THE FIRST ELECTION UNDER THE RECONSTRUCTION ACT.

Tennessee Radical to the tune of 40,000

Brownlow and an entire Radical Congressional delegation elected.

The first election under the Reconstruct tion act was held in Tennessee on Thursday the 1st instant, which resulted in the re-elec tion of Gov. Brownlow and a full Radical delegation to Congress. The contest was one of the most violent that was ever con ducted on the American Continent. Pistols, bowie knives, bludgeons and every other weapon of an offensive and defensive character were the arguments of the opposition. Meetings were mobbed and broken up ; men were attacked and murdered for opinion's sake; and the most intense excitement prevailed in every precinct. But when the election day came, black and white went to the polls and voted their sentiments without molestation, and the result is a glorious one; a glorious triumph for the cause of humanity and equal and exact justice to all. The negro, with very few exceptions, voted for the Radical candidates, which forever settles the question of how the negroes will vote. This is the first dawn of the new order of things. It is the first triumph of free labor over the accursed system of bondage in the States which have heretofore been buried in the ruins of the slave-ocratic system. The day is not far distant when from Mason's and Dixon's line to the Gulf of Mexico the same steady column will march over every foot of territory and sweep every vestige of the dark ages from the arena of politics, and upon their ruins will be established the principles of the party, which in less than fifteen years, has wiped out slavery by one of the greatest wars of ancient or modern times. Hurrah for Tennessee ! Hurrah ! Hurrah !

THE APPROACHING ELECTION.

We are not at all sure that an elective Judiciary, with a limited tenure of office, i any improvement on the system of our fa thers, under which the Judges were nominated by the Governor, confirmed by the Senate, and held their offices for life, or during good behavior. The Constitution of 1838 imited the tenure of office, and an amendment of 1850 made the Judiciary elective. Many good men of both political parties opposed these changes at the times of their nception, and many good men now regard the experiment as an accomplished failure.

There can be no question that the farthe removed the Judges are from party association and position, and from partisan feeling, the more likely is it that the law will be ju dicially administered. And yet under the present system we are now approaching an election for Supreme Judge, which is of the

dominant party in the State, make nomina tions independent of politics? In spite of the protestations of many good men they hurled the election of Judges into the political arena, and have kept it there ever since, until now that they are in a hopeless minority they seek by this whining lie to deceive the people into voting for George Shars-

wood. And who is George Sharswood, and what are his antecedents, that an appeal shall be made to men to vote for him rather than for Judge Williams? Test the men by their judicial ability, integrity and impartiality, and the whole community of Judge Wil-liams' District, without distinction of party, will say that his superior is not anywhere to be found. Test them by the records of the Supreme Court as to the cases taken up from their respective Courts on writs of error and appeal, and Judge Williams will be found to have few if any equals in the State in this regard. Test them as to powers of patient investigation, quickness of perception, courtesy and freedom from petalancy and irritability, and Judge Williams will be found to be much the more eligible

A sound mind in a sound body is the especial requisite of a Judge who is to be elected for a term of fifteen years to a position on a Bench which is loaded down with work. Yet Judge Sharswood has been for

years an invalid. These people are very anxious to keep out f view the fact that Judge Sharswood years ago, before he ever went upon the Bench, was a partisan politician of the state-rights school; that he was an admirer and follower of John C. Calhoun, the man whom the patriot Jackson regretted till his dying day that he had not hanged. And above all, they are especially anxious to keep out of view the opinion of Judge Sharswood, made in the interests of that same secession school of politicians, that the General Government had no constitutional power to issue money to carry on the war to suppress the rebellion Had that opinion prevailed and been settled as law it would have utterly prostrated the power of the Government, and done more for the rebels than all their soldiery and cannon. But thank God, it did not prevail. Our people had faith in the Government and in the right to use all necessary means to crush out the great slaveholder's rebellion and they cannot now be wheedled, cajoled, lied, tricked, drilled or whiskeyed, into electing Judge Sharswood to the Supreme

A delegation of Southerners, says : Washington dispatch, including a prominent officer of the Johnson provisional govern ment of Alabama, has called on the President to protest against the removal of Generals Pope and Sheridan. They advanced the argument that the time for the removal of those officers has passed, and, admitting themselves to be thoroughly subdued, advised Mr. Johnson not to attempt to interfere with the execution of the reconstruction acts under a radical construction of their provisions. They feel assured that Congress, when it assembles in November, will nullify all such attempts, and that the only result will be to increase the severity of the laws for their future government. The President gave them but little satisfaction, and they left him under the impression that he would act independently of them or of any other men of common sense.

The Copperheads are distributing racts, entitled "Anti-Abolition Tracts," in this county for the purpose of showing that Emancipation is a failure. Year after year, these poor creatures have come around with a similar bundle of waste paper, until they have been defeated in every Northern State, and we predict in less than five years, they will receive the same treatment in every Southern State. How strange it is that some people never learn any thing. The apt saw, "The fools are not all dead yet" is constantly being illustrated.

The State election in Louisville

and throughout Kentucky as far as heard from, passed quietly. The result has been a Rebel triumph, by a majority variously estimated at 30,000 to 60,000. Louisville city and the county of Jefferson elected their entire Legislative ticket, twelve members. It is beleived that the Rebels in the State have elected seven cightha of the Legislature. In Louisville the Radicals and third party made a poor run, Helm the Rebel candidate for Governor, beating both his opponents by about 3,300 majority. THE Democratic papers of Pennsylvania have suddenly discovered that it is a terrible crime for judges to be in accord with the political sentiment of the age. The Dred Scott decision they regarded as the perfection of human reason, and they could not sufficiently praise the long line of pro-slave ry monsters who systematically divorced law from justice because the exigencies of Democratic politics required barbarous and tyrannical decisions. They complain only when it is proposed to administer laws in the interest of Liberty and Loyalty .- Press. THE latest news from Washington is that the Surrat trial is about ended. We shall rejoice when this is the case. It has been one of the most comprehensive cases for the lawyers not only have tried their prisoner, but also to make speeches upon almost every subject under the heavens. There is no doubt of the fact that the President has formally requested Secretary Stanton to resign his position. The President's friends assert that he has taken this course in order to secure unity of political reach their people mainly through their county papers, the mass of the reading and thinking public having advanced long since beyond the position of the sham-Democra-beyond the position of the sham-Democra-the United States but the whole world. The prospectors and geolo-the United States but the whole world to supply and Mercury in which they colaim that, "the selection of a Judge is a matter which should be out of the range of polities"; "in a Judicial cleation we should vote for the man not the party," &c. What a consummate assurance of men-dacity? Will they never learn to be homest with the people? Will they never learn to as good as the truth," is a false and scan-dalous one? Who made the election of Judges of the Supreme Bench were first elected why did not these people, then the selection we should vote, for the man not the party," &c. What a consummate assurance of men-dacity? In 1851, when the whole supplied by a home product, and that wrige that during the week en-ding Julg 26, 1867, there were enter the Judges of the Supreme Bench were first elected why did not these people, then the selected why did not these people, then the sele views in the Cabinet.

Favorable Reports of the Crops. The following is a condensation of the crop returns for July received at the De-partment of Agriculture: Never has the Department been able to report so favorable a prospect for unimformly good crops since the establishment of the statistical division, while exageneted statements have been

a prospect for unimformly good crops since the establishment of the statistical division, while exaggerated statements have been made in influential papers, especially of the so-called failure of the wheat crop of last year, and the importation of wheat in the face of the fact that \$12,000,000 worth of breadstuffs were exported in the first four months of 1867, immense numbers of emi-grants were fed, a much larger amount of wheat used as seed than usual, with a sur-plus still remaining over sufficient to break numerous speculators and banks. It is grat-ifying to know that we shall have a surplu to more than make good the deficiency, not the failure, for there never was a failure of the wheat crop in this country. Of the last three crops of wheat, three or four States — West Virginia, Kentucky Ohio and, Indiana — made but half a crop. No other States were in that category, and Iowa, Missouri and Kansas made a good crop. Instead of a deduction of fifty per cent, on inety millions of bushels of wheat, which would at least have threatened a famine, scarcely more than a third of that deduction should be made. For three years past the product has been but about five bushels to each inhabitant. The crop of 1859, if the census returns are correct, was but five and a half bushels to each person. The prom-ise for the present year is about six bushels. WHEAT. —The statistical returns for July show an improvement in the condition of winter wheat over last year in overy State but Texas, Nelynaka and Minnesota, the vinter wheat over last year in every State out Texas, Nebraska and Minnesota, the

but Texas, Nebraska and Minnesota, the diminution in the latter case being but four per cent. The highest improvement is in Ohio, 160 per cent; West Virginia, 78; Georgia, 96; Tennessee, 72; Indiana, 54; Kentucky, 53; Michigan, 35; Vermont, 25; New Jersey, 25; New York, 17. Spring wheat was a far less variable product than last year, consequently less variation in the figures used in the present comparison. All the States, however, except Vermont, New York and Pennsylvania, shows an in-crease on last year. CORN.—The average in corn is unusually

PASTURES AND HAY,-These crops are PASTURES AND HAY,—These crops are ilmost universally large, from an average up to fifteen, twenty and even thirty per cent. POTATOES.—The report of acreage of po-atoes indicates a larger area planted in very State except Maine and New York. Fhe condition is also above an average, with few exceptions, among which are New York, Ohio and Indiana. Enurge — Peaches are so exceptional in

York, Ohio and Indiana. FRUTES.—Peaches are so exceptional in their successful caecone and localities that estimates for States can scarcely be made with accuracy. New Jersey, as indicated by very general returns, shows 63 per cent improvement over last year: Maryland, 25; Delaware, 150; Virginia, 35; Michigan, 127. Locher States estimates are civen upon In other States estimates are given upon In other States estimates are given upon whatever data was received, generally show-ing a considerable increase overlast year. Apples are promising in portions of New England, the Allegheny region and the West. Grapes are more uniform in the average of States, and generally appearing unusually well. It has been a more suc-cessful year for strawberries than usual, as a study of the tables will show. SORGHUM.—The sorghum crop is gener-ally returned as in a comparatively poor

ally returned as in a comparatively poor condition, with lower figures than any other erop. Ohio and Indiana indicate a defici-ency in average of fourteen per cent. and in condition of ten per cent. All the principal sorghum growing States show a similar state of facts crop.

of facts. COTTON.—There is an increase of average in North Carolina, Georgia, Alabama and Arkansas; Texas. 10 1-10; Mississippi, 9 4-10; Louisiana; 8 1-10. The average is about the same as last year. There is a slight difference, as reported, in favor of the present crop. The department estimates

A Call for Enterprising Men.

HOPEWELL, BEDFORD COUNTY, Pa.,] June 26, 1867, }

HOPEWELL, BEDFORD COUNTY, Pa., June 26, 1867, J EDITORS JOURNAL OF MINING: Gentlemen:—I have frequently been re-quested, by a number of my friends, to call public attention to this interesting portion of our State, through the medium of your valuable journal, which has, doubtless, been and valuable information has been imparted to the American public, than perhaps any of ther source. Owing, however, to the framework of the article in question was appa-ied and startling events which have followed each other during the last five or six years. I have up to this time, deferred doing so believing that the public mind was not in situation to calmly look into and examina locality of our great mineral State, until the important issues in which we were involved were properly adjusted. That time having indefatigable energy, that is characteristic of the great nation in peace or war, is now ready to he directed and is any interview of the article in the *Patriot and Union*, a Democratic paper of that place, dated July 27, containing what purports to during the directed and is any invited. defatigable energy, that is characteristic of this great nation in peace or war, is now ready to be directed, and is anxiously inqui-ing for information as to where capital and industry can be the most advantageously employed in developing the hidden resources of our vast country. It is to this class of our citizens that I wish particularly to call attention to this hitherto neglected portion of our State, as having all the natural ad-vantages and resources that can be desired attention to this hitherto neglected portion of our State, as having all the natural ad-vantages and resources that can be desired to open up a great field of enterprise, and which must eventually become one of the most extensive iron manufacturing districts in the State. It has been said "that a prophet has no honor in his own country," the same may be applied with equal truth to sections of this country, which really possess more wealth than the same breadth of territory, embracing the richest gold mines of California. But, for some unax-plained cause, the peculiar advantages that

plained cause, the peculiar advantages that nature has deposited at our own doors are everlooked, and the glittering gold fields of distant sections of our country are selected by our enterprising young men, as the field of their future operations, and, in their haste to make money, they blunder over the seemingly more humble deposits of nature, to which, if they could he attracted, and in-

crease on last year. CORN.—The average in corn is unusually large, every State showing a material in crease, except in Maine, New Hampshire, New York and South Carolina. In the Southern States the increase ranges upwards of 102 per cent., as in Aakanass. The condition, as reported, is a little deficient in the Northern and Western States on ac-count of the lateness of the spring. With the continuance of the present weather is ample opportunity to make up the entire deficiency, in which case the yield will be unprecedented. RYE.—A glance at the tables will show the fine condition of this grain, and re-markable uniformity of the improvement. BARLEY.—The condition of this grain, Kentucky and Indiana, and forty-four per ent. in Ohio. Most of the other States show some increase. OATS.—The condition of asts points to an full average in the West, particularly in Wisconsin and Minnesota, also in Massa chusetts, Rhode Island, Connecticut, New Jersey and the South; slightly less than last year in Maine, Vermont, New York and Kentucky. PASTURES AND HAY,—These crops are lamout of ore this region, it is only necessary to state that the principal part of

the quality of the metal that is manufactur-ed from the ore of this region, it is only necessary to state that the principal part of the metal made here the last year, has been used in the manufacture of steel, for which purpose it is said to be peculiarly adapted. As another evidence of the estimation in which this ore is held by those who have tested it, I would say that a company from Danville, Montour county, Pennsylvania, are now mining and shipping it from this region a distance of zoo miles, and we be lieve the trasportation is altogether by railare now mining and shipping it from this region a distance of 200 miles, and we be lieve the trasportation is altogether by rail-road. If they can ship ore advantageously, which they certainly do, that distance, you can readily perceive the advantage there would be in the manufacture of the raw ma-terial on the ground where we have the very best of coal, limestone, water power, and the all important ore; indeed, all the facilities and requisites to insure a superior as well as cheep iron. And last, but not least by any means, we have the Huntingdon and Broad Top Railroad traversing, as it were, the

means, we have the Huntingdon and Broad Top Railroad traversing, as it were, the heart of this valley containing all these min-eral resources a distance of 43 miles. I might, indeed, fill columns of your paper with this important subject, but I have now transcended the limits I intended. Hoping this may find favor with that class of enter-prising men, for whom it is more particularly intended, and they may avail themselves of those zolden opportunities to enrich them-Presing men, for whomit is more particularly intended, and they may avail themselves of those golden opportunities to enrich them-selves, and their country with them, in de-veloping by their energy this rich field of deposits; and in the future, watching these important developments which mnst and certainly will take place. I may, perhaps, be enabled to give you a more detailed account of this region of country in regard to this important subject. I would respectfully refer persons desirous of having any further information in relation to this region to John Fulton, Esq., Resident and Mining Engineer at Saxton, Bedford county, Penn-sylvania. JOHN F. LOWRY.

Spread the Truth!

Some medical men insist that it is undignified o advertise a remedy, however valuable it may be. Queer reasoning this. It is like saying that an article which the world needs should be hid in a corner—that benefits and blessings may be too diffused-that the means of protecting and restoring health should be a close monopoly, and not accessible to all. The argument is bad. It is worse than that: it is inhuman. Suppose HOS-TETTER'S STOMACH BITTERS—an absolute specific for dyspepsia, Biliousness and nervou debility-had never been known beyond the rep rtoire of the faculty, what would have been the consequence? Instead of curing and invigorating nillions, the good effects of the preparation would have been confined to a comparative few. There is the highest authority for saying that ligh ahould not be hid under a bushel; that whateve is excellent should be placed as a city on a hill

where all men can take cognizance of it. It is upon this principle that the BITTERS have been edge extends. REGISTRATION is to commence immedi-ately in South Carolina. In accordance with an order dated August 1st, by Major General Sickles, Post Commanders are to be superintendents of registration within their respective commands, exercising, in addition to the functions conferred, general supervi-sory authority looking to the faithful execu-tion of the several reconstruction acts and maintenance of order. They will suspend Registrars for malfeasance in office, neglect of duty, or incompetency, and promptly re-port their action, with the reasons therefore to the commanding General. The regula-tions are severe against persons endeavoring to thwart the rights of registration, the of-fenses perpetrated by white persons disguis-ed as blacks are of frequent occurrence, therefore, the attention of all authorities, civil and military, is directed to the device advertised and continue to be advertised in every newspaper of any prominence in the western hemisphere, and that the spontaneous testimoni-als in its favor have been translated into all written languages. Thousands enjoy perfect health to day who would be languishing on beds of sickness if the newspapers had not spread the truth with regard to this unequaled invigorant and cor-rective far and wide. Suppose profit has been reaped from this publicity. Is that any argumen against it? If the public health has been proto ted; if lives have been saved; if the feeble have been strengthened and the sick restored, great good has been accomplished; and who so mean as to gradge to exertions thus directed their fair re-

THE New Yorkers are becoming disgusted with their detective police. They lost over with their detective police. They lost ove two million last year which those gentlemen couldn't find again.

utmost national importance, in view of the Presidential election of next year, and the influence this election will have "upon that. If the Democratic party (falsely so-called) fail to carry Pennsylvania this Fall, they have played their last card. The utmost hardihood of assurance will scarcely enable them to brazen the thing out any farther. They will then surely abandon the offensive

carcass of their dead party and bury it out of the sight of honest and loyal men, and start some new party on new issues and with new leaders-issues and leaders that will not recall to men's visions the bloody drama through which we have just passed ; a party organization operated for years in the interests of slavery, culminating in the imbecile administration of Buchanan, and in a desolating war which loaded the nation with debt, and ridged the whole country from the Susquehanna to the Gulf with the graves of a million of men hurried into eternity in the prime of youthful manhood.

It is said that the men who call them selves the leaders of the Copperhead party of this State, of whom Mr. Wallace of Clearfield is the great Corypheus are no satisfied with the repeated defeats of the last nine years, which we would suppose might now be regarded as their normal, or at least nic condition, but are really making : grand effort-with unusual care in the matter of township and county organizations, and with their usual use of money and whiskey.

As a blind to their operations they are publishing in all their county papers (they reach their people mainly through their

ade last October, of 1,835,000 bales proved b be singularly accurate for approximate alculations of so early a date, though they rere severely criticised by Northern and outhern speculators, some of whom publicly cknowledged their error after the crop wa acknowledged their error after the crop was sold. It is too early to predict the success-ful avoidance of all the numerous enemics of cotton. Had the last crop been a good one, it would have yielded 2,500,000 bales. A very good one would have realized 3,000, 000. Such results are possible this year. Woot.—An examination of this item of the tables will show that losses of sheep, un-thrity condition and a wet spring have had an influence both upon numbers and weight of fleece, and will lead to the conclusion that our wool clip of the present year is not ma-

The department

our wool clip of the present year is not ma-terially larger than that of last year.

The Campaign.

The Campaign. As soon as Mr. H. W. Williams was made the Republican candidate for Supreme Judge, a considerable proportion of the Democratic newspapers of this Common-wealth opened upon him their batteries of personal abuse. They even proceeded so far as to denounce him as unworthy of pub-lic confidence because he happened not to be born in Pennsylvania, thus evidencing; whatever they may profess to the contrary, that they surpass in their inmost feelings the exclusiveness of the defunct Know Nothing organiztion. So far not one Republican journal has been found to assail the personal character of Mr. Sharswood. But a number of them have commented deepously on one or more

of Mr. Sharswood. But a number of them have commented decorously on one or more of his official acts. Hereat the Democrat-ic journals join in a chorus of objurgations. What would they have? They naturally in-sist that the official conduct of Democratic functionaries shall not be reviewed. Judg-ing from the way they discourse, if they had the power they would exempt their friends who hold public places as absolutely from just criticism as Napoleon III. contrives to hold himself and his agents. Fortunately, their authority is not equal to their will.

FROM TENNESSEE.

The President Repudiated at Home.—The Toren that Contains the Tailor Shop "Nips" the Tailor.—A full Radical Con-gressional Deligation. KNOXVILLE, Aug. 2. —Twelve counties in East Tennessee give Governor Brownlow thirteen thousand majority. The conser-vatives admit that with thirteen counties to hear from the majority in Rest Tennessee ar from, the majority in East Tennessee ill be increased to twenty thousand. The radical Congressmen are all elected

In a radical Congressmen are an elected as follows: I. Judge R. R. Butler. 2. Horace May-nard. 3. W. B. Stokes. 4. James Mul-lins. 5. John Trimble. 6. Samuel M. Arnell. 7. Isaac R. Hawkins. 8. David A. Nunn. The Legislature just elected is also largely Radical, which secures the elec-tion of a Republican United States Senator in place of Patterson, Andy Johnson's son-in law, who has also turned rebel. The Radical majority in Greene county, the home of the President, is 739, and in Greenville, celebrated as containing the tailor-shop, the Radical majority is minety. This majority in the county is double the whole number of colored voters, and dis-franchised citizzens. In the mountain coun-ties, where there are scarcely any colored

es, where there are scarcely any colored oters or disfranchised citizens, the Radical ajority is about the same as the majority

in 1861. The Radicals are prepairing for a grand celebration in honor of their victory. There will be a toreblight procession and general illumination to-morrow evening. Emerson Etheridge, the defeated candidate for Gov-ernor, is here cursing the East Tannesseeans. Several freedman have been discharged by their supplement in Nashville for yoting

THE American iron clad ram Dunderburg, which was purchased by the French Govern-ment after a remarkably quick and successful trip across the Atlantic, has reached her desination in safety.

The Jackson (Mich.) Citizen says that documents found in the trunk of W. Alwin Lloyd, proprietor of Lloyd's Minstrels, that recently performed in that city, and who ran away from his troupe at Jackson, show him to have been during the war an agent of the rehel government. Among the documents

to have been during the war an agent of the rebel government. Among the documents was a letter from Jeff Davis to Colonel Lloyd, relative to the best manner of depreciating the Federal currency. There were also passes from Lloyd to General Winder, letters from prominent rebels, maps, his commission as colonel in the rebel army, etc., stamping him as not only a scoundrel, but a sneaking spy and rebel.

FACTS FOR THE PUBLIC, Easily verified by examination, which we respect fully invite. 1. We have the largest establishment for the

Saratoga Spring Water, sold by all druggists manufacture and cale of Clothing in Philadelphia, extending through from 518 Market street to 511 Minor street, and occupied exclusively by our

WHAT DID IT? -- A young lady, returning to her country home after a sojourn of a few months in New York, was hardly recognized by her friends. In place of a rustic, flushed face, he had a soft, ruby complexion, of almost marble smoothness; and instead of 22, she really appear-ed but 17. She told them plainly she used Hagan's Magnolia Balm, and would not be without it. Any lady can improve her personal appearance very much by using this article. It can be order-ed of any druggist for only 50 cents. Saratoga Spring Water, sold by all druggists \$20,00 AGENTS WANTED - \$100,00-SEW PATENT, STAR SHUTTLE SEWING MACHINE. It is adapted for family use and Tailoring. It makes a titch alike on both sides. Price only TWENTY DOLLARS. Extmandi-
