UP IN THE MOUNTAINS.

Every summer vacation, I ask myself, why do people who have no other life...

ABOUT WOMEN AND HOME.

We heartily commend the sentiments of the following article from the New York Mail. Every husband and every wife should read it.

THE CANDIDATE.

Such is the candidate which I present. There are many points in his favor. Our people would do well to consider...

THE PRESIDENTIAL CANDIDATE.

The Democratic Candidate for the Presidency, Mr. Nasby Hoists the Name of a Post of His Acquaintance in Southern Maine.

PENCIL-LEAD MINES AND LEAD-PENCILS.

Every one knows what a black lead pencil is, but it is not generally known that there is not a particle of lead in the pencil.

AMERICAN AND ENGLISH WOMEN.

The contrast between the manners of American and English women in the street is very noticeable; and abroad our manners are looked upon with little distrust if not with admiration.

WHAT RAILROADS DO FOR FARMERS.

The American Agriculturalist says: To haul forty bushels of corn fifty miles on a wagon would cost at least \$12 for team, driver, and expenses.

MILES O'REILLY LEADS ON THE Loyal BRANCH.

The Democratic party, against the usual custom of slander and foul-mouthed abuse, courageously, and we hope to chronicle its adoption into the Republican family...

REV. O. B. BROTHINGHAM SAYS.

If intolerance is ever removed from society, it will be by means of the moral force which affects people in society, not by policemen, but by principles, not by bastons, but by ideas; not by statutes, but by influence; not by prohibitory laws, but by restraining, regulating sentiments.

DR. FRANKLIN WOULD SAY THAT RICH WIDOWS.

Rich widows are only the price of second-hand goods that sell at a price cost!

HOW TO SUCCEED.

The cashier of one of our leading banks resigned some time since and the paying teller was immediately elected to fill his place.

DYES AT THEIR SOURCE.

Dyes, like perfumes, are often derived from the most repulsive sources; gas turgid, the magenta and the indigo are made from the urine of the cow and the sheep.
