

EFFORD, PA., FRIDAY, NOV. 5, 1869.

DON'T TELL IT ALL.

The Free traders are making extraordinary efforts to influence public sentiment in favor of a reduction of our present tariff rates at the coming session of Congress. They tell a great many plausible stories, but omit some very important and vital facts. They point to our foreign trade and declare that we are not buying as much from abroad as formerly, and call this evidence of a decline of prosperity. But they forget to say that in all seasons of free-trade we have bought far more than we sold. They also omit to say that in ordinary business, if a man persists in buying more than he sells, he comes at last to bankruptcy. Every one knows that this same rule holds good in regard to nations. We have found it to be true in our own experience. After every term of Democratic rule in our history, when we have had free-trade for a long time, we have had also a financial crisis; in other words bankruptcy. The effect of our protective tariff has always been to keep us from buying more than we sell, and to change it to selling more than we buy? This has always brought about and permanent prosperity to the whole country. Every one knows that the man who earns more than he spends always saves the difference and it is just the same with nations. While we have a Democratic government and a low tariff protecting free-trade, we continually bought more than we sold, and got deeper and deeper each year in debt to foreign nations. Since Republicanism has restored the protective policy we have been gradually getting out of debt, but we still need a further improvement and increase in various articles, so as to enable us to sell more than we buy, and to change the balance on our side. Protection means selling more than we buy, and thereby growing rich. Free-trade for us means the spend thrift fault of buying more than we sell, and puts us on the straight road to bankruptcy. This is the plain common sense of practical business which can comprehend. Let every one learn this in mind, and let the blatant free-traders talk of the benefits of their system.

The prospect in Spain now is that the Cortes will elect a King shortly and that the Duke of Genoa will be the lucky man. Republicanism must wait still longer. The Spaniards are unequal to the work and unworthy the reward of free institutions. Taught by the experience of his immediate predecessor, Isabel, the new king will doubtless grant his subjects a short time to get used to the uneasy yoke from which they have been free for some months. The Duke is but sixteen years old and has been a pupil of the English philosopher Matthew Arnold. He is supposed to be under the influence of Napoleon. The Republicans oppose him.

In North and South Carolina only about one third of the revenue on tobacco has ever been paid; Virginia is but little better, and throughout the whole South the officers of the law are either evaded or resisted to such an extent that it is thought necessary to have to be called into requisition. The law officers refuse to assist in enforcing the law or punishing criminals. A little more reconstruction is badly needed.

CONTESTING THE STATE ELECTION.—The city of the great Republic is at the State election is the widest absurdity ever heard of. Who ever heard of a contest of election in which it was not discovered that the largest frauds were always committed by copperheads? Nay, contest. It's all the thinnest kind of gas.

GEN. BITTIFIELD, Assistant United States Treasurer at New York, has resigned his office, and demanded an investigation of his conduct. He is charged with being concerned in the gold Ring combination. His official conduct will be thoroughly investigated by order of the President.

ELECTIONS took place in New York, New Jersey, Massachusetts, Minnesota and Wisconsin on Tuesday, the 21st inst. New York elected a Secretary of State and a Legislature; New Jersey, a Legislature; Massachusetts, Minnesota and Wisconsin each elected State officers and a Legislature.

The attempts of the gold gamblers and copperheads to identify Grant with their speculative schemes, for the purpose of making political capital, have become so absurd that they are getting heartily ashamed of it. They are getting a good deal of things that they would do well to be ashamed of.

The Secretary of the Navy is instituting such reforms in his Department as will result in a saving of several millions of dollars annually. Retrenchment is the word, and as well before elections, with Republicans.

The public debt statement on the 1st inst. shows a reduction of \$7,362,852.00 of the month of October. Republicanism and a protective tariff need no better recommendation to the people. Facts speak louder than empty professions.

The Secretary of the Treasury will continue his gold sales during the month, buying bonds with the proceeds and applying them to the reduction of the public debt.

OUT OF 250 passengers on board the ill-fated steamer Stonewall, but 60 were saved. A brief report of the calamity will be found in our news columns.

\$64,322,070.00 of the public debt have been paid since Grant has been President.

SPAIN is still sending reinforcements to Cuba.
