The Republicans carried five out of the eight Aldermen, and sixteen out of the twenty-one Councilmen. That this election has passed off quietly and peaceably, promises well for the coming elections in the Southern States. Less than a year ago the voters of Washington voted almost unanimously against impartial suffrage. Already they have not only so far acquiesced in it as to enable an election to be held without disturbance, at which negroes are permitted to vote, but enough of the whites have co-operated with them to enable them to elect an almost entire Union ticket. The result has been a severe blow to the Copperheads, who had hoped that the former masters would be able to control enough of the negro votes to give rebel majorities. Doubtless some are influenced in this manner, but the number is insignificant. The indications at present are that the great majority of the negroes are quite intelligent enough to know what is to their interest, and who are their friends. MEXICO.

In the discussion consequent upon the balling of Jefferson Davis there is great danger of forgetting the important point, and of regarding him merely as a political offender, a hero invested with the dignity of misforture. It is in the motive that we must look for the moral character of actions. Rebellion, or armed resistance to a government, is a capital legal offense. But the prosecution and punishment of any partient are offender is, as in other cases, purely a question of expediency. It may often be impolite either to try him or to execute thim upon conviction. FROM ALBANY.

Another Sickles Case.—A member of the State Convention Shot Dead.

Intense excitement was produced in Albany on Tuesday evening 4th inst., by the shooting of the Hon. L. Harris Hiscock, a member of the Constitutional Convention. The tragedy occured at nine P. M. at Stanwix Hall, and was committed by General G. W. Cole, of Syraense. It appears that Hiscock was standing in the large reception room of the hotel, near the clerk's desk, in his slipners: Cole, who was sitting near by his slippers; Cole, who was sitting near by, rose and approached Hiscock, made some remark which was not distinctly overheard by those near by, and immediately thereafter drew a small pistol, and, presenting it at his head, fired—the ball entering near at his head, fired—the ball entering near the right eye. Hiscock fell back senseless, the wound bleeding profusely. He expired within thirty minutes after the shooting. Cole remarked that Hiscock had been his best friend, but that while he (Cole) was in the army, where he rose to the grade of General in the cavalry service, he had outraged his wife, and added. 'I have the evidence now in my pocket.' He quietly awaited the coming of the police, and was conveyed to the Third District Station House. Cole is a tall, fine looking man, as was Hiscock, who was, however, larger and heavier.

was Hiscock, who was, however, larger and heavier.

At the station House, the prisoner being required to hand over everything he possessed, he delivered his pistol, &c., and declared positively that he had retained nothing; but upon being searched there was found concealed upon him a long, sharp-bladed, springback knife, from which it is argued he contemplated suicide. About midnight he was removed to the jail.

George W. Cole went into the army as Captian of Cavalry at the commencement of the war, served with distinction, and left the service as Brigadier General. He is a brother of Corneilus Cole, United States Sepator from California. He also has a brother now acting as American Consul at Accapulco. Mr. Bradley: 'The prisoner is ready, and has been so for yeeks.'

By eleven o'clock the court room was literally crowded, and every seat within the bar was occupied. Among the visitors were a large number of colored men.

District Attomey Carrington said he was happy to proceed with the trial of John H. Surratt, charged with the murder of the late President of the United States. Abraham Lincoln, on the 14th of April, 1865.

The trial may possibly be postponed for a day or two on account of an informality in the selection of jurors; but if so, it will be occasioned by the defence, and not by the prosecution. The trial is to take place in a measure under the direction of Secretary Seward. It was through his agents that Surratt was tracked, captured and brought back to this country, and at his request Judge Pierpopt was retained in the case for the prosecution.

back to this country, and at his request Judge Pierpent was retained in the case for the prosecution.

The prosecution have succeeded in obtaining unimpeachable witnesses to prove that Surratt was in this city on the day of the assassination, and all his subsequent movements, from the time of his flight on the night of the same day, have been tracked with marvelleus precision. After leaving this city be fled northward, and was traced to Burlington, St. Albans, St. Lawrence and Moutreal. The hotels he stopped at are known, the meals he ate, his conversations, and the veriest trifles of his doings have come to the knowledge of the prosecution. The keepers of the hotels at which he stopped at these places are now here to testify. At St. Albans, where he was on the 17th of April, and not on the 15th, as previously stated, he dropped a pocket handker aide containing his name, and this article is now in the possession of the prosecution. Trifling link though it be in the chain of evidence against him, it is said that the defence intend to make an effort to prove that this handkerchief was dropped by a friend of Surratt's and not by the prisoner himself; but that effort will fail.

Puyne, one of the executed assassins, made a confession the night before his death, in which it is said he divulged the whole plot, implicating Surratt and cerroborating Weichman's testimony in every essential point. This confession was never given to the public before, but will probably be brought up on this trial. This will form another interesting chanter in the history of this States Revenue service in New York.

A nor went to shoot a bird in the neighborhood of Carrolltown, Cambria county, last Saturday, but missed his aim, and shot instead a Catholic priest named McGovern. Six shots were imbedded in the reverend gentleman's leg, and a painful though not serious wound was inflicted.

A RECENT Alabama newspaper learns from reliable gentlemen who have recently traveled over a large portion of the State, that the wheat crop is unusually promising, and in the counties of Lee, Coosa, Elmore, Macon, Talapoosa, Randolph, and Chambers, the yield is expected to be larger than it has been for many years past.

The Attorney General is said to be still considering whether, under the reconstruction act, a military commander can remove civil officers. The very best thing that erudite lawyer can do is to consider. He will find it extremely difficult, if not dangerous, to reverse Phil Sheridan's precedents.

Advices from New Orleans show that the extension of the time for registration by General Sheridan, has caused an increased registration by Several thousand, but on the first of

What Did It?—A young lady, returning to her country home after a sojourn of a few months in New York, was hardly recognized by her friends. In place of a rustic, flushed face, she had a soft, ruby complexion, of almost marble smoothness; and instead of 22, she really appeared but 17. She told them plainly she used Hagan's Magnolia Balm, and would not be without it. Any lady can improve her personal appearance very much by using this article. It can be ordered of any druggist for only 50 cents.
