With this issue of the INQUIR-ER the "Campaign INQUIRER" will terminate. All who do not desire to continue it will please inform the Post Master at the office at which it is received of the ladies!" These significant heads fact and it will be discontinued. We desire all, however, to con- with an elaborate argument to tinue it. The terms will be found on the first page. For some time we have devoted the entire space to politics, we will now turn our attention to making the INQUIRER one of the best family county papers published.

The following is the vote of Bedford and Hartranft last year. The vote is much heavier than it was then. Next week we shall analize the vote and make a comparison between the vote of 1865 and 1866. It will be seen that we have lost the county by about 240.

We were led to believe from would be very close, but the increase of Mr. Kerr who can give them all es in the heavy copperhead district and the inability to increase our own vote in a like proportion in Republican district exhibiting the fact that at the last two three preceding elections our entire vote was out, completely unhorsed us, and sent the county into the hands of our opponents by a majority varying from one to three hundred. We certainly expected that John W. Lingenfelter would be elected Prothonotary, but the treachery of some of those from whom we had a right to expect better things, and the enormous vote, brought defeat even to his door. Never in the history of this county was there such an effort made by the party in opposition to the Republican and progress. That year has, moreover been crowned with many peculiar blessings party to get out their vote and to keep the shaky members of their party under their control as was made during the last canvas Money was lavished with a degree of extravagance unsurpassed in the history of political corruption. Thousands of dollars were expended where previously only a few hundreds were necessary and applied; offices were peddled about and tendered promiscuously to any one who was willing to fall down and worship the golden calf; threats were applied to all who held office under the administration; Sharpe, Latta, and others were imported to harangue the people from every stump and school house in the county, and when the fact that Bedford county had no district candidates upon the Republican ticket and that the entire work of meeting the herculeau offerte of the opposition devolved selely upon the party in praise to Almighty God. the county is added, is it not astonishing that we did so well? The last that was seen of the afflicted and chagrined Copperhead, who was determined to thus sacrifice himself upon the altar of Copperheadism, he was in the hands of E. F. MERCY TO THE TRAITORS.

General John A. Logan is making a tre nendous canvass in Illinois. The following n reply to his Johnson competitor, serve also as a rejoinder to such men as Edgar Cowan, in this State, who are so eager that the rebels shall be forgiven and the Radicals

hanged:

"Now, My friend Dickey says you must be charitable and forgiving; and if we do that, these people will come back, and we will all live happily together. Oh, yes, you must forgive them—forgive them for the murder of 300,000 of your boys and friends; forgive them for draping this land in mourning and causing rivers of our best blood to flow; forgive them for making a different flag from yours and firing upon ours; forgive them for orgive them for making a different flag from rours and firing upon ours; forgive them for making a different Constitution and tramp ing ours under foot; forgive them for making a different Government and trying to destrop ours. They sought to do all this, but now a different Government and trying to destroy ours. They sought to do all this, but now must be forgiven. Oh, yes, treason must be forgiven, and loyalty must take a back seat; treason must take a front seat. I believe Lucifer once tried to commit treason in Heaven. Heaven was so merciful to him that the archangel Michael hurled him from Heaven headlong, and he went miles into hell; and I have not heard of his coming out of there. [Laughter and cheers.] If you want to get him out of that place, I don't know how you will do it, unless my friend Dickey applies to President Johnson Tor pardon. [Great laughter.] I can't understand it in any other way.

This, then, is the manner in which we must deal with rebels. You have robbers, murderers and plunderers in this country, and you send them to the penitentiary. If a man commits a murder, you hang him. Yet these men committed treason against the Government—a higher crime than murder, robbery or larceny, or than any other in this laugh hy way fixed Dishys them." [Laughter]

land; het, you must forgive them." [Laugh

Now, I ask my friend Dickey this: "Why if you are so forgiving and so desirous that traitors shall represent this country! if you are so desirous that traitors shall have seats why do you not go and unlock the penitentiary doors and turn the murder-ers and robbers and thieves out upon the people of the country, and let them send them to Congress if they desire to? You have just the same right that you have to send these traiors there—precisely the same.

American Machinery Abroad. The London Times and the largest Eng-

ish newspapers are printed by Hoe's presses American reapers and other agricultural implements take the lead in England, and ou sewing machines may now be found in every well ordered British household. Commercia Journal, in a recent issue, describes a handsome sewing machine which has been made for an English lady of high rank. We quote the paragraph:

"As the sewing machine has been advan-ced gradually from purely manufacturing ises to a household position, and thence to an adjunct of the duties of a refined home, Messrs. Grover & Baker, 150 Regent Street have wisely catered for the supply in a more elegant form, and the machines they have now brought before the public present the appearance of cabinets, and are made in vaons woods. This firm has just completed a machine, designed and ornamented express y for a lady of rank, which surpasses, for elgance, anything of the kind ever seen. The able and stand are of satin wood, inlaid with ulip wood, with carved border, and richly gilt. The machine itself is silver-plated, inaid with pearl, and most delicately tinted. It has been pronounced, by all who have seen

it, as perfection."

There is quite a controversy going on in another British periodical, The - Queen, with egard to the qualities and advantages of the different American sewing machines. A correspondent of the last-mentioned paper

"I am happy to inform 'Perplexity' that I have been using one of Grover & Baker's machines for the last six months. I can not speak too highly of the beauty of the work, nor of the perfect ease with which it is used (not so hard as the pedals of the harp); a child of five years can work it. If 'perplexity' will enclose her card to the editress of The Queen, I will have much pleasure in letting GERLADINE. her try my machine.

Farewell, dear Clara, rest in peace, Where pain, and tears, and trouble cease There in her Savior's tender breast, Forever loved, forever blessed.

Words of Vital Interest.

Will the thousand who read columns of frivoous verbiage every day devote five minutes to the our text is Health, and we will put our comu ary into a nutshell. Weakness is indirectly the ause of all sickness; for if nature be strong enough to resist the morbid influences which pro luce illness, of course they are powerless. Seck trength, therefore. Invigorate and regulate the system. When the quicksilver ranges from 80 to 95 degrees in the shade, the most athletic are encebled, and the weak are prestrated. It is at such a time that such an invigorator as HOSTET-TER'S STOMACH BITTERS is urgently need ed. What are the effects of this rare Vegetable Tonic? Would that all who have known its benefits could condense their experience into this paragraph. They would tell the healthy, to protect their health they must use this great safeguard against the debilitating influences. They would exhort the weak to discard all unmedicated and impure stimulants and cling to this wholesome and unfailing tonic and alterative as the shipwreeked mariner would cling to a raft in a stormy sea. They would tell, of dyspeptic pangs relieved, of appetite restored, of shattered nerves restrung, of headaches cured, of disordered fund tions regulated, of hypochondria dissipated, of miasmatic diseases bafflod, of fever and ague cured, of liver complaints arrested, of heat, priva-
