Bedford Inquirer.

STATE TICKET. GOVERNOR, JOHN W. GEARY.

DISTRICT TICKET. SENATOR, G. SHANNON MULLIN.

COUNTY TICKET. J. W. LINGENFELTER, Esq., of Bedford Twp.

RAILROAD FREIGHTS. This subject is attracting the attention of the New York Legislature.

THE CUBAN REVOLUTION is far from being crushed yet notwithstanding the exertions of the Spanish authorities.

PAYING THE PASTORS AND FOLDERS.—The appropriation bill has been up for several days in the Legislature.

THE SPANISH CATTLE BILL last night passed the Senate and it is understood will pass the House to-day.

A LUCKY INFANT.—The miners in the Nevada White Pine region presented the first born baby in the diggings with silver bars worth several thousand dollars.

THE PUBLIC DEBT was reduced over five and a half millions of dollars during the month of March.

ON Monday the State election was held in Connecticut and the latest returns as we go to press indicate a Republican victory.

JAMES E. ENGLISH, D. Marshall Jewell, II. J. James Dixon, D. Julius J. Strong, R. II. F. Babcock, D. S. W. Kellogg, R. III. Abiel Converse, D. H. Starkweather, R. IV. W. H. Barnum, D. B. Beardsley, R.

THE STATE GAVE 270 of a majority last fall, but went 1700 Democratic at the preceding State election.

THE DEMOCRATIC candidate English is very popular and it was scarcely expected that we could carry the State against him.

THE LEGISLATURE is sure to be Republican and will ratify the fifteenth amendment.

LETTER FROM HARRISBURG

HARRISBURG, Pa., April 3, 1869.

MEETING OF THE STATE CENTRAL COMMITTEE.

Pursuant to a call of the chairman, Hon. W. A. Wallace, the Democratic State Central Committee met at the Bolton House in this city on last Wednesday evening for the purpose of deciding upon the time and place of holding the State Convention.

The occasion called here many of the most prominent Democrats in the State, and the representation in the committee was full.

There was not much diversity of opinion as to the time of holding the Convention, all being in favor of a late meeting. The time finally fixed upon is the 14th of July, and the place at Harrisburg.

No action was taken to get an expression from the Committee as to their preference of candidates for Governor, although there was a free exchange of sentiment on the subject.

The names most prominently mentioned were Judge Asa Pecker, Gen. Wm. McCandless and Gen. George W. Gas.

REPRODUCTION OF THE CONSTITUTION. The Committee on Retrenchment and Reform in the Senate, through the chairman, Mr. Billingsley, has made a lengthy report containing a few valuable suggestions, and many that are quite otherwise. The Committee recommend an adherence to the law of last year fixing the number and pay of the officers of the Legislature. That law having been framed so as to discriminate much in favor of the Senate, compared with the House has not stood the test of practice and has already been repealed in a number of particulars. The committee also recommend the abolishment of the so called "franking privilege"; but if the people require and desire, as they doubtless do, public documents, it seems proper for the State to pay the expense of postage. Another proposition is to divide the clerks in the several departments into three classes with graded salaries. The report as a whole is a "white wash" concern, and verifies the truth of the adage of taking it at the epigot and letting out at the bung hole. A bill has been introduced to carry out the recommendations of the committee, but there is no probability of its passage.

RATES' HISTORY. The history of the Pennsylvania Volunteers now being prepared by Professor Lemuel P. Bates, State Historian, has been a subject of no little discussion during the present session. The question was partially debated in the Senate during the week, and resulted in striking from the appropriation bill the salaries of Mr. Bates and his clerks. This is considered as virtually abolishing that Department and stopping the further publication of the work so far as the temper of the Senate is concerned. The five thousand copies of the first volume issued about the opening of the session still remain in the hands of the State printer. Unless the Senate recedes from the position it has taken, and the indications are that it will not this history will never be finished under the present arrangement.

THE GENERAL APPROPRIATION BILL has long passed the Senate. Many of the provisions are very materially altered from what they were when the bill passed the House.

THE SENATE has been reduced to the appropriations, although an increase has been obtained in some instances. The appropriations to charities are comparatively small in contrast with what they have been some years.

The salaries of members of the Legislature are fixed at one thousand dollars, and those of most of the officers remain as decided by the law of last year. The additional twenty seven officers of the House are unpaid, but the Senate having struck out that portion of the bill making provisions for their pay. The differences between the two Houses are wide and will be difficult to reconcile. The principal items will be given when the bill becomes a law.

THE DEDICATION OF THE MEXICAN MONUMENT which has been announced to take place on the 29th of May has been indefinitely postponed. The reasons assigned are various. Some of the Harrisburg papers have stated it was owing to a disaster befalling the vessel that was to bring the statue from Italy. A circular issued by a Committee having the matter in charge says it is for reasons beyond their control. Senator Fisher, on the floor of the Senate assigned the cause to be a want of liberality on the part of the Legislature to appropriate sufficient funds. Those interested can take a choice of the reasons given. The postponement will, however, be a disappointment to a large number of organizations throughout the State that had made arrangements to attend.

THE SPANISH CATTLE BILL last night passed the Senate and it is understood will pass the House to-day. The bill requires all cattle, sheep, hogs, &c., sent to the Philadelphia market to be driven to a certain yard and there inspected marked and weighed. The persons seeking this monopoly filed its estimated value a revenue from it of from two to three hundred thousand dollars a year with no corresponding benefit to any one. On the contrary it will materially increase the price of meat to the consumer and lessen the moderate profits of the producer. For six or eight years an effort has been made to get this bill through without success. That members have been as deliberately bought as cattle in the market to favor this bill is a fact beyond dispute. If this bill becomes a law it will set the seal of infamy upon the present Legislature too indelibly to be ever erased.

LOVE AT FIRST SIGHT.—A rather extraordinary marriage took place at York, Pa., on the 25th ult. The bridegroom is a man in the sixties and the bride over one hundred years old. The parties never saw each other but once before the day of marriage, and it might be called a case of pure love at first sight. The bride is a popular personage where she resides. Many of the most prominent persons of York have called to pay their respects, making the wedding party presents. She says no more hardships now for her. She will live the new life which she has so auspiciously begun, with comfort and ease—leaning on the strong arm of the bridegroom and loving husband for support and consolation in her troubles and trials. The following is the marriage notice: On the 25th ult., by Rev. N. S. Buckenham, Mr. THOMAS CROMWELL, of Chambersburg, and Mrs. ESTHER OLIVER, alias Esther Coal yard, of York, Pa. No cards. No cake. No wine.

FROM THE PLAINS. Fight with the Indians at Fort Ellis.—The Soldiers Return.—St. Louis, April 2.—The latest news from Fort Ellis represents the recent fight with the Indians there as being a desperate one. The Indians engaged were Sioux. They had splendid animals and fought bravely, capturing a large number of cattle on Shields river. Our force being small, had to retreat with loss of two men, who were horribly scalped. Mr. Eason was attacked by fifteen Indians seventy-five miles from Fort Howe, and with a revolver, defended himself, killing four redskins and wounding one. He escaped unhurt.

ITEMS.

A SINGULAR STORM.—A curious phenomenon occurred in Bethel, Maine, last Sunday night. A damp snow fell in the evening, which was followed by a powerful wind that rolled it up into balls frequently as large as a four gallon keg. Hundreds of them were counted in a single field. Professor Cleveland described a similar phenomenon that occurred about the year 1807, when the balls were as large as a barrel.

THE HILL MURDER. Twichell Makes a Confession!—He Charges His Wife with the Crime. Returned Flight of Mrs. Twichell. PHILADELPHIA, April 3.—George S. Twichell, Jr., sentenced to be executed April 5th for the murder of Mrs. Twichell, his mother-in-law, this morning made a confession to his spiritual adviser, Rev. Mr. Perkins, and Mr. Bringshurst and prison inspectors. He says: "I went to my room on the night of the murder, and instead of going to bed lay on the lounge and fall asleep. My wife was in bed at the time. I was aroused by repeated calls after me, saying, 'When I found her much excited, saying, I have had a quarrel with mother and killed her, save or help me to hide it.' We then together, both out of the window, I went down stairs and washed my hands; my wife went to bed, where she remained until the servant girl arrived. We were in bed about 20 minutes; I made a solemn vow to myself that I would never reveal it, but I cannot keep it any longer. I am sorry that I said I knew nothing of it, but I do not feel that I can say more. I love my wife. I now make a confession, that I may have peace with God."

THE ATLANTIC CABLE.—Another resolution in the rates charged by the Atlantic cable is announced. The reduction which it is reported the directors have resolved upon making, is to take effect on June 1st. The contract between the price of the messages asked three years ago and the rates now to be charged, is very startling. At first the rates for a message of ten words of five letters each from New York to London, payable in gold, were \$100, next \$50, next \$25, and finally \$17. A change was then made in the character of the messages, and no restriction was placed upon the number of letters in each word. Though the rate of \$17 in gold was unchanged, yet the new regulation was more than equivalent to a reduction of one third in the price. The new rate, which is reported will go into effect on June 1st, is \$10.

AN ARGUMENT FOR ANNEXATION.—A leading banker and broker in Montreal recently stepped across the frontier into the United States with \$50,000 of his customer's money. As his case is only one of breach of trust, the extradition treaty does not apply to him, and he will be left to enjoy his plunder here in peace. According to the Courier des Etats Unis such exploits by Canadians occur very frequently, and it is ascribed the cause to "the neighborhood of the United States, besides communicating the fever of speculation, offers the facility of passing from one country to another when necessity requires." It recommends as a preventive an amendment to the treaty, but no more effectual would be the annexation of Canada. In that event Canadians would be citizens, and could seek in the civil courts at least the restoration of their stolen property, if they could not put the thieves in prison.

ADVICE TO LADIES.—An exchange gives the following good advice: "Put your eyes to the temptations to petty fraud you offer to clerks and cash boys, in retail stores, by putting your eye in your purses without counting. It is not more likely to err, but simply more silly, in nothing was so to affect indifference to the correctness of a business transaction, even a small one. This counsel is suggested by the writer having seen one of the little 'cash' boys in a Broadway store slip a part of the change into his pocket on his way from the cashier's desk to the lady customer, who, I repeat to notice, put the rest into her purse without the least examination. A proper caution on her part might possibly have saved that boy from ruin."

THE STORKS AND SPRING.—An English sporting journal announces the appearance of a flight of storks, and hence argues that spring has come. The migration of these birds is generally considered as a sure sign of the change of season, but the storks are sometimes mistaken. Thus, in 1625, the winter continued very mild until the end of February, and clouds of storks arrived and established themselves near Tours, France. Their return was regarded as a happy omen, but unfortunately a hard frost set in and lasted all through March. The same mistake was made by the birds about one hundred years afterwards, when they returned one month before the snow disappeared. Storks are regarded in France with almost superstitious reverence, and boxes are placed in the trees for their habitation. The male and female storks pass their winters on the banks of the Nile, but return to their old box. The young birds are sometimes taken and kept in the house through the winter, where they remain all the year through on familiar terms with the inmates.

EMIGRATION TO THE SOUTH.—The New York World of Friday says: A large number of foreign emigrants have left this city within the last few days to try their fortunes in the South. The steamship Saragossa, which left yesterday for Charleston, had a good number on board bound for the neighborhood of Charleston, Columbia, and other places through South Carolina. They had only arrived in this country the day before, either in the Westphalia, from Hamburg, or Minnesota, from Liverpool and Queenstown, and must, therefore, have been forwarded by one of the many emigration companies now organizing in the State. The greater number of these people were Germans, the remainder Irish, English and French; but all were young, and looked hearty and strong—the women as well as the men—and bore all the marks of country life on their cheeks, and of being used to farm and other work. In their strong and well developed limbs, they seemed to appreciate the novelty of all about them, a short glance at which they would take. A number of friends from the other emigrants of the European ships accompanied them to the pier, and repeated the adieu they had all but lately received in the old country. On board the steamer there was also a very fine fire engine, intended for one of the oldest fire companies in the United States—the Eagle Company, of Charleston, which was organized in 1818 and incorporated in 1818. Shipping merchants and others say that since the close of the war there had not been such signs of a coming good year for trade in the South as within the last week or so. Every steamer going southward is loaded with as much freight as she can carry, and even cabin passengers are also plenty, notwithstanding that the present is about the season when this class of people go North instead of South, in consequence of the approaching warm weather.

AYER'S HAIR VIGOR FOR THE RENOVATION OF THE HAIR.

THE GREAT DESIDERATUM OF THE AGE! A dressing which is at once agreeable, healthy, and effectual for preserving the hair, faded or gray hair restored to its original color and the gloss and freshness of youth. This hair is thickened, falling hair checked, and baldness cured, though not always cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of feeding the hair with a paste, instead, it will keep it clean, vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can be used with perfect safety. It is a simple and safe remedy for all who desire to preserve their hair, and is a simple and safe remedy for all who desire to preserve their hair.

INDIAN RAIDS ON THE SETTLEMENTS. OMAHA, April 2.—The Indians made a raid on the 23rd ult. south of here, on Saturday last, and captured 100 head of stock. No persons were killed.

THE DEMOCRATS HAVE CARRIED SING SING by a vote of 100 to 90.

CITIZENS' CO-OPERATIVE MUTUAL LIFE INSURANCE COMPANY OF BEDFORD, PA.

Incorporated, March, 1869, by Special Act of the Legislature of Pennsylvania.

This company is organized on the Co-Operative Mutual Plan.

The membership fee is graded according to the age of the applicant, and is lower than other mutual companies.

The payment of the membership fee entitles the member to a life policy.

Every member in this company has a vote in controlling the funds of the company, and has an equal share in the funds.

The amount of money paid is so little that every one can insure.

This Company is purely a HOME COMPANY.

OFFICERS: Hon. SAMUEL L. RUSSELL, Pres. J. R. DUBOURN, Vice Pres. E. F. KELL, Secretary. G. L. SHANNON, Treasurer.

DIRECTORS: J. M. SIEGEMAN, J. B. WILLIAMS, T. H. LYONS, D. H. ANDERSON, Gen. Agent, W. A. EDWARDS.

Circulars, Pamphlets and full particulars given, on application to the Secretary of the company, or to W. A. EDWARDS, Gen. Agent, Bedford, Pa. Philadelphia, March 16th, 1869.

THE NATIONAL LIFE INSURANCE COMPANY, OF THE UNITED STATES OF AMERICA.

Chartered by Special Act of Congress, Approved July 23, 1868.

CASH CAPITAL—\$1,000,000. PAID IN FULL.

BRANCH OFFICE PHILADELPHIA, FIRST NATIONAL BANK BUILDING, Agents, Bedford, Pa.

Where the general business of the Company is transacted, and to which all general correspondence should be addressed.

OFFICERS: JAY COOK, Chairman of the Board. HENRY COOKE, Vice-President. EMERSON W. PEET, Secretary and Actuary.

This Company offers the following advantages: It is a National Company, chartered by special act of Congress, 1858. It offers low rates of premium. It furnishes larger insurance than other companies for the same money. It is definite and certain in its terms. It is a home company in every locality. Its policies are exempt from attachment.

There are no unnecessary restrictions in the policies. Every policy is non-forfeitable. Policies may be taken which pay to the insured their full amount, and return all the premiums, so that the insurance costs only the interest on the annual payments. Policies may be taken that will pay to the insured, after a certain number of years, during life, an annual income of one-tenth the amount named in the policy. No extra rate is charged for risks upon the lives of females. It insures, not to pay dividends to policy-holders, but at a low rate that dividends will be impossible. Circulars, Pamphlets and full particulars given on application to the Branch Office of the Company, or to E. W. CLARK & CO., Philadelphia. General Agents for Pennsylvania and Southern New Jersey. W. A. EDWARDS, JOHN W. FISHER, Agents, Bedford, Pa. S. S. FLUCK, Station Bedford Co., Pa.

AYER'S CATHARTIC PILLS. FOR ALL THE PURPOSES OF A LAXATIVE MEDICINE.

Perhaps no more medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adapted into use in every country and among all classes, as this mild but efficient purgative. Its obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have used it know that it cures the most obstinate constipation, and all know that what it does once it does all—that it never returns through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints: such as constipation in all climates, costiveness, indigestion, or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them from heat and moisture, and they are taken while being purely vegetable, no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to gently loosen and stimulate the bowels, remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, any derangements as are the origin of disease.

Minute directions are given in the wrapper: on the box, for the following complaints, which these Pills rapidly cure: For Dyspepsia, Indigestion, Latency, Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy action and remove the obstructions. For Liver Complaint and all various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Stools, Dropsy, Dropsy of the Bowels, they should be judiciously administered to correct the diseased action or remove the obstructions. For Dysentery or Diarrhoea, but one mild dose is generally required.

Minute directions are given in the wrapper: on the box, for the following complaints, which these Pills rapidly cure: For Dyspepsia, Indigestion, Latency, Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy action and remove the obstructions. For Liver Complaint and all various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Stools, Dropsy, Dropsy of the Bowels, they should be judiciously administered to correct the diseased action or remove the obstructions. For Dysentery or Diarrhoea, but one mild dose is generally required.

Should be continuously taken, as required, to change the disposition of the system. With such change these complaints disappear. For Dropsy and Dropsy of the Bowels, they should be taken in small doses, and frequent doses to produce the effect of a drastic purgative. For Suppression a large dose should be taken as it produces the effect of a diuretic. As a Diuretic, take one or two pills to promote digestion and relieve the stomach. An occasional dose stimulates the appetite and invigorates the system. Hence it is often administered to the aged, infirm, and debilitated. One who feels tolerably well, feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Dr. J. C. AYER & CO., Lowell, Mass., U.S.A. Practical Chemist and Dispensing Druggist. Dr. R. F. HARRY, Agent, Bedford, Pa.

THE GREAT ZINGARI BITTERS. A Safe Blood Purifier, A Splendid Tonic, A Pleasant Beverage, A Certain Cure and Preventive of Diseases.

The ZINGARI BITTERS are composed from a prescription of the celebrated Egyptian physician, Dr. Zingari, who, after years of trial and experiment, discovered the Zingari Bitters—the most remarkable vegetable preparation, the earth, perhaps, ever yielded—namely, the most effective in the cure of disease. It is, in combination with the other valuable properties of which the ZINGARI BITTERS is composed, will cure Dyspepsia, Every kind of Acidity, Flatulency, Indigestion, Nausea, Constipation, Nervous Debility, Female Complaints, Pleurisy, Rheumatism, Dropsy, Catarrh of the Bladder, Diarrhoea, Cholera, Malaria, Cholera, Typhoid and Typhus, Yellow Fever, Scrophulous Diseases of the Kidneys, Habitual Constipation, &c., &c.

In the Prevention and Cure of all these diseases, it has never been known to fail, as the fluids of our most prominent citizens through all parts of the globe, have testified. It is the best and highest source, and the best and most effective in the cure of disease. It is, in combination with the other valuable properties of which the ZINGARI BITTERS is composed, will cure Dyspepsia, Every kind of Acidity, Flatulency, Indigestion, Nausea, Constipation, Nervous Debility, Female Complaints, Pleurisy, Rheumatism, Dropsy, Catarrh of the Bladder, Diarrhoea, Cholera, Malaria, Cholera, Typhoid and Typhus, Yellow Fever, Scrophulous Diseases of the Kidneys, Habitual Constipation, &c., &c.
