This Company, National in its character, offers, by reason of its Large Capital, Low Rates of Fremium and New Tables, the most desirable means of insuring life yet presented to the public. The rates of premium, being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to create among the Policy-Holders. Several new and attractive tables are now presented which need only to be understood to provo acceptable to the public, such as the INCOME-PRODUCING POLICY and RETURN PREMI-UM POLICY. In the former, the policy-holder not only secures a life Insurance, payable at death, but will ree ive, if living, after a period of a few years, an annual income equal to ten per cent. (10 per cent.) of the par of his policy. In the latter, the Company agrees to return to the assured the total amount of money he has poid in, in addition to the amount of his policy.

The attention of persons contemplating insuring their lives or increasing the amount of insurance they already have, is called to the special advantages offered by the National Life Insurance Company.
