Many readers and believers in radical papers, are doubtless disgusted with the conductof Judge Chase for not going on with the trial of Mr. Davis, whom they were taught to regard as guilty of treason, and all the erimes imaginable.

The truth is, Chase dont want to try and all the crimes imaginable.

CONGRESSIONAL SUMMARY.

Dgc. 5.—In the Senate yesterday considerable debate was elicited by the introduction by Mr. Drake of a joint resolution declaring that the President had, in his Message, transcended his Constitutional prerogatives by declaring that the Reconstruction Acts passed by Congress were unconstitutional; that the use of such language by him was calculated to incite resistance to the laws; that the official denunciation by the President, of the laws passed by Congress in the absence of a judicial decision to in the absence of a Judicial decision to sustain his position, is a departure from official propriety and a breach of official oblingtion calling for the distinct reprehension of both Houses of Congress. After debate, participated in by Messrs Sumner and Anthony in favor of it, and Buckalew and Dixon opposed, the resolution was laid on the table and ordered printed. Mr. Edmund's bill pledging payment of the Government indebtedness in coin was debated at length, but without coming to a vote.

In the House a resolution was offered declaring that all American citizens, whether native or naturalized are enti-

At last election Williams received a majority of 1,29—a Democratic gain of 3,759.

Pitter NG, December 10.—In the municipal election here to-day unusual interest was manifested. The Democratic candidates for Mayor, Treasurer, Controller, and City Attorney, were elected by large ins jorities, approximating to 3,000, over the Radical nominees. The result is unprecedented and causes great excitogrand. Dec. 6th—In the Senate yesterday a resolution was adopted requiring the Secretary of War to furnish the number of colored and white voters in the South who had registered their names, the number of those who were incapacited from voting, and the number of inted from voting, and the number of these who failed to apply for registra-tion. Mr. Sumner's proposition to strike out the clause in the resolution providing for the printing of extra copies of the President's Message, was lost by a vote of 9 to 30, and the Message ordered printed. Mr. Sumner then called up his bill, passed at the late session, but not

signed by the President, giving further security to the black race in the District of Columbia, passed finally by a vote of Committee on Ways and Means, repor-ted a bill repealing the authority of the Secretary of the Treasury to make any reduction in the currency by retiring or cancelling United States notes. After cancelling United States notes. After his purpose to preserve this condition of things. As a means to this great end he regards the maintenance of the civil authorities in the faithful execution of the law, as the most efficient under existing circumstances. In war it is indispensable to repel force by force, and overthrow and destroy opposition to lawful authority; but when insurrectionary force has been overthrown and peace established, and the civil authorities are ready and willing to perform their duties, the military powers should cease to lead and the civil administration resume its natural and rightful dominion. Solemnly impressed with these views, the General announces that the great principles of American liberty still are the lawful inheritance of this people, and ever should be. The right of trial by jury, the helper corpus, the liberty of the Press, the freedom of speech, and the natural rights of persons and the rights of property must be preserved.
