It is said the demand for the "Gum Roller" Grain Drills or Seeders will be greater this year than ever before. No sensible farmer will do without a drill, and since the great secret of raising wheat is sowing early, ny farmer too stingy or thriftless to buy and who each year depends on his neighbor for a drill, ought either to change his tactics or hunt a new occupation.

June days have brought us more sunshine and clear bright days now cheer the farmer's heart, and fields of waving grain give prom ise of an abundant harvest near at hand. The season, however, is nearly two weeks later than usual: strawberries, which we usually have about the 10th, will not be ripe for at least a week yet, and other fruits and vegetables show the same backwardness. "Improvement — A Paper Mill. — Messrs. Householder & Schell, of Bedford county, Pa., yesterday purchased forty acres of land from Mrs. Constantia Gibson, for the purpose of erecting an extensive paper mill. The land lies two miles from the Levee, and has a splendid spring of water on it. These gentlemen are from Pennsylvania, and are men of ample means and superior business qualifications. It is their intention to put up a large establishment, and employ a great number of operatives. They came here first. Then went to Leavenworth, St. Joseph, Atchison, Omaha and Lawrence, to prospect, and finally came back, and selected Kansas City as the field for their operations. We congratulate the gentlemen on the soundness of their choice. Mr. Householder has been State Senator for several years in Pennsylvania, and Mr. Schell is a brother of Schell, lumber dealer in this city."

The only difficulty we encountered was the want of sufficient blast—as it takes a much stronger blast to smelt iron with coke than charcoal. It appears to have been a mooted question up to this time as to whether the coal in the Broad Top coal region would make a coke suitable for the manufacture of pig metal.
