WE print at length a portion of the papers in the contested Licence cases from Catawissa. We have been unable to obtain copies of the remonstrances. or we would have published them.

"COLONEL SMALL'S" communication from Milton, has been received, but it will be a very long time before we can make room for it. As P. John is just now hard up for letters, we suggest sending it to him.

On Saturday afternoon the Base Ball Club was again out in force, and had several fine innings, under the leadership of Buckalew and Sloan. The best of humor prevailed, and a number of spectators were present.

CAPTAIN GEORGE W. UTT, Mercantile Appraiser, has commenced his annual visitation to our merchants and dealers. They will find the Captain obliging, and at the same time mindful of the interests of the county.

Is it not singular that since the "Let-LUMBIAN a few weeks ago, P. John's

WE would urge our readers to consider well the report of the Grand Jury, which we publish this weee. The reforms they suggest are much needed, and it is time the attention of the public was called to them. All are interested in the care of the records, public buildings, and the improvements made necessary by the growth of our county,

On motion of Mr. Clark, E. R. Ikeler was admitted to practice as an attorney in this county. Mr. Ikeler is too well known in this section to need any introduction on our part; but we cannot refrain from saying that he is a young man of pleasing address, of unusual ability, and destined to make his mark in the profession he has adopted. Our good wishes accompany him.

In connection with the many new advertisements found in to-day's paper is that of our enterprising townsman, N. J. Hendershot, who has lately erected and stocked with drugs, the convenient building opposite the American House. Mr. H. has in his employ a druggist who thoroughly understands the business. Give him a call.

FOR THE PEOPLE GENERALLY—I have coal hoots, coal silters, lanterns, table cutlery, poketet cutlery, plated forks, servers, teanand cof-

yield a ton, giving a large amount of the best quality of coal,

quality of coal.

The location is such that all the veins may be
out and worked to the greatest possible advantage
above water level, and at much less expense than
can be done from colleries operating below water

The coel can be brought to the surface through drifts or tunnels which drain the water from the mines and saves the hoisting of the coal. So the mines and saves the hoisting of the coal. So the eligibility of these lands for cheap mining is unquestionable. Very lately the "Grand Tunned" or "Red Ash" vein has been opened, and is now producing as fine a quality of coal as has ever been produced in the anthracile regions. The breaker now in operation is capable of preparing from 150 to 200 tons per day. The surface contains an abundant supply of wood and timber very valuable for mining purposes, which gives the tract the advantage of many other coal lands. The fact that atmost all valuable coal lands are being rapidly taken up by heavy capitalists or large corrapidly taken up by heavy capitalists or large cor-porations, shows that they must steadily and greatly rise in the market value, while with the immense and constantly increasing demand for this coal, and the Railroad and North Branch camal, passing by the months of the mines, through the Great Iron making districts of Bloomaburg, Danville, Duneannon, Harrisburg, Middletown, Marietta, and Columbia, to tide-water at Havre-de Grace, one can scarcely conceive of a more profitable or permanant source of wealth than may be found in lands like these. In order to be able to open their works on a more extensive plan, this company has placed a portion of their capital stock in market on the following terms: Any person taking one or more

TEN DOLLARS EACH,

will be entitled annually to a ton of coal at cost at the mine per share, and any stockholders

NOT RECEIVING THE COAL

as aforesaid, to be reclifed on the books of the
Company, with the difference between the cost
and selling price for each share, to be paid before
a dividend bad be declared. a dividend shall be declared.
