BEDFORD, PA., FEIDAY, MARCH. 20, 1868 STATE TICKET. AUDITOR GENERAL: GEN. JOHN F. HARTRANFT, OF MONTGOMERY COUNTY. SURVEYOR GENERAL CCL. JACOB M. CAMPBELL,

Bedford Inquirer.

OF CAMERIA COUNTY.

In looking over the reports of the county bactons for the purpose of securing such and expenditure of money for this purpose as shall accomplish the largest amount of ac-commodation to the public and build bridge cs where they are most needed. Such is the real design of the law. The results ob tained in our county seem to be in direct contravention of this design. A large num-ber of bridges have been built in the Northstreams that rise and fall again in a few hours or days at most, while in the Eastern and North Eastern part of the county where the stream or streams are large and frequent ly impassable for months there are searcely any bridges. Beginning at the narrows below Bedford the southern or Raystown branch in a distance of about sixteen or

eighteen miles has no less than five county, and three turnpike bridges, making a bridge to about every two miles over a compara tively small stream. Beginning at the same point on the north branch or Denning's creek we find in about sixteen miles six county bridges or one to about every two and a half Now starting at the same point and following the two streams, now united and do likewise forming but one and receiving a number of other considerable streams, Eastward until REPUBLICAN STATE CONVENTION. it reaches the Huntingdon county line, we find in a distance of thirty miles just one turnpike bridge and three county bridges From Bedford to Bloody Run there is none a distance of eight miles, where in the Spring of the year no teams can cross, sometimes for a month or two in succession, and though a view has been made and a favorable re port returned, the consent of the Grand Ju-ry has been withheld for four years past. From Bloody Run to the crossings there is none, a distance of six miles, where the stream is still larger and for a considerable length of time each year in the same impassable condition. From the turnpike bridge at the crossings there is none until we reach Hopewell a distance of perhaps fifteen or twenty miles with the volume of water continually increasing. The distance from Hopewell to the bridge known as Rhoad's at Stonerstown we do not know, but it also is considerable. How Grand Jurors and Commissioners have, for years, everlooked such glaring wrong we cannot imagine. Why they should go on building bridges at the expense of the county over every rivulet in some parts of the county and be utterly deaf to the rights and necessities of others is entirely inexplicable to us. Let the people of the county arise and demand that their interests be no longer prejudiced by

such injudicious expenditure, but that the hard earned money of the tax payers of the county be so expended as to develop the industry and promote the prosperity of one part of our county as well as the other. True, the expenditure may be greater in building bridges over the large stream, but the necessity is also infinitely greater. There is neither reason nor excuse for any longer neglecting the crying wants of that portion

of the county lying along the river East of Bedford. Let our grand Jurors and commissioners note the fact, and render their account to the people

THE PLANK THAT WOULDN'T FIT.

Ar the last meeting of the Republican Commissioners for several years back, we have been struck with a singular feature in gate was elected to attend the State Conventhe expenditures. We find sums ranging tion and instructed by a three-fourths vote, from one hundred to several hundred dol. hars expended for building bridges in various parts of the county. Now the building of bridges in data and by the unanimous vote of two previous public meetings to vote for E. M. Stanton for Vice President. The convention met at parts of the county. Now the building of bridges is hedged around with many exami-nations for the purpose of securing such an expenditure of money for this purpose as Wm. S. Moore, Representative delegate.

WON'T WORK .- The Gazette of last week attempts to bring about the impression that we are the authors of the vile epi ern and Western part of the county, over thets applied to Andy Johnson in the IN-QUIRER of week before last. This is not the case, - not by any means. They are all quoted, -- and QUOTED TOO FROM THE Gatte AND OTHER LIKE CHASTE JOURNALS, and made use of by them against A. when he was "our" man. Now that he is their man and all that they ever called him, we just use these by way of reminder.

Around the auditorium of the Academy and in front of the tiers from pit to dome the national colors are displayed, inter-spersed with State and national flags, coats of arms, corps flags and guidons. A fine portrait of General Grant occupies a con-spicuous position in the centre of the build-ing, and suspended from the ceiling are the names "Lincola" and "Grant" made up of gas jets. A haracter and enthusiasu with which you have nonlist, and an intervent of the second secon proposal was proclaimed of usurping the Government, and of treating as nullities all lagislation enacted for the security of the country. In subservience to this intention, and in concert with the disloyal sentiment of the country. Andrew Johnson has falsified all his pledres and professions, treacherousty betrayed the trust confided to his keeping, prostituted his patronage and power to the basest ends, shamefully affiliated with eriminals and traitors and outraged and de-fied the known will of the people, usurped and exercised illegal and despotic authority, stimulated and fermented lawlessness, vio-lence and bloodshed, and defanuly treated with contempt the laws of the land, and trampled them under his feet. Prevent and correct their disastrous conse-quences, shrukking the while, for the sake of peace, from a resort to severe and ulti-mate proceedings. This policy acted but as an incentive to further arbitrary acts of disloyality and defance, culminating in the President's revolutionary attempt to usurp both judicial and legislative functions. Such andacious acts at last aroused the rep-resentatives of the remedy. Bitter experi-ence had taught them that the President was utterly faithless and treacherous, hope-lessly lost to all considerations of honor, duty, and truth, and fatally bent upon mational dishonor and degradation. To suffer tim and peace, but to destroy the credit of the country, i 6 encourage and sanction crime and misrule, and endanger the very existence of our republican in-stitutions. With a promptness and vigor demanded by the, seriousness of the crisis and the maguitude of the subject, they in-voked the great constitutional remedy of impeachment, and to-day this unfaithful servent stands a culprit before the bar of the Senate, charged with the commission of high crimes and misdemeanors. That his conviction and deposition from office will speedily follow no man can doubt. Sternly and remorsely let the sentence be pronoun-ed, and the pensily inflicted, that his ad-ministration may

forever in the nostrils of the people." Next to the removal of his accidency, no question of greater importance is presented than the preservation of the national credit and the blighted faith of the country and disacter of repudiation. Naturally the ene-mies of the Union, not only those who strove by force of arms to overthrow it, but also those who, too cowardly to take up arms in the attempt, sympathized with the effort, as hostile to the payment of the debt contracted in preserving our liberties. Fail-ing to accomplish the destruction of the Government by bloody war, they propose the same result by the ruin of its credit and the repudiation of its obligations, and are now by subtle and villainous approaches, disquised under demagogical professions of regard for equality seeking to debauch the popular mind, and lead it to the perpetra-tion of the lowest dishonesty. It is our duty not only to resist these insidious designs, and denounce the dishonor and infamy of the attempt, but also to proclaim our unalterable denounce the dishonor and infamy of the attempt, but also to proclaim our unalterable purpose to maintain iuviolate the faith and honor of the Government, by paying to the last dollar its bonds, according to the pledges given to its creditors, by whose money its existence was preserved, and its triumph assured.
