### ONE OF THE RESULTS OF CHANGE.

During the days of Frank Shunk, and even up to so late a date as 1860, there was about the Legislature and public offices and buildings a real effort to economise-to save money from being needlessly expended. The smallest appropriation or expenditure of money was subjected to a rigid scrutiny. We refer now to the Legislature, and the public buildings. That was the rule, exceptions there may have been.

For the last few years all this is changed, the rule now is to spend as much as possible, and apparently there is no check. Since George Darsie left the Senate, no one cares enough about such matters to pay it any attention. Perhaps, indeed, no one has experience enough to do it, even if so disposed.

Repairs to the buildings have always been done by the Superintendent alone, usually under the direction of the Heads erals Report.

We hope the Democratic members will urge the unconditional repeal of the three mill tax on personal property. The Radicals think of nothing but such legislation as look to their own party projects, and the rights and interests of the people are wholly disregarded.

This tax would have been repealed years ago had the Democratic party remained in power, they did, in fact, take off a half mill, but it was restored by the Radicals in 1861.
