THE FLORENCE SEWING-MACHINE THE BEST IN THE WORLD. While a large number of Machines have been offered to the public, some of which possess points of excellence and acknowledged merit, we have long felt that others have experienced, the necessity of a Machine more perfect in its mechanical structure, combining in its...

HIGHEST DEGREE SIMPLICITY WITH DURABILITY, and while capable of doing a GREATER RANGE OF WORK, one that could be easily understood and comprehended by all.

PERFECTLY SUITED TO every grade of fabric, and where necessary, sew some much stronger than it is possible to do by hand.

THE FLORENCE makes FOUR DIFFERENT STITCHES, with as much ease as ordinary Machines make one, and with as little machinery.

HOUSEHOLD NECESSITY, proving that the public fully appreciate the many advantages combined in the Florence Machine. Over all others, the Florence must be seen to be fully appreciated.

ADVANTAGES OVER ALL OTHER SEWING-MACHINES IN THE WORLD! It makes four different stitches, the lock, knot, double-knot, and double-knot, all on one and the same machine. Each stitch being alike on both sides of the fabric.

Every Machine has the reversible feed motion, which enables the operator, by simply turning a thumb-screw, to have the work run either to the right or left, to stay any part of the seam, or to fasten the ends of seams, without turning the fabric.

Changing the length of stitch, and from one kind of stitch to another, can readily be done while the Machine is in motion.

Its motions are all positive; there are no springs to get out of order, and it is simply endless any one to operate it.
