DURE COLD WATER.

The Best and Cheapest Pump now in use S. G. MASON'S DOUBLE-ACTING NON-FREEZING

CAST-IRON FORCE PUMP.

This Pump has been awarded the PIRST PRE-MIUM at the New York, Ohio, and Pennsylvania State Fairs.

This Pump never freezes, from the fact that the moment you stop pumping, the water gradually drops back to a level with the water in the well; consequently you always get PURE COLD WATER. It will force water any distance through pipe, and in case of FIRE, is valuable, as water may be thrown to the distance of from fifty to sixty feet from its mouth, by attaching 3 or four feet of small hose. It is DOUBLE ACTING, and can be worked with ease. It is just the thing to wash wagons, buggies, and water gardens, &c., and every farmer and mechanic should have one of these pumps. As for Health, this Pump has been prronneed by our leading Physicians as being one of the very best pumps now in use. It is generally known that wooden pumps hold the water in the stalk, and of course it tastes more or less of the wood. This Pump leaves all the water drop back just as soon as you stop pumping, to the level of the water in the well. So you get PURE COLD WATER from the bottom of the well every time you draw a bucket full. There are about 22 of these pumps now in use in this county, for one and two years, and they have ALL given perfect satisfaction. Not one of these has frozen since they have been put in. For reference I can give some of the very best men in our town and county. Call and see this pump work before purchasing any other.
