If that proves a success a similar im-provement will be made in the Clark's Ferry and Shamokin dams, and then we can catch our own fish.

BURGLARY.—The store of James M. Barn-dollar & Son was broken into on Friday night the 1st inst. The burglar succeeded in break-ing out the funnel leading to the letter box, which enabled him to insert his arm and spring the shutter open of the front window. The window was without much difficulty raised, and a piece of a plastering lath, taken from the old church, where the scoundrel had secreted himself until a late hour of the night, placed under it. Fortunately for the pro-prietors, there were only a few dollars in change left in an accessible drawer, and hear ing a party that had visited Bedford that even ng returning, he vamoosed the ranche suddenly, without any further visible damage The chap is well spotted and we expect to see him in the Quarter Sessions by next term

Liver Complaint.

Among the wonderful medical properties which ave rendered HOSTETTER'S STOMACH BIT-TERS pre-eminent among the health-restoring preparations of the age, its anti-bilious virtues e not the least remarkable. No words can de ustice to its marvelous effect upon the disease iver. Perhaps the simple words of a convale: cent sufferer, who describes it as "going right to the spot" tell the story as clearly as may be. It does go right to the spot. It operates directly upon the disordered organ, and whether anduly Side, Yellow Suffasion of the Skin, Costivene Palpitation of the Heart, Dry Cough, Low Fover and other symptoms which indicate the various phases of Acute and Chronic Liver Complaint are one and all promptly relieved, and finally re moved, by the action of this famous preparation which is at once the best of correctives, the gen tlest and most genial of aperients, an infallibl regulator, and a powerful restorative. Persons of a bilious habit, who use the Bitters as a protec-tive medicine, will never suffer the pains and penalties of Liver diseases or Bilious Remitent Fever March 1:1m

The above described real estate is pleasantly The above described real estate is pleasantly situated in a fine agricultural district, at the very head of railroad market, where all produce raised can be sold at the highest prices; and as the sawmill is one of the finest in the country, and there is a large quantity of yellow pine and oak on the same, and the transportation to railroad is quite convenient, it is considered a valuable point for the manufacturing of lumber; besides there is an immense quantity of rock oak bark on the premises. It is believed that the lumber and bark capacity of the premises alone is worth all bark capacity of the premises, alone is worth all the money the property will sell for. The particular attention of farmers and lumbermen is in vited; as the water-power is of great strength, the mill site is very valuable, and quite a profitable chopping business can now be done in addition to the manufacturing of lumber. The property is likely to sell at a very moderate price.
