EQUAL TAXATION.

perheadism makes such a hue and cry. True it is that the Republican Congress has not made an equal tax law, but it is a just, fair, righteous and liberal one. It screens the poor in their poverty, and lays no additional burthen upon the shoulders already bowed with the cares of poverty and want. The Republican party is the poor man's friend and exempts him from taxes of every kind. Copperheadism vanuts itself upon "Equal Taxation," and would lay a tax upon the last to meet the necessary expenses, the resort must be to excise taxes. Now how did the Democratic party propose to raise the taxes. First it denies protection to our manufacture.

Now how did the Democratic party propose to raise the taxes. First it denies protection to our manufacture.

True and repudiation scheme is dishonest, unpatriotic and rebellious. Their cry of tax the bonds is not caused by their love of the country more their friendship for the poor man, but is taxed by this very Democratic plan; and when the taxes upon these few articles fail to meet the necessary expenses, the resort must be to excise taxes. Now how did the Democratic party propose to raise the taxes. First it denies protection to our manufacture.

They would tax the bonds because, in the Democratic financiers?—New York Evening vorts the taxes and but \$438,685,554 of property. The leader of tax the bonds on equarter of the entire amount.

All national taxation is now laid on personal property—the dentity is not caused by their love of the country more their friendship for the poor man, but it is a taxed by this very Democratic plan; and when the taxes upon the taxes upon the taxes upon the taxes paid by New York will be thrown upon the farms and houses of the peopl small farmer and mechanic, and every man whose income is less than \$1000 consider whether he prefers to be taxed or not. If he

The poor man and the middle classes are also taxed, in the same way, upon articles of clothing, meat (they must help pay their butcher, s license) medicines (they must pay duties on many of them) articles miture, legal payers (stamps again) atches (stamps once more) etc., etc. These xes, in a great measure, are applied to the syment of the gold interest on government onds, whilst the holders of those bonds, by nothing but said. pay nothing but an income tax, and evade that by making false returns and tempering with the Assessors of Internal Revenue. Thus every man who owns a "pig," or has a dollar in his pocket, is taxed by the government to pay the bondholders his interest in gold, whilst the bondholder pays search any taxes at all

Now, say this farmer raises 200 bashels of wheat per annum, here is a tax of upwards of 20 cents on each bushel, paid by him to the government. This goes to pay the bondholders, to keep up the Negro Bureau and to pay off the Standing Army. When and to pay off the Standing Army. When wheat is worth \$2.25 per bushel, the farmer realizes but 2.05, and when the difference between gold and greenbacks, is deducted, he gets but \$1.36. Meanwhile the bondholder draws his interest in gold, pays no State. County or Township taxes, and evades the income tax. Hence the Democrats propose Equal Taxation as a remedy for the present defective because unequal system. Equal Taxation will compell the bond holding nabobs and aristocrats to pay their share of the taxes, and of course, will proportionally lessen the taxes of the farmer, middle and the poorer classes. Now, we dare the Inquirer to publish this article. Come now, Lutz, toe the mark!—Gazette.
