The production of coal in Great Britian in 1867 amounted to 104,500,380 tons, valued at about \$130,000,000. The value of all minerals, as ore, sait, &c., during the year, was nearly \$220,000,000. The iron product was valued at about \$60,000,000. In 1857, the amount of coal mined was only about 65,000,000 tons. It is estimated that the yield of coal in the United States in 1867 was about 25,000,000 tons.
