

DR. LIVINGSTONE is now known to have been alive and well in Middle Africa, in April last.

THE cost of registration in Virginia was \$239,000. The cost of the military establishment in the State for the last ten months was \$5,000,000.

DURING the year 1867, the Democracy have gained three hundred and forty-three thousand votes! That will do for the present.

THERE is \$1,500,000 in the treasury of Missouri unappropriated. The Radical leaders want an extra session of the Legislature to remove this impediment.

DOESN'T it look like humbug that in every State where they control through a ballot, the Radicals repudiate the negro? Even in Kansas, settled by New Englanders, the vote for woman exceed that for negro suffrage.

REV. THOS. P. HUNT, long and favorably known as a lecturer, will deliver "Temperance Addresses" at the following times and places: At Catawissa, on the evenings of December 21 and 31, at Espy the 5th, and Berwick the 6th.

ALL the members of the Court martial which tried Santa Anna, have been sentenced to six months imprisonment for the mildness of their verdict; thus showing that the Mexicans are not to be outdone in acts of savage mercilessness by the Radicals of this Country.

The Columbia County Temperance Society will hold its third session in the M. E. Church at Espy on Thursday evening December 5th. Churches and Temperance organizations are expected to send delegates. Speakers from a distance are expected.

L. B. KLINE, Sec'y. The Supreme Court, in banc at Pittsburg, has given a decision that the running of horse passenger cars on Sunday is a work of necessity, and not forbidden by existing laws of the State. The decision was pronounced by Judge Read, Justices Strong and Agnew dissenting.

THE Population of Washington, D. C., is, whites, 73,025; negroes, 32,742, and of Georgetown, whites, 8,482, negroes, 3,210. Notwithstanding this, the negroes, controlled by a few mean whites from other States, control the elections in both places. This is what the Radicals call a "republican form of government."

THERE seems to be no doubt from accounts, but that in some parts of the South, especially in Mississippi, the negroes are relapsing into barbarism, and have already ignored the Christian religion; Fetichism or Obi worship of Congo, taking its place. What evils may we not expect? Oh, the blessings of Radicalism.

THE recent counterfeit 7-30 Bonds of which so much has been heard, were printed, it would seem, from electrotype taken from the originals in the Treasury Department. Anybody can make Bonds when the original plates are loaned or stolen. About \$180,000 were issued of this spurious currency, and as nearly as can be ascertained, all bear date between the 13th and 20th of September, 1867.

THIS Radical organ over the way professes indignation that the Democrats propose to re-district Ohio so as to give members of Congress in proportion to their voting population, and suggests that Congress defeat this design. Herefore each State has made the apportionment to suit itself; and it is a sign of desperation when the Radicals propose to take this power from them.

What right have they to complain of "gerrymandering"? Although we have a majority in the State yet they have so apportioned it as to carry 18 out of the 24 Congressmen, and a large majority in the Legislature. We carry Philadelphia this year by 4,000 majority yet the Radicals have 11 out of 15 members to the Legislature. We warn the Radical party that this game of disfranchisement is one that two can play at, and they have no right to complain as they initiated the practice.

LOCAL NOTICES. The Overseers of Scott Township, wish to bind out until the age of 21 years a bright intelligent boy aged nine years, the son of Henry Johnson deceased.

A TRUCK BALSAM.—Dr. Wistar's Balsam of Wild Cherry is truly a balsam. It contains the balsamic principle of the Wild cherry, the balsamic properties of tar and of pine. Its ingredients are all balsamic. Coughs, colds, sore throats, bronchitis, and consumption speedily disappears under its balsamic influence.

Do you want boots or shoes which will wear well? If so, go to the Keystone store of D. A. Beckley. You will find there everything of the kind you desire and of the best quality. His stock of goods is not excelled by any in stationary. Books and daily papers. Give him a call.

A WELL-fitting suit will last twice as long as one badly made. You can get clothes to fit you like a glove at our friend Chemerlin's, and will save money by wearing a first class article. His winter stock is now complete and challenges competition. He has also underclothes and gentlemen's furnishing goods of the latest and best varieties.

EMINENT men of Science have discovered that electricity and magnetism are developed in the system from the iron in the blood. This accounts for a debility, low spirits and lack of energy a protracted Iron, supplies the blood with its iron element and in the only form in which it is possible for it to enter the circulation.

HOLIDAY GOODS—GIFTS.—Call on L. N. Moyer's collection, if you wish to see a really fine drug of fancy articles suitable for Christmas and New Year presents. He has almost anything you desire in the way of Fancy Goods, Toilet articles, Perfumery, Soap, &c., in addition to his unapproachable stock of Drugs, Paints, Oil & Chemicals. Just stop in and see him if you have any doubts, and he can convince you.

PUBLIC SALES.

SALE OF VALUABLE REAL ESTATE. WILLIAM MORRIS, Auctioneer. BLOOMSBURG, FRIDAY, NOV. 26, 1867. EDAS RYSSEY of Orangeville has sold his Mill property to David Harrington for \$7,000.

THE crowd of important matters has caused the delay in printing the communication of our Centralia correspondent. His turn will soon come.

RATHER COOL.—The Wavesley Magazine in its last issue steals bodily a piece of poetry written for and published in THE COLUMBIAN several weeks ago by our fair correspondent Marian Ross. Next the New York Ledger will get to stealing our Kaleidoscope!

THE Millville agent, the inheritor of Billy Brown's secret, is advertising for a wife. Of course he has selected the Republican House as his infamous slant, the reputation of its editor for gollantry, exhibited by letters yet in existence. We think the *secret* and *catagor* doctor would make a good team together and would suggest a co-partnership.

CONRAD SMITH of Orangeville was so unfortunate as to receive a severe kick from a horse, on Sunday morning last. He was injured entirely insensibly, with his forehead and nose apparently crushed by the blow, but we are glad to learn that with the exception of the breaking of the bridge of his nose, and of the bone over his left eye, the injury is not serious. Dr. McGeorge has the case in charge.

THE Republican is distressed about the Democratic Pole Raising at the Hospital House this infamous slant, and can best be resented by an increased majority at the polls next year for our candidates. His assertion that the speakers were "two lawyers of THE COLUMBIAN," shows that Palemon deliberately and knowingly stated what was false, as Col. Freeze was not there. His vulgar wit at the expense of truth, may be *apicy*, but its principal effect will be to give the Democracy the remaining two townships in this county which have stuck to the Radicals, and to the dead weight of an obscene editor.

MORE LIGHT.—Our town news lighting now more than any thing else. When the moon does not shine, and especially after night fall, and of course a stranger could not get along at all. If a company were to erect gas works here, it would be a grand thing to do. Our town already contains about 2,000 inhabitants and is rapidly improving. Not only would it prove beneficial on our streets, but gas light would be much better in our houses, furnishing a better light, less trouble, and cleaner. Look Haven, Danville, and all our neighboring towns have it. In Doylestown, which has only 1600 people, we are informed that it pays the company, and of course it would be far more remunerative here, and as the town grows the value of stock would increase.

PROF CHARLES W. WALKER of Millville, advertises in the *Republican* for a wife. He says: "An excellent single lady who will make him an excellent wife, is earnestly invited to correspond, or call and converse with him, with reference to marriage. To receive attention, a genuine Photograph of the lady must be enclosed."

Here is a rare chance for the ladies, especially for those of the radical persuasion, for being himself a radical, and advertising only in a radical paper, few Democratic ladies are left out in the cold.

Though he does not expressly say so, we think it clear enough that widows are embraced in this word single, and thus the contest is open to all who think they will make him an excellent wife; old and young, big or little, fat or lean, ugly or otherwise. We expect to see a great rush for Millville, to find out whether the Professor is likely to make an excellent husband.

THE Teacher's Institute of this County met in the hall of the Bloomsburg Institute on last Monday, in pursuance of a call of the County Superintendent. Last Winter the Legislature passed an act intended to foster such gatherings by providing means for the payment of class instructors, &c., but it was fatally defective in not making the attendance of teachers compulsory.

The attendance is very small, and there is not near the numbers and enthusiasm that attended these gatherings several years ago. Our local teachers and the Superintendent have done all they can to make the meeting instructive and interesting, but as a rule, require new men from abroad—men of reputation—in order to draw and attract the whole body of teachers. The real live teacher may not need such inducements, but the fact is, men of that stamp soon slide into occupations that prove far more remunerative.

We presume the Secretary will furnish us with a minute of the proceedings, which we will spread before our readers next week.

WE give on our first page the address of Mr. Buckalew at the Assembly Buildings, Philadelphia, on the 19th ult. The daily papers speak of it very highly. The *Press* says: "Senator Buckalew, of Pennsylvania, delivered, in the Assembly Buildings, his well known address on the representation of minorities, being a plea for cumulative voting. The question, which has been so engaging the leading minds of England, has recently been presented to this country by Mr. Buckalew through another channel. Indeed, he may be distinctively known as the American advocate. A purely philosophical inquiry—a matter of statesmanship and not of politics—it challenges the attention of every thoughtful citizen.

The distinguished Senator who has taken the proposition under his wing, elaborates the argument in its behalf with much force and power, and delineates graphically the various and intensely the inconveniences and hardships of the majority rule. Doubtless his workings have been maturely reflected upon by the entire Democratic party during the last six years. When Senators thus leave the Senate Chamber for the Lyceum it is a poignant illustration of the inherent democracy which underlies the whole system of our government.

DRY GOODS, GROCERIES, QUEENSWARE, NOTIONS, &c. are constantly on hand and for sale at BARTON'S OLD STAND, BLOOMSBURG, BY JAMES K. EYER, Sole Agent for ELLIS' PROPRIETARY. See Large list constantly on hand. Sold by
