HIGH FARMING.

Except in the neighborhood of large cities, stoops to couquer." "High Farming" may not pay, owing to the fact that we have so much land. But whether this is so or not, there can be no doubt that the only profitable system of farming is, to raise large crops on such land as we cultivate.

What is said from the feeling of the ment, should excite but the feeling of the moment.

The confirmed dyspeptic may almost say with St. Peter, "I die daily." The object of this article is not to remind him of his pangs, but to show him how to banish them forever. The means of immediate and permanent relief are proferred him in High farming gives us large crops and many audience of Sunday School children that the of them. At present, while we have so much savages were so fond of fat juicy missionaries land in proportion to population, we must, that none but lean ones were sent. perhaps, be content with large crops of grain, and few of them. We must adopt the slower Fox-HUNTING has begun in England for but less expensive means of enriching our the season and already one lord and two or adopted by many farmers in England, and by market gardeners, seed growers, and nurserymen in the country. Labor is so high that we cannot afford to raise a small crop. It we have that the life of the many farmers of acres and double as to peep over the mountains to see, the sun. we cannot afford to raise a small cope sow but half the number of acres and double the yield, we should quadruple our profits. It is dreadful stretching work.

A woman in New York says that when her clover three years instead of two. This will lessen the number of acres under cultivation, and enable us to bestow more care in plowing and cleaning it. And the land will be richer and produce better crops. The atmosphere is capable of supplying a certain quantity of ammonia to the soil in rains and dews every year, and by giving the wheat crop a three years supply instead of two years, we gain so much. Plaster the clover, top dress it in the much. Plaster the clover, top dress it in the much.

A woman in New York says that when her husband is a little drunk he kicks her, and when he is very drunk she kicks him: and she adds that she does most of the kicking.

The gentleman who attempted to cut his threat with a sharp joke, a few days since, has again made a rash attack upon his "vict unling department," by stabbing himself with a point of honor.

A Gentleman was praising the beautiful the form taking each in turn. There is no phase of indigestion, Biliousness, Nervous Disease, or Physical Prostration, to which they are not adapted, and in which, singly or combined, they will not effect a cure. we cannot afford to raise a small crop. If we are in the mont of drawing themselves up so so that the number of acres and double as to peep over the mountains to see the sun for their invigoration a diffusive stimulant, Do not sell a single ton; let not a weed grow, and the land will certainly improve.

remarked, "I guess my hair would look as well if I took as much care of it. Mamma and the land will certainly improve. The first object should be to destroy weeds. never sleeps in her hair."

prices cannot make farming profitable. A farmer yesterday was contending that it did farmer yesterday was contending that it did pay to summer fallow. He has taken a run ed up ten acres of a heid, and sowed it to barley and oats. The remainder of the field he
summer fallowed, plowing it four times, and
rolling and harrowing thoroughly after each
plowing. After the barley and oats were off,
he plowed the land once, harrowed it and
sowed Mediterrahean wheat. On the summer
sowed Mediterrahean wheat. On the summer and yet it is no argument against summer fallowing. Wait a few years. Farming is slow work. Geddes remarked to me, when I told him I was trying to renovate a run down farm, "you will find it the work of your life." We only it is, squire, "said he, "at the least to the sanu-scale in the desert to the sanu-scale in the sanu-scale in the desert to the sanu-scale in the desert to the sanu-scale in the sanu-scale in the desert to the sanu-scale in soil. But watch the effect on the clover for the next two years, and when the land is plowed again, see if it is not in far better conshould expect the clover on the summer fal intendent. low to be fully one-third better in quantity, "Why he is not dead man !" said the and of better quality, than on the other part, | querist. extra quantity of good manure, (and there will be more clover roots in the land) and coffin, and I guss he knows what he gave thus we have the means of going on in improving the farm. - Walks and Talks on the

says, that salt had been recommended as a calves.' specific for ridding the soil of worms. Last spring he plowed up an old sod where there was an immense quantity of grubs. He sowed upon three and three-fourths acres, soon after plowing, two barrels coarse salt. A day or two after the application there was rain. stop before he reaches a pint." which dissolved most of the salt. The ground was then thoroughly barrowed and planted to corn. About half a pint of leached ashes was placed upon each hill of corn. The yield of corn was very large and not a hill was injured by worms. He had no doubt,

First, eat nothing; second. go to bed in a warm room and cover up; third drink as much cold water as he can; and in three cases out of four, he will be well in thirty-six hours. To neglect a cold for fortyeight hours after the cough commences, is to place himself beyond one mention. It is a constant of the properties of the pr it of the surplus which oppresses it, while ab-atinence cuts off the supply of material for "Betsey, thee had better quit peeping, or phlegm which would otherwise be coughed the will cause a disturbance in the family.

This Company, National in its character, offers, by reason of its Large Capital, Low Rates of Fremium and New Tables, the most desirable means of insuring life yet presented to the public. The rates of premium, being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to create among the Policy-Holders. Several new and attractive tables are now presented which need only to be understood to prove acceptable to the public, such as the INCOME-PRODUCING POLICY and RETURN PREMI-UM POLICY. In the former, the policy-holder not only secures a life Insurance, payable at death, but will receive; if living, after a period of a few years, an annual income equal to ten per cent. (10 per cent.) of the part of his policy. In the latter, the Company agrees to return to the assured the total amount of his policy. The attention of persons contemplating insurance they already have, is called to the special advantages offered by the National Life Insurance Company.

Circulars, Pamphlets and full particulars given

advantages offered by the National Life Insurance Company.

Circulars, Pamphlets and full particulars given on application to the Branch Office of the Company in Philadelphia. or to its General Agents.

LOCAL AGENTS ARE WANTED in overy City and Town; and applications from such agencies, with suitable endorsement, should be addressed TO THE COMPANY'S GENERAL AGENTS ONLY, in their respective districts.

diagnosis will be provided.

Splendid Hospital and Clinical Instruction are
afforded: free tickets to all our City Hospitals are
provided: Dissecting Material abundant at a
nominal cost.

Perpetual Scholarships are sold for \$60. Send for circular.

MEDICINE.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have used it, know that it cured them; those who have not, know that it cured them; those who have not, know that it cured them; those who have not of the trends of the cured them; those who have not of the cured them; there is an use of the cure of the cured to the cured that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel nor any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, uch derangements as are the first origin of dissasse.

Minute directions are given in the wrapper on the body. MEDICINE.

A YER'S CATHARTIC PILLS.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:

For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bil our Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Feeers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it

For Dysentery or Diarrhæ, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For Dropsy and Dropsical Sucklings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppressions a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels toierably well, often finds that a dose of those pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
