Lecture for the benefit of the Lutheran Sabbath School Library Association.—The Rev. B. H. Hunt of Schellburg will deliver a lecture in the Court House on Thursday evening the 9th inst. for the benefit of the Lutheran Sabbath School Library Association.

There has been a change of schedule on the Broad Top Road, which we think the most reasonable schedule that they have ever run to. Parties going East leave this place at 4 o'clock, A. M., and make all the morning connections on the Central, East and West, while those who leave Philadelphia or Pittsburgh in the morning, reach here in the train leaving Huntingdon at 6 o'clock, P. M.

Blackwoods Magazine for April, has just been received. It contains—Elizabeth and Mary, Hems Ancient Christianity; The Moral and Political Revolution in Japan; The Army Part III, Manhood Suffrage and the Ballot in America, A Letter never Sent, Brown-rows—Part IV, The Ministers and their Measure. Leonard Scott Publishing Co, 140 Fulton Street, New York.

The weather has been unusually cool for several days past. Snow fell on the Allegheny on Friday last, and overcasts were in demand out of doors, and warm stoves with in. Sunday gave us bright warm sunshine and singing birds once more, and we bid a glad farewell to dark, lowering fogs and chilling East winds, hoping they have paid us their last visit for this season, as they have already lingered quite too long in the lap of Spring.

The District Attorney E. F. Kerr Esq., was appointed District Attorney at the late session of our Court, instead of John Palmer, Esq., who decamped some time in February or March. Palmer left Bedford with Mr. Meyers and others to spend a few weeks in Washington, D. C. On the return of the party to Huntingdon, he is represented as over-sleeping himself and going on up the road to the next station, from which he returned to Huntingdon, but too late for the Broad Top train.

A renewed circulation and a still wider reading of Dickens cannot prove otherwise than a blessing to the country; for who shall deny that this genial novelist is not, wherever he may go, a missionary of good as well as of delight; making men and women better, whilst he makes them smile; softening and enlarging the heart, even as he gratifies the love of humor, the sensibilities that sympathize with the pathetic, and the artistic taste that relishes pictures of homely and intensely human life.

As the "diamond" has thus inaugurated another conquering campaign for he deservedly loved and popular gentleman of Gadshill, it deserves to be praised for what it is as well as for what it has done. For its convenient form, its distinct though necessary small type, and excellent original illustrations by Ettyne, it merits commendation, and meets a popular want at a very moderate price. It is something new and something beautiful and something useful likewise in the way of book-making; and by its very peculiar it is quite sure to be a favorite, no matter how many attractive rivals attend the lists with it, and win customers.

Every lover of Dickens should be sure to get this edition. The illustrated volumes are only \$1.50 each, and the plain \$1.25; Ticknor & Fields Boston.

The Holy Communion of the Lords, supper will be celebrated in the Lutheran Church of this place on next Sabbath morning (the 12th inst) at 10 o'clock.

Services preparatory will begin on Friday Evening at 7 1/2 P. M. on Saturday morning at 10 o'clock, the Rev. J. Q. McAtee will be installed as pastor of the congregation. Services on Saturday Evening, Sabbath morning and night at the usual hours. Several officiating clergymen will be present on the occasions alluded to.

"Too much Whiskey."—An individual laboring under the effects of sundry unwholesome potations, caused a disturbance in the Mergel House on Tuesday evening, by using insulting language and displaying a knife in a threatening manner toward Mr. John Little, Livery Keeper. Officer Waters was called in and proceeded to arrest the offender, which action he resisted and was handled rather roughly, but was finally overpowered and conveyed to jail. If men will persist in making braves of themselves they can not expect to evade the consequences.

The Broad Top Railroad.—The controllers of this road have, within the last six months, improved it very much. All the old trestle have been superseded by new and splendid materials, while many other improvements have been made. The Broad Top road is one of the safest in the State. It has a less number of accidents recorded than any other line of the same length reported, while the care and attention of its officers to the comforts of the travelling public speak in the most favorable terms. We do not think that any one will hesitate to pronounce the most favorable opinion of the substantial condition of the road who will take the pains to inquire or to investigate. We do not know of a single accident which has resulted from pure negligence of its employees or the inefficiency of the material used in its construction though it has been in existence for ten years. The visitors to the Springs will find this road perfectly safe and in a very good condition.

Borough Improvements.—We are pleased to see that the borough officers are making an effort to improve Penn street by opening the water courses, and dividing the waters gathering in the Southwestern part of the town so that that portion of the street below Richard will not be flooded by every summer shower. We hope they will not stop with this, but devise some means for securing an improvement of the side walks also; the beginning made alongside the Presbyterian church is a move in the right direction, and should be continued to Richard street. Our public Square would present a more pleasing appearance if ball playing and other sports destructive to both men and boys on our street has to be laid to rest as a nuisance. Would it not be a good idea to prohibit the use of Juliana street and East Pitt street as horse training grounds; the business streets of the town are certainly not the proper places for these exercises, endangering, as they often do, the lives of men, women and children.

IMPORTANT DATA.—We are indebted to Wm. M. Hall, Esq., for the following information, which we publish as a matter of historical interest, and to put it into a good shape for convenient reference.

Bedford county was formed of part of Cumberland, March 9, 1771. Out of it were formed, Westmoreland, 26 February, 1773. Huntingdon, 20 September, 1787. Somerset, 17 April, 1794. Blair, 26 February, 1846. Fulton, 19 April, 1850.

Richard Teas was Deputy Surveyor General for Cumberland county, and under him surveys were made in the territory that was afterward Bedford county, from 1760 to 1767, by William Macley, Robert McKinstry, Robert McCrea, John Armstrong and Samuel Findley.

Thomas Smith was Deputy Surveyor of Cumberland county, and afterward Bedford county, from 1767 to 1778. Deputy Surveyors of Bedford County. George Wood, Sr., 1778 to 1787. George Wood, Jr., 1787 to 1805. William Piper, 1805 to 1812. James Piper, 1812 to 1819. John Wolf, 1819 to 1824. David Patters on, 1824 to 1827. James Piper, 1827 to 1830. John Bennett, 1830 to 1834. Robert Stewart, 1834 to 1837. William A. Vickroy, 1837 to 1839. Michael Reed, 1839 to 1847. Isaac Kensingler, 1847 to 1850. Daniel Sams, 1850 to 1856. Samuel Ketterman, 1856 to 1865. In 1865 Patrick Donohoe was elected. Mr. Ketterman is acting as his Deputy.

In 1850 the office became elective and the name was changed to County Surveyor.

DAVID COPPERFIELD, the third volume of the Diamond Dickens is on our table: Beyond comparison this is the most completely designed and delightfully executed edition of a popular series of works, intended for the family library that has ever come from the hands of a publisher. Socially, Americans may not owe as much to Dickens as do his countrymen, for his attempts to elevate their humanity, yet, in a literary point of view, we must acknowledge that no one, at home or abroad, delights us more than he has done for years past. "Pickwick" the initial of his humorous works, and still the most amusing; "Our Mutual Friend," his latest and by many deemed equal to his best, and "David Copperfield," undoubtedly the superior of all the rest, are now before the public in this dainty form, and their rapid sale well attests the popularity they have achieved.

A renewed circulation and a still wider reading of Dickens cannot prove otherwise than a blessing to the country; for who shall deny that this genial novelist is not, wherever he may go, a missionary of good as well as of delight; making men and women better, whilst he makes them smile; softening and enlarging the heart, even as he gratifies the love of humor, the sensibilities that sympathize with the pathetic, and the artistic taste that relishes pictures of homely and intensely human life.

As the "diamond" has thus inaugurated another conquering campaign for he deservedly loved and popular gentleman of Gadshill, it deserves to be praised for what it is as well as for what it has done. For its convenient form, its distinct though necessary small type, and excellent original illustrations by Ettyne, it merits commendation, and meets a popular want at a very moderate price. It is something new and something beautiful and something useful likewise in the way of book-making; and by its very peculiar it is quite sure to be a favorite, no matter how many attractive rivals attend the lists with it, and win customers.

Every lover of Dickens should be sure to get this edition. The illustrated volumes are only \$1.50 each, and the plain \$1.25; Ticknor & Fields Boston.

THE DANGERS OF SPRING.—We have the highest medical authority for saying that a great many more persons die in May than in November. The natural causes are: 1st.—The increased dampness of the atmosphere, proven by the fact that doors which shut easily in winter, do not do so in spring. 2d.—Nature takes away the appetite for meats, for heating food, in order to prepare the body for the increased temperature of summer. But two errors in practice at this time, interfere with wise nature's arrangement, and induce many painful and dangerous diseases. First, the amount of clothing is diminished too soon. Second, the conveniences of fires in our dwellings are removed too early. All persons, especially children, old people, and those in delicate health, should not remove the thickest woolen flannels, or mid winter, until toward the end of May, and then it should be merely a change to a little thinner material. Furnaces should not be removed, nor fire places and grates cleaned for the summer, until the first of June; for a brisk fire in the grate is sometimes very comfortable in the last week of May; that may be a rare occurrence, but as it does sometimes take place, it is better to be prepared for it than to sit shivering for half a day, with the risk to ourselves and children, of some violent attack of spring disease.

By inattention to these things, four causes are in operation to chill the body and induce colds and fevers. First.—The dampness of the atmosphere in May. Second.—That striking falling off in appetite for meals and other "heating" food. Third.—The premature diminution of clothing. Fourth.—The too early removal of the conveniences of fire. And when the very changing condition of the weather in May is taken into account, it is no wonder that under the influence of so many causes of diminution of the temperature of the body, many fall victims to disease. In November, the healthiest month of the year, we have put on our warmest clothing, kindled our daily fires and have found a keen relief for substantial food, while the dampness of the atmosphere has been relieved by the condensation of increasing cold. The wise will remember these things for a lifetime, and teach them to their children.—Exchange

MARRIED. On the evening of the 16th ult. in the Congregational church, by Rev. C. Covell, Miss SARAH J. DICKEY to Z. WATERMAN, all of Buda, Illinois.

At the house of the bride's brother, near Buda Vista, on the 21st inst. by Rev. A. W. Decker, Mr. LEONARD MARKEE, of Baltimore, and Miss MARY J. LONG, of the former place. On the 22d inst. by the Rev. C. U. Hellman, Mr. JOSIAH MOWRY to Miss SUSANNAH BEEGLE, both of this county.

From a Lady. WEST MILTON, Saratoga Co., N. Y., July 8, 1861. DR. HOSSTETTER.—Sir: I have long delayed writing to you my sincere thanks for the good you have done my daughter. I can truly say that nothing but the kind hand of Providence and your Bitters have saved her from an early grave. For three years I have been doctored by her with syrups and all kinds of bitters that were recommended to me for her, besides having two first rate physicians, but all seemed to do her no good, while I was searching the almanacs and all the newspapers that I could get hold of, in hopes of finding something that would suit her case. Accidentally there came part of a newspaper around some goods that I bought at the Spa. In looking over it I saw that a glance that your Bitters was just what she needed. I sent the next day to Ballston Spa and got a bottle of your Bitters. She commenced taking them, and such a change in one week with her appetite and the distress that victuals occasioned, and that burning in the stomach, I never saw in my life, as there was in her. She has taken three bottles and is now able to work all the time. I think there is a little derangement of the Liver. Please send me three bottles more, which I think will cure her entirely. We and others thought she had a disease of the heart, but that beating and fluttering that would almost stop her from breathing at times, is all gone. Yours, with respect, MRS. AMANDA M. PUGHSON.

Consumption Curable by Dr. Cheek's Medicines. To cure consumption, the system must be prepared so that the lungs will heal. To accomplish this, the stomach and liver must first be cleaned and an appetite created for good wholesome food, which by these medicines will be digested properly, and good healthy blood made; thus building up the constitution. Schenck's Mandrake Bitters cleanse the stomach of all bilious or mucous accumulations; and by using the Sea Weed Tonic in connection, the appetite is restored. Schenck's Pulmonic Syrup is nutritious as well as medicinal, and by using the three remedies all impurities are expelled from the system, and good wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very frequently, in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not active they are not required, for sometimes in diarrhoea they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the rooms as much as possible, eat all the richest food—fat, meat, game, and, in fact, anything the appetite craves; but be particular and masticate well.
