

THE FLORENCE SEWING-MACHINES ARE THE BEST IN THE WORLD.

While a large number of Machines have been offered to the public, some of which possess points of excellence and are acknowledged merit, we have long felt that others have been offered, the necessity of a Machine more perfect in its mechanical structure, combining in the

HIGHEST DEGREE SIMPLICITY WITH DURABILITY, and while capable of doing a GREATER RANGE OF WORK, one that could be easily understood and comprehended by all. To supply a Sewing-Machine free from the objections attached to others has been no easy task; for we not only had to surpass other Machines, as they appeared years ago, but also as improved from time to time by more recent experience.

PERFECTLY SUITED to every grade of fabric, and where necessary, sew much stronger than it is possible to do by hand. THE FLORENCE makes FOUR DIFFERENT STITCHES with as much ease as ordinary Machines make one, and with as little machinery.

HOUSEHOLD NECESSITY; proving that the public fully appreciate the many advantages combined in the Florence Machine. Over all others, the Florence must be seen to be fully appreciated. We claim for the FLORENCE the following ADVANTAGES over any and all SEWING-MACHINES IN THE WORLD:

It makes four different stitches, the lock, knot, double-knot, and double-knot, on one and the same machine. Each stitch being alike on both sides of the fabric.

Every Machine has the reversible feed motion, which enables the operator, by simply turning a thumb-screw, to have the work run either to the right or left, to stay any part of the seam, or to fasten the ends of seams, without turning the fabric.

Changing the length of stitch, and from one kind of stitch to another, can readily be done while the Machine is in motion.

The Needle is easily adjusted, and does not slip stitches.

It is almost noiseless, and can be used where quiet is necessary.

Choice Poetry.

MOTHER'S GRAVE. BY G. B. PRENTICE. The trembling dewdrops fall Upon the shining flowers, like souls at rest; The stars shine gloriously, and all Save me are best.

And I must linger here, To staid the plumes of my mistle years, And mourn the hopes of childhood dear With bitter tears.

STATE OF THE COUNTRY. MR. BUCKALEW IN DEFENCE OF SUMNER.

In the debate upon the "Supplemental Reconstruction" bill, on the 19th of March last, Senator Sumner took decided ground against "military reconstruction," declaring that the Southern States so reconstructed would be open to the imputation of being born of the bayonet.

Mr. BUCKALEW. I rise to express the opinion that the Senator from Massachusetts is not open to criticism for the sentiments which he has expressed upon this occasion, nor for the position which he has assumed.

DIGESTION. INFLUENCE OF THE DIET UPON HEALTH. At a lecture delivered at the Cooper Institute the following suggestions were made on "Animal Heat, on the influence of Diet on Health, Strength and Long Life."

The lecturer commenced by saying that he would speak upon food and drink. As these topics were closely connected with that of digestion, he would recapitulate some points spoken of in a previous lecture.

Mr. STEWART. I wish to say to the gentleman who has just spoken in this hall, that the Senator from Massachusetts is entirely satisfactory.

Mr. BUCKALEW. Then, sir, I will proceed to the other point; and I propose to make that equally plain, and I propose to show you that the Senator from Massachusetts is entirely satisfactory.

A LITTLE QUAKERESS IN A HURRY.

An amusing matrimonial story is told of the olden time in England. It so fell out that two young people became attached to each other, as young people sometimes do.

And what did Mary? Wait till the birds of the air had told her swain of the change, or till her father had time to change his mind?

WHO STEALS THEM? We understand that the rugs, mats, and other portable necessities in and around the legislative halls have already disappeared.

PROFESSOR AGASSIZ ON THE NEGRO. In a recent lecture Agassiz remarked: "I have pointed out over a hundred specific differences between the brain and nervous systems of the white man and negro."

WHAT IS THE USE?—The facts mentioned in the following, from the Baltimore Gazette, make it manifest that there is no longer much use in having a Judicial branch of the Government:

It is notorious that the decision of the Supreme Court, if favorable to the complainant, would be treated on all sides as having power with utter contempt.

It is scarcely necessary to remark that Mr. Buckalew's declarations are rapidly approaching fulfillment.

CURIOS MEDLEY. By the lake where drooped the willow, Row, vessels, how! With his hands on his hips, And his feet on his heels, And his head on his neck,

A YOUNG lady is charged with having said that if a cart wheel has nine fellows, it is a pity a pretty girl can't have one.

A MARRIED monster says he once had a most delightful dream, in which he imagined he had an angel by his side, and on waking up found it was only his wife.

WIFE. I thought you said you were going to have a goose for dinner? "So I did; and I've kept my word." "Where is it?" "Why, my dear, ain't you here for dinner?" "Smithers couldn't see the point of that joke."

IN the course of a conversation or disquisition on Satan, Archbishop Whately once started his listeners by asking:

PICKINGS FROM PUSCH.—Substitutes for Profane Swearing.—Adapted to various Sorts and Conditions of Men. Lawyer: Tax my bill. Doctor: Snap my draughts. Soldier: Smash my stock.

AGENT A traveling to Pittsburgh from one of the neighboring towns, stopped to see a friend, and left his horse on the road. On his return he found that the animal had slipped his bridle, and while in search of him he met an Irish peasant, of whom he inquired:

"Have you seen a strange creature anywhere hereabouts, with a saddle on his back?"

"Oh, by the powers, ye may say that," replied Pat.
