Schenck's Seaweed Tonic.

This medicine, invented by Dr. J. H. Schenck of Philadelphia, is intended to dissolve the food and make it into chyme, the first process of digestion. By cleansing the storach with Schenck's Mandrake Pills, the Tonic soon restores the appetite, and food that could not be caten before using it will be easily digerted.

Consumption cannot be cured by Schenck's Pulmonic Syrup unless the stomach and liver is made healthy and the appetite restored, hence the Tonic and Pills are required in nearly every case of consumption. A half dozen bottles of the SEAWEED TONIC and three or four boxes of the MANDRAKE PILLS will cure any ordinary case of days resistance.
