

Farmer's Department.

Packing Butter in kegs. The annexed correspondence on the subject of packing butter in summer is of great interest, and showing the comparative excellence of wooden and stone vessels under the different circumstances stated.

It is in well soaked tubs or kegs; put a little damp salt in the bottom and place it in a cool dry cellar on a bench of wood eighteen inches from the cellar bottom, and the same from the wall.

A correspondent in one of our exchanges writes that during several years of our farming in Iowa, we found it extremely difficult to preserve sweet, for winter use, the butter that we made during the months of June, July, and August.

Coal ashes. Coal ashes in England have been found to be an excellent top dressing for clover and grass lands, especially on dry, sandy soils.

When he reached the palace, he told the king he was come to cure the princess; and when he had given her the ashes and made her well, he claimed her for his wife, as the reward that was to be given.

Turnips. Their Place on the Farm. The amount of turnips which may be raised upon an acre of good land is very great, other crops may produce more nutriment, for a very large proportion of the root is water, nevertheless, were the question to be, how may the greatest quantity of food be produced upon a acre after the first of July?

Next night they stole away; and when they had sat under the tree a few days, they were taken by the king's men, and taken to him and said, "Look at me! I am your old comrade whom you had robbed and left blind."

Young Grape Vines. The great trouble with inexperienced cultivators is, that they will allow a young vine to have its own way. It is the inexorable law that a vine cannot yield both fruit and wood.

For the Young Folks.

A BASH of soldiers came home from the wars; for peace had been made and their king wanted their service no longer. One of them, whose name was Conrad, had saved a good deal of money out of his pay; for he did not spend all he earned in eating and drinking, as many others do.

When they had gone a little way, the two rogues said, "We must go by the right-hand road, for that will take us quickest into another country, where we shall be safe." Now they knew all the while that what they were saying was untrue; and as soon as Conrad said, "No, the right-hand road is straight back to the town we came from—we must keep on the left hand," they picked a quarrel with him, and said, "What do you give yourself airs for? You know nothing about it!"

When night came on, he heard something fluttering over his head. It turned out to be three crows that flew round and round, and at last perched upon the tree. By and by they began to talk together, and he heard one of them say, "Sister, what is the best news with you to-day?"

When he reached the palace, he told the king he was come to cure the princess; and when he had given her the ashes and made her well, he claimed her for his wife, as the reward that was to be given.

When he reached the palace, he told the king he was come to cure the princess; and when he had given her the ashes and made her well, he claimed her for his wife, as the reward that was to be given.

SEWING MACHINES.

GROVER & BAKER'S SEWING MACHINES, THE FLORENCE ARE THE BEST IN THE WORLD.

THE FLORENCE SEWING MACHINES, ARE THE BEST IN THE WORLD. While a large number of Machines have been offered to the public, none of which possess points of excellence and acknowledged merit, we have long felt that others have experienced the necessity of a Machine more perfect in its mechanical structure, consisting in the HIGHEST DEGREE.

THE GROVER & BAKER SEWING MACHINES, ARE THE BEST IN THE WORLD. They are superior to all others for the following reasons: 1. They sew with two threads direct from the spools, and requiring no rethreading.

THE GROVER & BAKER SEWING MACHINES, ARE THE BEST IN THE WORLD. They are superior to all others for the following reasons: 2. They are more easily understood and used, and less liable to derangement than other machines.

THE GROVER & BAKER SEWING MACHINES, ARE THE BEST IN THE WORLD. They are superior to all others for the following reasons: 3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

THE GROVER & BAKER SEWING MACHINES, ARE THE BEST IN THE WORLD. They are superior to all others for the following reasons: 4. The stitch made by these machines is much more firm, elastic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.

THE GROVER & BAKER SEWING MACHINES, ARE THE BEST IN THE WORLD. They are superior to all others for the following reasons: 5. This stitch, owing to the manner in which the upper thread is brought in, is much the most pliant and beautiful in use, and retains this pliancy and beauty even upon articles frequently washed and ironed until they are worn out.

THE GROVER & BAKER SEWING MACHINES, ARE THE BEST IN THE WORLD. They are superior to all others for the following reasons: 6. The structure of the seam which they form, though it be cut or broken at intervals of only a few stitches, it will neither open, run, nor ravel, but remain firm and durable.

THE GROVER & BAKER SEWING MACHINES, ARE THE BEST IN THE WORLD. They are superior to all others for the following reasons: 7. Unlike other machines, these fasten both ends of the seam by their own operation.

THE GROVER & BAKER SEWING MACHINES, ARE THE BEST IN THE WORLD. They are superior to all others for the following reasons: 8. With these machines, while silk is used upon the light or fine side of the seam, may be used upon the other side without the least loss of strength or durability of the seam. This can be done on any other machine, and is a great saving upon all articles stitched or made up with silk.
