OUR COUNTY FAIR-By an oversight we omitted to call attention to the fact that we are to have an Agricultural Fair. The premium list will be found in our advertising columns. The list is extensive and the promiums as liberal as the funds of the Society will allow. Now that an effort is being mad o arouse our people to the necessity of an nproved system of Agriculture in Bedford ounty let all go to work and prepare to bring their best fruits, grain, manufactures, &c, to the Fair so that it may not only be a succes but a credit to the community. All cannot expect to take premiums, but every one can assist in making a fair display and each will not only be gratified but profited by seeing what his neighbor can do and in what he ex

els. Indeed the chief advantage of thes fairs is to bring the people and production the various parts of the county together people that they may interchange opinio and discuss for mutual benefit-their varie ethods of culture-the products that each nay see what his neighbor is special brand of agricultural or mechanic ndustry by following a particular method Such comparisons always stimulate to, increased interest and energy in the various dustrial departments and thereby promote the prosperity of the community. Workmen are already employed in enclosing the fair ground and the various committees are actively a work, making all necessary arrangements Let all who desire to promote the industrial interests of our county contribute whatever is in their power and encourage with their sym

Spread the Truth! Some medical men insist that it is undignified to advertise a remedy, however valuable it may be. Queer reasoning this. It is like saying that an article which the world needs should be hid in corner-that benefits and blessings may be too widely diffused-that the means of protecting an estoring health should be a close monopoly, and not accessible to all. The argument is bad. It is worse than that it is inhuman. Suppose HOS-TETTER'S STOMACH BITTERS-an absolute
