swered affirmatively by the Court, viz:

First. That there is no evidence showing that Plaintiff was either a passenger upon Defendant's railroad, or at their station fo the purpose of becoming one, or that he stood in any such relation at the time of his alleged njury, as to impose upon the Defendant the discharge of any duty towards him, and there fore the verdict must be for the Defendant

Second. A Railroad Company must pro-vide a platform sufficient for conducting the ordinary business of their road, and the andisputed evidence offered by both parties showing that such platform was provided at the ohnstown station, and that it was broken down by an extraordinary crowd of persons not passengers, and not there for the purpose of becoming passengers, of whom the Plaintiff was one, he is not entitled to recover for any injury sustained by such accident and the verdict must be for Defendant.

We learn from the Cambria papers that the case will be taken to the Supreme Court. If this decision is sustained there, it will dispose of all the cases, and give us all to understand that if we go into large crowds at railroad stations to gratify curiosity, we do it at our own risk. - Huntingdon Globe.

Though very good in the past, the quality of the first number for 1868 shows that this superb journal has still better things in store for this year's volume. The paper has been kept up to its full standard of excellence, by the associate editors, and we learn from the number before us that Mr. Orange Judd, the long time editor in chief, has just returned from his lengthy tour in Europe, rested and reinvigorated, and that he will resume his labors upon the Agriculturist, with no diminution in the recen strong editorial force that have so ably con lucted the paper in his absence. Work on the rock-cutting on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United Status grants its Six per cent. Bonds at the rate of from \$16,000 to \$48,000 per mile, for which it takes a second lien as security, and receives payment to a large if not to the full extent of its claim in services. These Bonds are issued as each twenty-mile section is finished, and after it each twenty-mile section is finished, and after it has been examined by the United States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots repair-shops, stations, and all the necessary rolling stock and other equipments. The United States also makes a donation of

12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests and abound in
