mense Union gains everywhere. New York, New Jersey and Oregon alone, of all the free States, are doubtful, and even these may go Republican. The rebels have carried Maryland, Kentucky and Louisiana, and perhaps Alabama.

## THE RESULT.

The bright sunshine that ushered in the election day was ominous of the glorious victory that was to crown the Union cause and give assured peace to our torn and bleeding country. The people have rendered their verdict and have shown themselves true to the instincts of patriotism and the principles of our Republican institutions ballot box. The people have repudiated the repudiators and made a nullity of the nullifiers; they have declared in favor of political integrity and endorsed financial honesty. The sharpers of Wall street and the political tricksters of Tammany have had the seal of the people's condemnation stamped upon them and their policy in indelible colors and unmistakable characters. The peace of the country is now assured and her financial credit firmly established. Peace will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the South and the surface will be restored to the sufface will be supplied. The strength and stability of Republican institutions are to day more firmly established then every before the strength of the strength and stability of the strengt firmly established than ever before.

# BEDFORD COUNTY.

The Republicans of Bedford County were wide awake on Tuesday. Seventeen districts heard from give a Union gain of 128. Bedford borough gives a Republican gain of 13, Bedford township 17, Broad Top township and Coaldale borough 26, Bloody Run borough 6, Saxton borough 1, Liberty township 1, Harrison, 9, Colerain 14, St. Clair 14, Juniata 9, Snake Spring 6 South Woodberry 15, Middle Woodberry, 5, Napier township gives a Copperhead gain of, 5, Schellsburg borough, 2, and Wooberry borough 1. These are the majorities as reported from all the townships heard from as we go to press. The official returns will doubtless make some changes but not enough to make any material change in the above figures.

# TOADYISM EXTRAORDINARY.

Our Minister to England, Reverdy Johnson, is making an exhibition of diplomatic toadyism, in his obsequiousness to such men as Roebuck and Laird, that is calculated to greatly damage the American character in the eyes of European men of sense, and

United States. We are sorry for Reverdy United States. We are sorry for Revery Johnson. It is sad to see an old man, who has preserved a tolerably fair record, in his old age when he ought to command honor and respect, toadying to a set of purse-proud aristocrats, disgracing himself and dishonoring his country. It is a poor consolation to hear the poor man in his senility say that he bears the censures of his country with christian resignation. The most commendable resignation that he can show will be the resignation of the office he has so shamefully disgraced. Why he should choose to cultivate the acquaintance of such men as Roebuck and Laird rather than Bright and Hughes we cannot comprehend, unless it be that he still has a lurking sympathy for snobs. It is high time that we send, as ministers abroad, men who have some respect for themselves, who are not insensible to the condition of the dealing of the dealing of the condition of the war. As to money, we don't need any, we fought before without it."

A correspondent of the Cincinnati Times writes from Georgia as follows:

I suppose that the defiance which General Cobb personally would hurl "into their tecth," would be of the kind he hurled at the forces of General Rosecrans in West treat, and defiantly bid them catch him if they could. But his speech had its effect upon the ears, in the private circle, on the street corners, everywhere, one hears nothing but talk of the forcible overthrow of the Southern State governments, and a termination to fight or have everything restored to the condition of 1860.

One ex-rebel officer said to me, in answer to my inquiry as to how the Southern people would get arms, "When General Lee Sundant Prophetory of a speedy destruction of sublunary goods and chattels, have aimed at one target and that the still has a lurking sympathy for snobs. The only eloquent speech Seymour has made, was that one he made at Cooper Institute before his nomination, in which he showed so plainly the madness and folly of the Pendleton theory, and the utter ruin it would bring upon the working people. He was eloquent then, for he believed what he said. We will not insult his intelligence by supposing he believed the arguments he used in his Western lieved the arguments he used in his Western tour. The advancing hosts of treason, rebellion and anarchy have once more been hurled back in overwhelming defeat and disgraceful rout. The result of Tuesday's election has sent a thrill of joy to every loyal heart and our people now rest in the contentment of assured peace. He who saved our country in the bloody field of battle and drove her enemies into ignominious flight and eventual surrender has now more completely and overwhelmingly defeated them at the ballot box. The people have repudiated them at the ballot box the reference and the treating the threefore, and the threefore, the thorner

In one form or another, under one name or another, they and their staring advertisements are everywhere to be found, professing to cure all the ills flesh is heir to, from a bump on the head to the small pox. Of their efficacy in general we know nothing, but there is one variety concerning which we hear praise from all. We refer to Hoofland's German Bitters. This is not a mere preparation of

pect for themselves, who are not insensible to the promptings of patriotism nor ignorant of the spirit of our Republican institutions; who have learned that all forms of aristocracy are hostile to the spirit of our institutions, that with such we command respect not by grovelling and disgusting flunkyism, but because we have shown our ability and determination to exact our rights among the nations of the earth. Until we do send such men we may expect these disgusting exhibitions of sycophaney and toadyism to be indefinitely repeated.

THE ELOQUENCE of the CAMPAIGN.

The Round Table, which has been a supporter of the Democratic candidates, says that "it is a notorious, and now proves a significant fact, that the great bulk of elequent speaking and elever writing in this canyass have been done for the Round.

Just as the "fair Rochefort" was taking a happy turn for the worked and fations.

We don't need any, we fought before without it."

My conclusion is, after having traveled over heaving traveled over nearly every one of the late rebel States over nearly every one of the late rebel States over nearly every one of the late rebel States over nearly every one of the late rebel States over heaving taked with thousands of rebel citizens of every grade of character and position, that the people of the North most of the people of the North until the fight will come any way. These people are to have from the batter of the belief that the higher and unto the high will come any way. These people are to have that all the remaining bachelors in the establishment will "follow copy" without unnecessary delay. The young couple in question have our best wishes for perpetual happiness and prosperity. It is the wish of his fellow craftsmen the fight will come any way. These people are to have him the horizontal that the horizon of the North and the fight will come any way. These people are to have the Northern batter the batter of the Courted with the ware dependent wites from Paris, August 14, as follows:

PETROLEUM IN EUROPE. - Recent advices from abroad communicate the information that springs of mineral oil have been dis-covered in the western province of Galicia, covered in the western province of Galicia, and that extensive purpose of reaching the subterranean reservoirs. The surface soil, covering an area of 50,000 acres, it is asserted, is so thoroughly impregnated with petroleum that it is only necessary to dig a few feet in order to obtain a handsome return for the money expended. The development of this new branch of industry has created a demand tor the services of American engineers familiar with the methods of sinking wells in the United States, and the reports of the gentlemen from this country, sinking wells in the United States, and the reports of the gentlemen from this country, who have visited Galicia, are said to coincide with the sanguine anticipations of the owners of the oil fields.

Less enthusiastic observers, however, cite numerous instances of discoveries abroad of oil, which have by no means fulfilled the prognostications of the operators. While the United States possesses facilities for raising two and a half millions of barrels of oil ever year, and actually sends abroad 800, 000 barrels, or 32,000,000 gallons, there is not much prospect that these new sources of supply will interfere with her position as the great petroleum market of the civilized world.

AN IMMENSE BLOCK OF GRANITE—Last week a remarkable and successful blast was made at the Richmond (Virginia) Granite Quarry, now owned by a company in Philadelphia. The Commissioner of Internal Revenue has made the following important decision: Smoking and fine-cut chewing tobacco and snuff sold, or offered for sale, after January 1, 1869, and all other manufactured tobacco of every description sold or offered for sale after July 1, 1869, must be paid in stamped packages; and tobacco on hand after the respective dates named, not in such packages, must be repacked to comply with the law by the owner thereof. The expenses of repacking and stamping tax paid tobacco at those dates must be borne by the owners.
