

Bedford Inquirer.

BEDEFORD, PA. FRIDAY, JULY 3, 1885.

THE INQUIRER ENLARGED.

NOW IS THE TIME TO SUBSCRIBE!

HO! FOR THE CAMPAIGN!

THE NEW YORK TRIBUNE

AND BEDFORD INQUIRER

FOR THREE DOLLARS!

The proprietors have enlarged the INQUIRER to an eight column paper.

We are compelled to do this to meet the growing wants of our community.

The addition of a column to each page, together with considerable addition to the length, will enable us to lay before our readers much more news than we did formerly, and give them all the advantages of both a local and general newspaper.

INQUIRER FOR THE CAMPAIGN.

We will issue the Inquirer from the 1st of June until the 7th day of November, 1885, (the close of the Presidential campaign), for the following comparatively low figures:

1 copy, in advance..... \$5.00

12 copies, in advance..... 50.00

24 copies, in advance..... 95.00

36 copies, in advance..... 130.00

THE NEW YORK WEEKLY TRIBUNE.

We will also send the New York Weekly Tribune, and Bedford Inquirer, for one year, to any person who will pay the three dollars in advance.

Those who have already paid in advance for the Inquirer, since the first of February, by paying us one dollar additional will have the Tribune sent them from the 1st of May 1885, to the 1st of May 1886. This is one of the best opportunities ever offered. The campaign will be a most animated one, and to give our readers the advantage of a leading newspaper we have made this arrangement. Now is the time to subscribe. Who will raise a club for the campaign?

DURBORROW & LUTZ, Editors and Proprietors.

Local Affairs.

No Paper.—There will be no paper issued from this office on next week, in order that our employees may fully enjoy the Fourth.

The Fourth.—From present indications there will be nothing of importance transpiring here on the Fourth of July. Several pic-nics are spoken of as being the only observance of the day. The places of business generally will be closed.

Gov. Geary has appointed D. W. Woods, of Lewistown, A. S. Ely, of Lebanon and W. S. Woods, of Carlisle, a Board of Commissioners, to visit the Southern Branch of the State, to investigate and adjudicate the claims of citizens whose property was destroyed by rebels during the war.

Improvements in Woodberry.—The citizens of Woodberry have made some very neat improvements within the last year. The old town has been brushed up and it begins to look as neat and clean as a new pin. A number of new additions to old buildings have been erected and they add very much to the general appearance of the place.

The usual Standing Committee on Improvements in this Borough, can be called at almost all hours of the day, and the committee of persons making improvements, advising and suggesting, gratuitously, what in their judgment would seem most advisable. The Committee varies in numbers from one to twenty according to the intensity of the town's rays.

Notice.—The "Salts Paekadledreded Phost-Kavalry" will not be out on the Fourth. The locusts appearing in great numbers had considerably to do with the disorganization of this body guard. We expect, however, that the "Bounded-trunk Bullboys" will be out in full force, should the New York Democratic Convention not call them all to that city.

Grant and Colfax Campaign Club.—The second regular meeting, of the Grant and Colfax Campaign Club, of Bedford Borough, will be held in the COURT ROOM, on the evening of July 11th, 1885, at eight o'clock. Hon. John Cass, J. T. Keagy, Esq., and others will address the meeting. The Republican Band will be in attendance. The ladies are cordially invited to be present.

JACOB BARNHART, D. S. ELLIOTT, Sec. President.

IMPORTANT.—We would earnestly urge it upon our friends, throughout Bedford county, to organize Grant and Colfax Clubs in every district in the county, and begin the campaign in earnest. We must give the Democracy a regular Appomattox ratification this fall, and in order to effectually do so, we must present a bold front and a well organized force. See to it Union men. Let the work be begun at once.

SOMERSET REPUBLICAN PRIMARY ELECTIONS.—The returns, says the Herald and Whig, are not all handed in yet, and therefore we are unable to give a full and complete table as intended this week. Will do so next week.

Up to the time we go to press, the vote stands, with Addison, Lower Turkeyfoot and Northampton townships and Salisbury Borough yet to be heard from, as follows:

Congress—Knoox, 1882.

Legislature—Walker, 771; Walker, 663; Kie, 411; Kieper, 369.

HIGHLY IMPORTANT.—The following literal copy of a "Notice," stuck up in the public places of the town, we publish for charge, for the benefit of those who won't or can't read written notices:

Notice is hereby given by the Citizens of Bedford Borough and the Town Council that each and every man having Sellers under his building must have his Leaned Out, by order of the Town Council.

JOHN HARRIS High Constable.

The Herald of Health, for July, contains a very powerful article, by Grace Greenwood on the Education of Girls, which, we hope, will be read by every person who has a girl to educate. If the ideas promulgated by Grace Greenwood were put in practice, we should soon have a race of beautiful, strong women, instead of so many feeble, sickly ones as now prevail. By all means get and read this one paper. Besides this, there is a paper on the "Act of Taking the Body," by Rev. Washington Gladden; "Trusting the Child," by Mrs. E. Oakes Smith; "Sentimental Marriages," by O. B. Frothingham; "Indigestion and its Remedies," by Dr. Taylor, and at least fifty other most excellent articles. \$2 00 per number. Address Miller, Wood & Co., 10 Light Street, New York.

THE PITTSBURGH AND CONNELLVILLE RAILROAD.

We read the following items in regard to this road from the Somerset Herald and Why of the 21st inst.:

"We learn that this week, the engineers proceeded along the whole line, remarking the locations, &c., for a speedy letting. And that the work will at once be commenced at the Sand Patch Tunnel by Mr. Humbert; and that the Brooks and Pinkerton tunnels, also in this county, will be commenced at an early day. Thus the heavy sections will be put in a state of forwardness, so that the whole line can be finished next year.

The activity and zeal of the Baltimore & Ohio Railroad Co., its President, and the city of Baltimore, superadded to the industry and efficiency of President Hight, all give favorable indications of an early completion of this important work."

"Is Towns—J. G. Harvey, Esq., of Baltimore is here looking after the Glades Butter interest, and brings us the cheering news of the prospects of the early completion of the Pittsburgh & Connellville Rail Road. He reports Mr. Hight's success in getting \$300,000 of the Bonds taken in Baltimore last week with fair prospects of securing the balance at an early day. Messrs. J. G. Harvey & Co. subscribed \$5000 to the main line road, and promise to subscribe to our Branch road. This should be an incentive to all who have a more direct interest in the branch road to come forward and subscribe liberally, as the enhancement of the value of property of Somerset and the surrounding country depends on the early completion of this branch."

"Mr. Scull writes us from Pittsburgh, under date of 23rd, that work will be immediately resumed on the Connellville Railroad. An engineer corps goes into the field this week, for the purpose of re-estimating the stakes, &c. along the line. The contractor at the Sand Patch Tunnel has been instructed to resume work at once, and forty miles, comprising the heaviest sections between the Tunnel and Connellville, will be let to contract, as soon as proper notice inviting proposals can be advertised, and bids examined. Heavy subscriptions to the bonds of the company are being made in Baltimore, and at other points along the line, and in a few days all the money necessary to insure the completion of the road within twenty months will have been obtained. The machinations of the Penna. Central, and the Fort Wayne and Chicago have come to naught, and within two years, a through line from Bremen to Pittsburgh and the far west, via Baltimore and Pittsburgh, will be an accomplished fact."

Congress.—The selection of a suitable candidate, in this Congressional District, is a duty that should be carefully considered. This district is one of the doubtful ones in this State, and unless we make a determined effort, by placing in nomination a man who will be an available candidate, one whose antecedents are satisfactory to the whole Republican party, we may lose this Congressional District.

We believe it to be conducive to the interests of the people, that delegates to the Congressional conference should be instructed for whom they shall vote. If this is carried out, the will of the people may easily be defeated and unscrupulous demagogues secure the nomination. There are few aspirants for Congress, but who, by corrupt means, may secure a County Convention to speak in his favor. Therefore, the Congressional Conference should be untrammelled in its selections by previous instructions. It will be necessary, when the different delegates meet, to give notice of a man whose devotion to the interests of his party outshines him to the nomination, and select a more popular man, one whose voice is strong with the people.

The Conference body should, to some extent, be governed by the nomination of the Democratic party. Should a candidate be selected by that party, who is very popular with the people, and would be able probably to influence some Republican voters, he should be matched by a man who could gain the influence.

The Democratic party will select its most popular man, as they are determined to carry this district, and for that purpose money has already been promised by the State Central Committee of that party for election purposes. In all probability George A. Smith, of our town, will be their candidate.

Should he be the nominee of their party, they will have selected the most popular man, before the people, in the District. Let us exercise good judgment in the selection of our nominee, so that the will of the people may not be defeated by the political trickery of unscrupulous demagogues.—Pittsburgh Republican.

PERSONAL.—The Bloody Run Press, we learn from its last issue, based its allusion to our want of respect for "Bloody Run and its prosperity" upon a matter altogether personal. If we had known that the "prosperity" of Bloody Run depended upon the establishment of the Press, we might have been led to regard the investment in another light. As it was, we were not satisfied that it would pay, and in consequence of our opinion we have not been as generous as our friends in the county, who in the evening, who has attempted to obtain a newspaper in a village of less than a thousand inhabitants. Bloody Run may prove an exception to the rule; we hope, for the sake of our friends of the Press, that it will. They ought to know by this time whether it pays them or not, or whether it will pay at the end of the year. When we learned that one, whom we had learned to regard as a friend, intended, without any knowledge of the business, to embark in such an enterprise, and when requested so to do, we gave our opinion, as our friends and neighbors, and we are not in the least to be blamed for the project, and because our views, based on long experience, did not coincide with those which had determined upon the enterprise, the common courtesy, which should always characterize gentlemen, is violated. We have always wished the gentlemen who control the Press well, we do so now, and for this reason we revised them not to invest in an enterprise that was, at least, a doubtful experiment; one in which they ought not to use money. We believe when the establishment of newspapers is necessary to develop a portion of country, or to further political ends, that those who will be most benefited by such an enterprise should furnish the where-withal to buy and run them, not those who can receive very little benefit and who have no money to lose in mere adventures.

THE TABLE TURNED.—The Deputy Sheriff, of a neighboring county, arrived here on Monday evening last, in company with two prisoners who had escaped jail. They were all accused of felonious crimes, and a reward of five hundred dollars on the one, and one hundred dollars on each of the others was offered for their apprehension. On Tuesday morning, after posting bills announcing the reward and giving a description of the criminals, the deputy proceeded to get drunk. This he most successfully accomplished, and became in a short time, both noisy and intemperately insulting, and instead of resting the escaped prisoners, was himself arrested by Constable Gephart, and placed in jail for forty-eight hours, in order to have ample time to get sober and become able to attend to his business. As far as we can learn, nothing has been heard of the escaped criminals being in this neighborhood.

We have just received Blackwood's Magazine, for June, and as many of our readers no doubt subscribers to this periodical, they need few suggestions from us. The first impulse when it comes to hand, however busy one may be, is to glance over its pages, and note certain articles to be read at the earliest opportunity. It is not unlikely that we shall read the whole of the present number, and we give, for the benefit of all, the list of contents, as follows:—Justice Owen's Engagement, Part I. The Latest Law, referring to Mr. Ruskin, and his recent suggestions for the reconstruction of society. Unlucky Tom Griffin—(Conclusion). The American Constitution and the Impeachment of the President (condemning the Impeachment, as might be anticipated). Letters from a Staff Officer with the Abyssinian Expedition. Cornelius O'Dowd. Dreams in the Invalids. George Elliot's Spanish Gypsy, (with copious extracts, and calculated to make one feel desirous to do the work himself). Altogether a very varied and interesting number. Published by the Leonard Scott Publishing Company, 140 Fulton Street, New York. For Sale at INQUIRER Book Store.

SARATHI SCHOOL LIBRARIES.—Last Sabbath the Teachers and scholars of the Sarathi Sabbath school here, made another addition of one hundred and twenty-three volumes to their Libraries. They have now upwards of five hundred carefully selected works, most of which have been purchased within the last year. The Teachers Library is a circulating one. Any person paying the sum of one dollar and twenty cents per year, or ten cents per month, to the Librarian, is made a member and can have the use of any book from the library he may wish to read. It is the intention of the Library Committee to make still greater additions in order to meet the wants of all who may become members.

"Onward, right onward, In the Valley of Despair, Where the Six Hundred" rode.

But larger, by hundreds multiplied into millions, than the doomed band who rode to swift destruction in Tenneyson's poem, is the great calvaire of unhappy men who are rushing to untimely graves, followed by the gaunt specter Dyspepsia. This is all wrong, and should cease. Plantation Bitters, the great Stomachic Pain Killer, cures Dyspepsia, Heartburn, Headache, Vertigo, Dizziness, and all symptoms of kindred character, as well as mental depression, Lassitude, Great Weakness and Mental Depression, they have a most wonderful effect.

MEDICAL.—Two stout looking, bronzed individuals, of doubtful nationality, each having a hand organ and accompanied by a monkey, paraded our streets on Monday morning and discoursed their various pieces to the extreme delight of a crowd of admiring juveniles. Our delight would be to hear of the abandonment of this lazy business by stout, able bodied men, and the taking up of some more laudable calling.

A SUGGESTION.—As the Democracy seem to be looking out for a candidate who can run well, we would suggest that they take up one of the many draft "skeeladders" who put for the mountains during the progress of the war. They are known to be fast runners and good Democrats. If the County seat was not so near at hand we might suggest a few names from which to select a suitable candidate.

SPECIAL.—We have recently printed, in colors, the new Fee Bill for Justice and Constables, passed by the last Legislature, and are prepared to mail it, to persons desiring it, on receipt of 25 cents. Every Justice and Constable in the county should send for a copy at once, as they cannot get along without it.

PUMPS.—Attention is directed to the advertisement of Mr. J. W. Rohm, who is about to canvass the county for the sale of individual or township rights for a patent force pump, said to be a very satisfactory one. The pump is on exhibition at the Washington Hotel.

LOOK TO IT.—If you desire a new outfit for the 4th, go to Mr. R. W. Berkstresser & Co.'s, and get yourself the handsomest and cheapest suit that can be gotten anywhere else in Bedford, Coats, Pants, Vests, Hats, Shirts, &c., in variety.

Special Notices.

Lassitude.

A feeling of lassitude is generally experienced throughout the summer months. Weakly constituted persons or those of sedentary habits invariably complain of this annoyance. The scorching heat of mid-summer relaxes the system and reduces the vital energies. If the patient is of a nervous temperament this debility adds him for even the ordinary routine of every-day life. Tetter's Stomach Bitters will provide a safe and never-failing means of strengthening and restoring the physical organization. This health-giving tonic purifies and invigorates the system, restores the blood, tones the stomach and digestive organs, and acts like a charm on the nervous system. It effectively cures all the nervous depression or depression of spirits. To the weaker sex it is invaluable, as it soothes and braces up, while its powerful effects are of the most beneficial character. The intrinsic of its use are alleviated by its use. It revivifies the strength, increases the appetite and gives vigor and elasticity to the constitution.

When mothers are nursing INFANT'S STOMACH BITTERS should especially be taken in regular doses, as in this country, most always, the nourishment is inadequate to the wants of the child. In such cases this inestimable tonic is wonderfully efficacious. Its strengthening virtues are at once apparent. It is free from all properties calculated to impair the system, and its operations are at once mild and soothing.
