Not only this; the visitors to a private family, say a relative, living out of the county, spending a few days here, under this regulation, if he desired to take a draught of our health-inspiring waters, would have to thrust his hand into his pocket to the extent of the tax, be fore he could enjoy the luxury. Thus it was not only a discrimination against those who desire to entertain strangers for pecuniary gain, but a discrimination against every head

of a family in the town. There is no denying the fact that there are ny number of persons who could not be induced to stop at the Springs from any consideration, if they had the remotest idea that they were not better conducted than they have been for the last few years, yet they desire to avail themselves of the pleasant resort. They are willing to pay for their baths, the use of the billiard and bowling saloons, the refreshments they consume while there, and gain, because all the money from this source would not be received, if the hotels and
