PIGS IN SUMMER. Summer is the time to make pork; making it in winter is much like running a boat against wind and tide; it requires to much food to keep up the animal heat. If hogs have pleaty of grass in summer. and about half the corn that they will eat, they will fatten rapidly; and my belief is that three in. Mud is very bad for hogs in cool or cold little corn and no corn meal should be fed to young pigs before they are four months old. The effects of corn and raw corn meal on young pigs are these: The pigs at first will be costive, then they will scour. They will begin to rub against that will rub their hair off. Their skin will have a red and dry appearance. A dry, black scurf will form on there and the and not only insisted on payment, but absolute the tar, by which its highest medical properties are retained. It is the only safe-guard and reliable remedy the Pine Tree. It invigorates the digestive organs and restores the appetite. It strengthens the deblitated system. New milk once a day will keep them from scouring. Sour native soil, and a desire to hold offis in it, milk is better than new milk. New milk will wuz one uv the highest and holiest instinks first make the pig costive, then scour him. uv our fallen nachers. He cood and did It will cardle in his stomach, but sour milk sympathize with the chairman uv the meetin will not. The late fall pigs should suck as fully, and agreed with him in everything h long as they will, and the sows should be fed hed said. He did not believe that needy adon warm slop feed, and often. The slop can be warmed by pouring hot water into the shood come here and possess theirselves uv swill tub. A breeding sow should never be given much dry corn. She will get foundered to the manor born. Never! never! never! on it. - American Stock Journal

WHEN SHALL WE PLANT OUR EVERGREENS: -There are advocates of three theories. namely the planting in the Fall, in early viz: spring and late Spring, and again others have serious objections to any or all of these plans: one grower says, he would not plant any kind of a tree in the fail, on heavy soil, for the trees will often be thrown out by the frost, and snother says, if he were to receive a lot of evergreens this very day, in early spring, he would immediately put them out. We have had a personal experience with with all the plans. We transplanted a fine

with all the plans. We transplanted a fine lot of evergreens (Norway spruce) in the month of August, as recommended by the nurserymen, and did what we could to pro- ably, and they wuz about to pass em, Bigler's tect them, but when spring came they were niggers uv course all votin for em, when an tried the first two weeks of the month of June, and succeeded admirably. We trans- nal mashenashens. I remembered, for the was filled in; these too bave kept well.

we can safely say that the best time for Joe Bigler stood grinin at me like a feend. to mulch the ground well, and particularly to see that the trees are well packed and the Parson, your time hez come!"

PETER H. SHIRES, Proprietor and Manufac' BEDFORD CLASSICAL SCHOOL.

FREDERICK WOODS, Principal. A first-class school for the instruction of youth A first-class school for the instruction of young of both screes in a classical and English education, including Latin, Greek, French, German, Mathematics and the ordinary English branches.

Terms moderate. Students from a distance can obtain board in town at reasonable rates.

WILL RE-OPEN, OCT. 12TH, 1868.

it wuz passed over our heads and the meetin adjourned, Bigler and Pollock, follered by their adherents, goin off in high glee. That cuss seems to take a delite in spilin every-thing that the rest uv us undertake to do. Ther's many short corners in Dimocrisy that must be turned skillfully, and it's awkward

It hargorises the agthe appetite.

It strengthens the debilitated system.

It purifies and enriches the blood, and expelf
from the system the corruption which scrofuls
breeds on the lungs.

It disolves the mueus or phlegm which stops
the air passage of the lungs.

Its healing principle acts upon the irritate's
surface of the lungs and throat, penetrating to
each diseased part, relieving pain and subduing
infamation.

OUR NEW FAMILY MACHINE.

which has been brought to perfection regardless of time, labor or expense, is now confidently presented to the public as incomparably
THE BEST SEWING MACHINE IN EX-

Miscellaneous.

SINGER SEWING MACHINE.

The superior merits of the "Singer" Machines

over all others, for either family use or manufacturing purposes, are so well established and generally admitted, that an enumeration of their

elativo excellence is no longer considered nee

OUR NEW FAMILY

ISTENCE. SIMPLE, COMPACT, DURABLE & BEAU-TIFUL.

It is quiet, light running, and capable of per-forming a range and variety of work naver before attempted upon a single machine, -using either silk, twist, linen or cotten thread, and sew-ing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording,

Tucking, Quilting, Felling, Trimming, Binding, etc, are novel and practical, and have been invented and adjusted especially for this machine. New designs of the unique, useful and popular folding tops and cabinet cases, peculiar to the machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea however, can at best be give brough the medium of a (necessarily) limited adertisement; and we therefore urge every person a quest of a Sewing Machine by all means to ex amine and test, if they can possibly do so, all the eading rival machines before making a purchase A selection can then be made unde Branches or agencies for supplying the "Singer"

Machines will be found in nearly every city and town throughout the civilized world, where machines will be cheerfully exhibited, and any information promptly furnished. Or eations may be addressed to THE SINGER MANUFACTURING CO. 458 Broadway, New York. PHILADELPHIA OFFICE,
