THE FLORENCE

ARE THE BEST IN THE WORLD.

While a large number of Machines have been
offered to the public, some of which possess points
of excellence and acknowledged merit, we have

one that could be easily understood and com-
prehended by all.

To supply a Sewing-Machine free from the ob-
jections attached to others has been a long task;

The result of repeated tests has been that we
are not only able to surpass other Machines, as
they appeared years ago, but also as improved

This we boldly claim has been accomplished by
the liberal expenditure of capital, and the per-
sistent labor of years; and in presenting our

proving that the public fully appreciate the many
advantages combined in the Florence Machine.
