POSTSCRIPT.

Removal of the Baltimore Police Commissioners by Governor Swann.

BALTIMORE, November 1.

GOVERNOR SWANN has removed the Police Commissioners. He says he will call on the President for troops, if necessary.

Great excitement prevails here in consequence of the Governor's decision.

It is not yet ascertained who are the new Commissioners. It is rumored that the new force have already organized, and will make their appearance in the course of the day. The old Commissioners have their full force out, and will resist the demand of the new force for the surrender of the station-houses, the marshal's office, etc.

It is reported that John T. Ford, of Ford's Theatre notoriety, and Captain Horn, of the Third Ward (one of Governor Swann's registers), have been selected for Police Commissioners, and ex-Marshal Van Nostrand, on of the witnesses for the prosecution, is the new Marshal.

A body of four hundred dismounted cavalry, who arrived here yesterday to embark for Texas, are now at Fort McHenry, and rumor says they will be retained here to act in case of an emergency.

The *American* has received the following special dispatch:

ANNAPOLIS, November 1.

The Governor has decided to remove the Police Commissioners. The decision is very bitter against them. He said the registry lists of 1866 should have been used, and that the judges were of the most partisan character and were guilty of official misconduct. He would call upon the United States, if necessary.

Sheriff Thompson, of Baltimore, arrived here this morning, it is supposed for the purpose of taking up the commissions of the new officers.

Latrobe, counsel for the Governor, goes to Washington by the afternoon train.

THE FLORENCE SEWING-MACHINES ARE THE BEST IN THE WORLD.

Salesrooms, 630 Chestnut Street, Philadelphia, Pa.

While a large number of Machines have been offered to the public, some of which possess points of excellence and acknowledged merit, we have long felt what others have experienced, the necessity of a Machine more perfect in its mechanical structure, combining in the

HIGHEST DEGREE
SIMPLICITY WITH DURABILITY,

and while capable of doing a

GREATER RANGE OF WORK,

one that could be easily understood and comprehended by all.

To supply a Sewing-Machine free from the objections attached to others has been no easy task; for we not only had to surpass other Machines, as they appeared years ago, but also as improved from time to time by more recent experience.

This we boldly claim has been accomplished by the liberal expenditure of capital, and the patient, untiring labor of years; and in presenting our Machine to the public, we shall make strong assertions respecting its merits, which we are prepared to substantiate in every particular.

Discarding the Chain and Loop, or Knit stitches, we adopted the

LOCK STITCH

alike on both sides of the fabric), which is recognized by the masses as best suited to all kinds of work. But to meet objections sometimes urged against this favorite stitch, we have added the Knot, Double Lock, and Double Knot, either of which is

STRONGER AND MORE ELASTIC

than the Lock; thus enabling the operator to select a stitch

PERFECTLY SUITED

to every grade of fabric, and where necessary, sew seams much stronger than it is possible to do by hand.

THE FLORENCE

makes

FOUR DIFFERENT STITCHES

with as much ease as ordinary Machines make one, and with as little machinery.

The result of repeated tests has been all we could desire, and from its first introduction the Florence has gained hosts of friends, and been regarded as a

HOUSEHOLD NECESSITY;

proving that the public fully appreciate the many advantages combined in the Florence Machine. Over all others, the Florence must be seen to be fully appreciated.

We claim for the

FLORENCE

the following

ADVANTAGES

over any and all

SEWING-MACHINES IN THE WORLD;

☞ It makes four different stitches, the lock, knot, double-lock, and double-knot, or, one and the same machine. Each stitch being alike on both sides of the fabric.

☞ Every Machine has the reversible feed motion, which enables the operator, by simply turning a thumbscrew, to have the work run either to the right or left, to stay any part of the seam, or fasten the ends of seams, without turning the fabric.

☞ Changing the length of stitch, and from one kind of stitch to another, can readily be done while the Machine is in motion.

☞ The needle is easily adjusted, and does not skip stitches.

☞ It is almost noiseless, and can be used where quiet is necessary.

☞ Its motions are all positive; there are no springs to get out of order, and its simplicity enables any one to operate it.

☞ It does not require finer thread on the under than for the upper side, and will sew across the heaviest seam, or from one to more thicknesses of cloth, without change of needle, tension, breaking thread, or skipping stitches.

☞ The Hemmer is easily adjusted, and will turn any width of hem desired.

☞ No other Machine will do so or at a range of work as the Florence.

☞ It will hem, fell, bind, gather, braid, quilt, and gather and sew on a ruffle at the same time. It has no springs to get out of order, and will last a lifetime.

☞ It is fully protected and licensed by Elias Howe, Jr., and our own Letters Patent.

The taking up of the slack-thread is not performed by the irregular contraction of a wire coil or unreliable operation of springs. The precision and accuracy with which the Florence draws the thread into the cloth is unapproached by any Sewing-Machine hitherto offered in the world.

We furnish each Machine with "Barnum's Self-Sewer," which guides the work itself, and is of inestimable value, especially to inexperience operators.

While possessing the above, and many other advantages, the Florence is sold at corresponding prices with other first-class Machines, and a careful examination will fully substantiate all that we have claimed for it, and justify the assertion we now make, that it is the best Sewing-Machine in the world.

We warrant every Machine to be all that we claim for it, and to give entire satisfaction, and will give a written warranty, if required.

Liberal arrangements made with those who buy to sell again. Further information may be had by inclosing stamps to the General Office of the Florence Sewing-Machine Company, 630 Chestnut Street, Philadelphia, Pennsylvania.
