I would say, that the sale was consumated about the first of November last, and the price paid is generally understood to be \$40,000. But those bright anticipations have been sadly blighted by the intelligence that the purchase of this property was only made for the purpose of securing the valuanade for the purpose of securing the valua-

made for the purpose of securing the valuable ore that lies imbeded in it, with the intention of shipping it to the Company's works at Johnstown." In forming an opinion as to what the Cambria Company may eventually do, I think the citizens of Bedford county may come to a correct conclusion by the reflection that the extraordinary success attending the Cambria Company, has only been obtained by proper and judicious management, and this being true of the past it is but fair to a large from Interval and this being true of the past it is but fair to confident that the advantages are in our fa-peared.
