

Farm, Garden & Household.

"A STICH IN TIME SAVES NINE."

Repairing any tool in time will more than save nine times the work, because a timely bracing or fastening will often save the shaking and jarring loose of the whole structure, and the stopping of a gap, or, better still, the repairing of a weak place in a fence before it becomes a gap, will not only save nine times the labor and material, but prevent the stock from becoming "breach."

POSITION IN SLEEPING.

It is better to go to sleep on the right side, for then the stomach is very much in the position of a bottle turned upside down, and the contents of it are aided in passing out by gravitation. If one goes to sleep on the left side, the operation of gravity on the stomach is in a contrary direction.

If you sleep on your back, especially soon after a hearty meal, the weight of the digestive organs and that of the food resting on the great vein of the body, near the backbone, compress it, and arrests the flow of the blood more or less. If the arrest is partial, the sleep is disturbed, and the stomach is upset.

HOW TO UNHITCH A TEAM.

There is always a right way to do everything, and the right way to unhitch a team of horses is the quickest and safest. We have often noticed farm boys, and not only farm boys but men, disconnect a team from a wagon in a very unsafe manner; something as follows: The driver springs from the wagon on to the sides of the horses, puts up the lines, unhitches them at the bits, lets down the neck-yoke, unhitches the tugs and leads the horses away disconnected.

SALT FOR THE THROAT.

An experienced oculist says that apple trees two years old are better for setting out than those of a more advanced age, and will produce fruit as soon after being transplanted, all other things being equal, as trees four or five years old.

The occasional use of onions mixed and fed to poultry with their other feed, is said to be one of the surest ways of keeping a yard of poultry in health.

Humorous.

When do literary ladies change color?

When they are so deeply read that they become blue. A backward spring is produced by presenting a red hot poker to a man's nose. If you would not have affliction visit you twice, listen at once to what it teaches.

Has it been noticed that ladies who like long trains are partial to the outskirts? Loafers, as a class, are no fools. They are always an owing set of fellows.

If a redcoat comes into your fruit garden, does he come there a robin? Why are the clouds like coachmen?—Because they hold the reins.

It is true of many men that their memory is nothing but a row of hooks to hang up grudges on. What class of women are most apt to give tone to society? The belle.

Why is a married man like a candle? Because he sometimes goes out at night when he ought not to.

An Irishman said he did not come to this country for want. He had abundance of that in his own country. Marrying and settling down is now called operative house keeping.

No man will ever be able to build a house by carrying bricks in his hat. A young lady being asked why the zodiac bore the sign of a bull, replied, "because it's very singular they don't get married."

When is a blow from a lady welcome? When she strikes you agreeably. Among the various stations in life the least desirable of all is the police station.

What debt is that for which you can not be sued? The debt of nature. The prettiest lining for a bonnet is a pretty face.

Men of noblest disposition think themselves happiest when others share their happiness with them. The three essentials for happiness—something to do, something to love, and something to live for.

Who is the laziest man? The furniture man; he keeps chairs and lounges about all the time. Let a young man take the degree of A. B.—that is a bride—and she may hope in the time to be entitled to that of A. M.

An Iowa paper says: "It is all a mistake about Henry Clay Denn being a vain man. His contents is more like drawing water from a well. After going to sleep let the body take its own position."

If you sleep on your back, especially soon after a hearty meal, the weight of the digestive organs and that of the food resting on the great vein of the body, near the backbone, compress it, and arrests the flow of the blood more or less.

When the tumbling building crushes us—what then? That is death! That is the death of those of whom it is said, when they are found lifeless in the morning, that "they were as well as ever they were the day before."

When the tumbling building crushes us—what then? That is death! That is the death of those of whom it is said, when they are found lifeless in the morning, that "they were as well as ever they were the day before."

A PACIFIC RAILWAY GOLD LOAN.

We beg leave to announce that we have accepted the agency of the KANSAS PACIFIC RAILWAY CO., For the sale of its New Seven Per Cent. Thirty Year Gold Loan, Free from Tax. This Loan amounts to \$6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds, secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles, of which 12 miles are completed, and the rest under construction. It is the first mortgage upon the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas.

And in successful operation for 437 miles west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides

More than the interest upon this new Loan. In addition to this the Bonds are also secured by a first mortgage of the Government Land Grant of Three Million Acres.

Extending in alternate sections on either side of the track, from the 39th mile post in Kansas to Denver, Colorado, a distance of 237 miles, of which 12 miles are completed, and the rest under construction. It is the first mortgage upon the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas.

READ! READ! READ!

Middleton's Wonderful Pain Cure. A sure remedy for Rheumatism, Neuralgia, Lumbago, Gout, Sprains, Headache, Stiffness of the Joints and similar diseases. This wonderful remedy is composed entirely of vegetable ingredients. These are not poisonous substances used in its manufacture. For assurance of its excellent properties, read the following certificate.

DEPTON, May 18, 1869. This is to certify that I have used Middleton's Liniment for the Rheumatism which has afflicted me for several years, and that I could not get my hand to my head without great pain, and after a few applications was entirely relieved.

DEPTON, May 21, 1869. Mr. Middleton: Dear Sir—Mrs. Bower was in much suffering for some weeks with Rheumatism, and got some of your Pain Cure. She used it for two nights and it eased the pain and after keeping on using it for two weeks she was restored to health. I feel it to be a very good thing, and I am glad to see it is so generally used.

DEPTON, May 21, 1869. Mr. Middleton: Dear Sir—Mrs. Bower was in much suffering for some weeks with Rheumatism, and got some of your Pain Cure.
