OCTOBER.

Upon the brown and far off hills The haze lies soft and blue, Where nuts are dropping thick and fast, Where Summer wild flowers grew.

The Maple's gold and crimson leaves. Like blood-stained banners gleam,— And purple aster's ope their bloom e each forest stream.

The woods like some grand temple stands Beneath the glowing skies, While down the long dim aisles, the haze Like slumb'ring incense lies.

No organ's deep, majestic notes Come peeling on the air— No choral strain triumphant flies Along those arches fair-

No voice is heard-no sound, save but The brooklet's rip'ling flow, Or whistling quail in covert thick, Where scarlet berries grow.

Perchance some frightened rabbit's tread, May wake an echo there. Or drowsy hum of honey bee Fall on the dreamy air.

The sunflower and the golden rod Their gaudy hues unfold, And seem as if some Midas touch Had changed them into gold.

The grapes in purple clusters hang Upon the clinging vine, And in the orchard, 'mid the leaves, The ruby apples shine.

But through the forests, o'er the hill A voice comes whispering low-It murmurs of the wintry winds And of the falling snow.

The crimsoned leaves to earth must fall, And breezes o'er them sigh-Oh! sad it seems that aught so fair Should ever fade or die.

We read on every falling leaf This lesson most sublime, That Resurrection's holy power Shall triumph over time

For though the summer flowers may fade, The Spring with sun and rain Shall call them from the vale To bud and bloom again.

ARRIVAL OF A LIVE GORILLA FROM AFRICA.

Tie New York Fost of September 25th. says: For the first time there is a live but in man gorilla in New York—a gorilla like those of lineations. which Du Chaillu has told us so many wonderful stories in "Equatorial Africa," and "Ashango Land."

At a late hour, yesterday afternoon, there was an extraordinary excitement in the neighborhood of Barnum's Museum. The gorilla had arrived, and his roars attracted Born in the free West; surrounded the

The animal was caught in the interior of Africa; and was put safely on board the sail of self reliance, and in taking up her beauing ship Harding, and conveyed to this port. The box in which it was caged during the voyage was made of teak wood plank-the toughest material that could be found in gling genius. Yet in the continuous effort, Africa. The rope was attached, when the gorilla began pulling in his chain. Professor Davison and Mr. Brothwell both grasped the chain, and several men behind grasped the rope, but their united efforts were unequal to the task. The animal, with apparent the choicest liquors. In short, it is my purpose to keep a FIRST-CLASS HOTEL. Thanking the public for past favors, I respectfully solicit a rope, and untying the rope from the chain, renewal of their patronage. dropped it from a hole in the cage.

Mr. Brothwell then got the largest cagescraper in the building-a huge wroughtiron bar, an inch and three-quarters thick, to which is attached a small spade-for the purpose of bringing out the end of the chain. This scraper had been used successfully in several contests with the lions of the estab lishment, which had vainly tried to make an impression upon it with their jaws.

Mr. Brothwell and Professor Davison each took a scraper, and from opposite ends of the cage endeavored to foil the gorilla, the trials she must expect to encounter from and grasp the end of the chain. Finally the gorilla seized the bar which Mr. Brothwell held. Another man, who is noted for

a resistless force of six thousand pounds, is attached to the animal.

For five years past, Mr. Barnum has been endeavoring to secure an animal of this species, and ordered his agent in Africa, to secure one without regard to cost.

Mr. B. P. Clayton, Mr. Barnum's agent, a few months since wrote that he could seeure one for \$8,000, but that the British Government were making every exertion to secure it for the Zoological Garden in Lonlon. Mr. Barnum sent word that he must have this one, if it cost a much greater. Accordingly, the gorilla was brought to Amerca, and is now safe at the Museum.

When standing upright it is about five and a half feet in hight, and is about the color of an elephant. Its face has more the appearance of a human being than of a monkey, with an eye exactly like that of a human being. Its hand is as delicate as that of a woman's, and it would not seem possible that there is in it such muscular power. This morning it exhibited an intense hatred of Mr. Brothwell, who was yesterday

nstrumental in its capture. Professor Davison feeds the animal upo vegetables, but allows nothing of acid to be placed in the cage. If the gorilla becomes irritable it is soon quieted by placing a few cloves or nutmegs in its cage.

MISS VINNIE REAM. A correspondent of the Anti-Slavery Standard writes from Washington: In one of the chambers of the Capitol, appropria ted to her by Congress since her commission to execute the statute of the late President Lincoln, the almost child sculptor has her studio. Light and airy, tastefully decorated with flowers and evidences of her creative skill, it is the fitting abode of art. We found Miss Ream busily employed upon a group in clay, to be entitled "America," which will fitly symbol our country when a true reconstruction is perfected. Under her skillful manipulations, clayey outline daily more nearly approaches the form of the martyr President; and she hopes to bave the complete moded wrought in time to enable her to sail for Italy, at the latest, within three months. Orders flow in upon her, and busts and statuetes, crowding the niches of her studio, speak eloquntly of her employment. Familiar faces look upon you from plaster; names well known spring to your lips as you gaze alternately upon Senators, Generals and dignitaries, evoked from the past, or reproduced with marvelous fidelity from the present. The "Great Commoner," Stevens; the sad-eyed Lincoln; the astute Reverdy Johnson, are among those the eye recognizes as most happily depicted, but in many others are revealed correct de-

With two million seven hundred thousand square miles under its control, only 120,000 people live in it. For 110 years it paid annual dividends of seventy percent. As far back as 1689-a hundred years be fore our Government organized—it paid dividends of fifty per cent. It ate up a rival fur company, the "Northwestern," about forty years ago, and in 1865 sold one millio two hundred thousand gold dollars worth of furs, which cost it in imports only two hundred thousand dellars. It has one hundred and sixty-four trading posts, is subject to no law, warns people of its immense estate as you would warn a man out of your office, and protests that grain shall not grow in the haunts of the raccoon, nor prayers be said where the lynx crunches the bones of the Indian squaw. The cap ital of the company is seven millions of gold dollars, and they own a million gold dollars worth of property in American Oregon, secured to them by the treaty of 1846.

Under the circumstances this was quite natural, inasmuch as more than one mistake of this kind had happened in the house recently. Now, it appeared that no less than three husbands were absent when they should have been there, and consequently there was more or less wonder, mixed up with a species of apprehension, on the part of three wives, each one wondering whether it was her husband who had just forgotten

himself or the room. "Oh! come up quickly," shouted the terrified female, holding on to the outside doorknob, "I've got him in!"

SPEAK KINDLY.

Much of the happiness in this world arises from giving utterence to hasty, unkind words. Many a sorrowful hour and sleepless night have been spent brooding o'e some harsh or angre word, which has drop ped from the lips, in a moment of ungarde passion. How much pain we would save ourselves and others, if we would gard all our ways and actions. Kind words, spoken in the right time and place, do more to hea the wounded spirit than all the gold which this world can give. They cost nothing while they enrich the heart and scatter sunshine all around, winning many true and

MAKE the heart right, and the man will be right, the woman will be right, the child will be right; make the men, women and children right, and the name will be right; make the homes right, and the town and city will be right; make the towns and the cities right, and the States will be right, and the nation will be right; make the nations right, and the world will be right.

A GENTLEMAN called to see a tenement hat was to be let. It was shown to him by a pretty, chatty moman, whose manners charmed her visitor. "Are you to be let, too?" inquired he, with a languishing look.
"Yes," said she; "I am; I'm to be let

A Boston wit, defining the difference between an accident and a misfortune, says: 'If Andrew Johnson should fall into the tomac river, it would be an accident. (Andy J. don't like water,) and if he should ver get out again, that would be a misfor-

A LADY fell into a river, and a poor boy rescued her. When she was safe, her hus-band handed the brave fellow a shilling. Upon some of the bystanders expressing inlignation, the latter said, as he the coin, "Well, may hap if I hadn't saved her, he'd have given me a sovereign.'

BEAR AND FORBEAR. -- If we would have ife move on smoothly, we must learn to bear and forbear. We must indulge the friend we love in the little peculiarities of saying and doing things which may be impor-tant to him, but of little moment to us. Like children, we must suffer each one to build his playhouse in his own way, and not quarrel with him, because he does not think

Colerings was descanting in the presence of Charles Lamb upon the repulsive appearance of the oyster. "It isn't hand-some, Coleridge," said Lamb, "but it has the advantage of you in one thing."
"What is that?" queried Coleridge, who as every body knows, was an exhaustless talker. "It knows when to shut its mouth," was the reply.

A MICKERING pair of Quakers were lately heard in high controversy, the husband ex-claiming, "I am determined to have one quiet week with thee!" But how wilt thou be able to get it?" said the taunting spouse, in "Teitration," which married ladies so provokingly indulge in. "I will keep thee a week after thou art dead," was the Quaker's rejoin

What is the difference between a rifleman who shoots wide of the target, and a busband who blockers his wife's eyes? The one misses his mark and the other marks his missis.

It is a singular fact that ladies who know how to preserve everything else, can't preserve their tempers. Yet it may easily be done on the self-sealing principal. It is only to "keep the mouth of the vessel tightly closed. "Patrick, how long has it been since you

sands of life are running out. A woman's tears are generally more effective than her words. In such cases, wind is a less powerful element than water.

It is not so much trouble to get rich as i is to tell when we are rich.

A man who bumps his head against that of his neighbor isn't apt to think that two heads are better than one.

"TLL take the responsibility," as Jenkins said when held out his arms for the baby. Who is the greatest poulterer in Shakspeare? Claudius, King of Denmark, because
