a company and issue certificates of stock. The plan here proposed may be considered preliminary to the formation of two or more Companies on these properties which are subject to no royalty, lease or more area.

these properties' which are subject to no royalty, lease or mortgages.

The SUBSCHEERS can then upon this solid and substantial basis, elect officers from among themselves, each subscriber being eligible to the position of an officer of the Company.

In order that handsome returns may be speedily realized, these subscriptions are based upon the proposition that the subscribers immediately on receipt of the Deeds (now ready for delivery, and which may be examined at the office of the undersigned before subscribing,) may lease their lands on heavy royalties, or at once organize Companies in the usual way for which there is an ample basis.

Companies in the usual way for which there is an ample basis.

To accommodate those of moderate means, these "interests" are put at \$100 each, in order to get the list filled at once, and to prevent any delay in the organization of the Company.

Considering the numerous valuable "Ledges" which constitute the basis of this enterprise—the fair and equitable features—the low prices at which "interests" in it are offered, and that each interest entitles the holder to his pro rata share of stock in all the Companies that may be organized upon them—also recollecting that in all, and it and of stock in art the Companies that may be organ ized upon them—also recollecting that in all there are only 1000 interests to be sold, and i would only require one hundred gentlemen each to take ten (\$1000) to absorb the whole, it is pre-sumed that it is hardly necessary to suggest to those desiring to secure one or more of these orig-inal interests, to at once send in their subscrip-tions.

Sewing Machines

GROVER & BAKER'S

WERE AWARDED THE

HIGHEST PREMIUMS at the State fairs of New York, New Jersey, Vermont, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa, Kentucky, Missouri, Virginia, North Carolina, Tennessee, Alabama, Oregon, California, at the fairs of the American Institute, Franklin Institute, Maryland Institute. Massachusetts Mechanics' Association, Penn. Mechanics' Institute, St. Louis Agricultural and Mechanies' Associon, and at numerous Institute and

County fairs, includidg all the fairs at which they were exhibited the past three years.

First prizes have also been awarded these Machines at the exhibitions of London, Paris, Dublin, Linz, Pesancon, Eayonne, St. Dizier, Chalons.

And they have been furnished by special command to the

Empress of France,
Empress of Austria,
Empress of Bussia,
Empress of Brazil,
Queen of Spain and
Queen of Bayaria. The Grover and Baker Elastic-Stitch sewing Machines are superior to all others for the follow

ing reasons:

1. They sew direct from the spools, and require the requirement of thread no rewinding of thread.

2. They are more easily understood and used, and less liable to derangement than other ma-

and less liable to derangement than other machines.

3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

4. The stitch made by these machines is much more firm, clastic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.

5. This stitch owing to the meaner is which.

5. This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequent-ity washed and ironed until they are worn out.

iy washed and ironed until they are worn out.

6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, or ravel, but remains firm and durable.

7. Unlike other machines, these fasten both ends of the seam by their own operation.

8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without. lessening the strength or durability of the seam. This can be done on other machine, and is a great saving upon all articles stitched or made up with silk.

These suachines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practiced, execute the most beautiful and permanent embroidery and ornamental work. ornamental work.

Get your money back.

\$10,000 DUE AND WANTED. OLD with business in order to settle up. That many people are so mean, after you have credited them that when you try to get your honest dues from them, they will "shy off" and spend their money or run up accounts at other stores, and you will lose their custom.

I don't want to quit business, I must have money. I have been indulgent, I want every man and woman who owes me by book acct. or note to PAY me now. I don't want them to act mean and "shy off." Stand up to the counter like men, pay if you can't pay, settle someway. I will sue only those who don't seem to want to pay and quit me because I dun them. Let all concerned call at once to settle. Thankful to a generous public for their patronage, I hope they will favor the new firm of HARTLEY.

GER, they will try to do right.

Respectfully

W. HARTLEY.

to be placed upon the records and read of all men—that within five year's time, and by the year 1869, the gold fields of Colorado Territory will produce \$50,000,000 annually; and even then its full resources of mineral wealth in gold alone remain not wholly developed. I speak from the united testimony of many practical miners who have spent many years in the mines of California, when I say:—that the gold-bearing region of Colorado is far more extensive, quite as inexhaust—Colorado is far more extensive, quite as inexhaust—
