A. M. HENRY

to his friends and customers that
 he has moved to his old place on
MAIN STREET, BLOOMSBURG,
 where he will accommodate with

VAN DYKE STOVES

Stoves, Tinware, and every var-
 iety of articles, and in a Store and Tinware Es-
 tablishment, and on the most reason-
 able terms. Repairs done at the shortest notice.

W. STAVE AND TIN SHOP.

at Bloomsburg, Penn'a.
 has just fitted up and opened

STAVE AND TIN SHOP,

where he is prepared to make up
 any work of all kinds in his line, and do
 it with neatness and dispatch, upon the
 most reasonable terms. He also keeps on hand
 a large stock of **VAN DYKE PATENT IRON STOVES,**
 which will sell upon terms to suit purchasers,
 and in a few days he is erecting a machine, and
 will be in the public patronage.

SEWING MACHINES.

GROVER & BAKER'S

SEWING MACHINES,

Were awarded the Highest Premiums at the State
 Fairs of

New York,	Kentucky,	Vermont,
Tennessee,	New Jersey,	Missouri,
Pennsylvania,	Alabama,	Ohio,
Mississippi,	Indiana,	Virginia,
Michigan,	North Carolina,	Wisconsin,
California,	Iowa,	Oregon.

AT THE FAIRS OF THE

American Institute, Franklin Institute, Mary-
 land Institute, Mass. Mechanics' Associa-
 tion, Penn. Mechanics' Institute, St.
 Louis Agricultural and Me-
 chanics' Association,

AND at numerous Institutes and County Fairs
 including all the Fairs at which they were exhib-
 ited the past three years. First Prizes have also
 been awarded them at the exhibitions of
LONDON, PARIS, DUBLIN, LINZ,
 Vienna, Florence, St. Dimer, Calcutta, and they
 have been furnished, by special command, to the
 Empress of France, Empress of Austria, Empress
 of Russia, Empress of Brazil, Queen of Spain, and
 Queen of Bavaria.

THE GROVER & BAKER

ELASTIC-STITCH

SEWING MACHINES

are superior to all others for the following reasons:-

1. They sew with two threads direct from the spools, and requiring no rewinding.
2. They are more easily understood and used, and less liable to derangement than other machines.
3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.
4. The stitch made by these machines is much more firm, elastic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.
5. This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out.
6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, nor ravel, but remain firm and durable.
7. Unlike other machines, these fasten both ends of the seam by their own operation.
8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.
9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practised, execute the most beautiful and permanent embroidery and ornamental work.

In addition to their family machines they have also the

IMPROVED DOUBLE LOCK

STITCH MACHINES,

making a stitch alike on both sides. This Com-
 pany make both the Lock and Double stitch Ma-
 chines, so that persons having a preference can
 select such as they like best, and if not suited can
 exchange for the other, thus giving the public the
 advantage of this arrangement. They also make

NO. 1 LOCK STITCH MACHINES

an advance upon all machines heretofore known
 for sewing with the Lock-Stitch. It is of great
 power and strength, especially adapted for tailors,
 shoemakers, harness-makers, carriage-trimmers,
 and for all descriptions of work to which the
 lock-stitch is applicable. It works with equal
 facility silk, cotton, or linen thread, and will sew
 the finest muslin as well as the thickest leather.
 Price \$20; with Hemmers, \$25. Their No. 2 is

A LIGHT RUNNING MACHINE,

containing many improvements, adapted for la-
 boring, vest-making, light shoemaking, as well as
 for family sewing. Large numbers of these ma-
 chines are in use, and they give universal satis-
 faction. None who have seen this machine will
 willingly use the noisy and cumbersome lock-stitch
 machines heretofore in general use. Price \$5;
 with Hemmers, \$8.

These machines of every description can be had
 at the agent's office in Bloomsburg, at positively
 the manufacturer's prices, to which the attention
 of the public is especially invited.
