#### THE LEGISLATURE.

We have been looking over the Legislative Record, and find that the real business of the session has not yet begun, so far as law making is concerned.

The reception of the message of Gov. Curtin, the canvassing for and election of a State Treasurer, the preparation for the inauguration of Gov. Geary; and last but not by any means least, the flerce fight which has been going on over the question of who shall be United States Senator in place of Mr. Cowan, has taken up the time and attention of the Legislature. The Radical majority has not done itself any credit by its action on the last question. The soldier interest and the conservative element were for Gov. Curtin, they have follows : been ignored and base and disgraceful influences have triumphed.

Gov. Curtin has sent in several lists of acts which he has signed or which had become laws without his signature, since last session. He now retires to private life, and "No-prefix Geary" and an apostate Democratic cabinet take up the staff of office. Their history remains to be written.

### NEBRASKA.

On Wednesday January 9th the Senate ary oaths to witnesses. took up the Nebraska Bill on its final passage. Mr. Buckalew addressed the Senate in opposition to its passage, on some points not previously discussed. The debate was participated in by several Senators.

The bill was reported to the Senate without amendment. Mr. EDMUNDS. I now move the

same amendment which I offered in committee, to add the following as an additional section :

And be it further enacted, That this act shall take effect with the fundamental and perpetual condition that within the State of Nebraska there shall be no abridgement or denial of the exercise of the elective franchise or of any other right to any person by reason of race or color, excepting Indians not taxed. Mr. WADE called for the yeas and

pays, and they were ordered.

CONGRESSIONAL. MR. ASHLEY'S IMPEACEMENT RESO LUTION.

Mr. Ashley, of Ohio, rising and speaking with solemn deliberation, said :

MR. SPEAKER: I rise to a question of privilege. I rise to perform a painful duty, but one which I feel to be imperative, a duty which I think cannot be postponed, and cannot, without great criminality on our part, be longer neglected. I had hoped that that duty would have devolved on an older and more experienced member of the House than myself. Prior to the holiday recess I asked a number of gentlemen to introduce the resolution, which I tried to introduce, and which the House refused to suspend the rules to enable me fused to suspend the rules to enable me to do. Conscious that the loyal people of the country demand at our hands the proposition which I am about to sub-
