Henry for public documents. On last Sabbath the rite of baptism was administered at the Fishingereek to nine young converts, by the Rev. J. P. Tustin, in the presence of an unusually large concourse of people.

LAST Saturday morning was unusually cold, the thermometer at 7 o'clock standing at ten degrees below Zero This is the second time this winter, that the mercury has reached so low a point.

THE morning mail from Harrisburg, misses the connection so often at Northumberland, that no dependence can be placed on it. We do not anow where the fault is, but it is a serious one, and should be remedied.

THE North Branch Conference of the Susquehanna (Lutheran) Synod will meet in Bloomsburg on Monday February 10th 1868.

Reformation Jubilec meeting on Monday evening. The public are invited to attend.

THE length of Mr. Buckalew's last great speech on Reconstruction, prevents us from publishing it in our columus, but a pamphlet copy will be it in that shape.

WE have been informed that on last Friday, a man named Mills, was working in the quarry at Lower Lime Ridge and while recharging a hole for a second blast, the powder caught fire (it is supposed from a piece of fuse left in) and he was terribly burned. His clothes were at once torn from him, but it is believed he cannot live.

THE Northumberland County Democrat comes to us in a new dress, and promises enlargement at the close of the present volume. The "Sentinel" we understand has become merged into This is a move in the proper direction, and we have no doubt the people of Northumberland County will give increased support sufficient to warrant this outlay.

On last Friday and Saturday our town was electrified by the presence of a sled-load of Hazletonians, At first we supposed them to be a detatehmen of "Sherman's bummers," as we heard considerable about their "Marching through Georgia." Subsequently we heard the refrain "We wont go home 'till morning," and then concluded it was a star troupe of musicians reviving the scene of former triumphs.

JUDGE ELWELL in his charge to the jury, inveighed in strong terms against the lottery speculations of the day stating that however charitable or pious their intentions, they were a species of gambling, generally swindles, and took immense sums of money from the pockets of those who could ill afford to spare them. His remarks were timely and judicious, and as for us, we have resolved never hereafter to insert advertisements for anything of the sort.

WE are requested by Capt, John R. Yohe of Mifflin township to state that the rumor that Amandus Seybert came to his house on Monday evening, Jan. 27, and was harbored by him dering the night and next day, is untrue. He came to his house in the evening, and remained for a short time, and then the fact that the season is at least a es. arms, and did not feel able to arrest him alone, as he knew him to be a desperate man, and that he had no one in the house able to assist him. He further states that he will pay a liberal reward for the discovery of the author of this

WE call attention to the able speech first page this week, and urge most earnestly, that its length may not prevent its being read from beginning to ting power to her. But nothing can be end. It is a manly straight-forward and earnest exposition of the present situation, and a fair and impartial consideration of the reconstruction schemes of Congress. Mr. Doolittle uses no figures of rhetoric to disguise the deformities and imperfections of the present system of legislation; and whilst entreating the Senate not to pursue the destructive policy of Africanizing the Southern States, he points to the recent action of the Northern and Western States, as indications of the storm of indignation which will burst over the country, if Congress fail to take warning, or refuses to abandon its revolutionary course.

WE had the pleasure of hearing Fathor Hunt on temperance in the Methodist Church on last Friday evening, He commenced his lecture by defining his political status and avowed himself a Federalist of the old John Adams stripe. or in other words an advocate of the alien and sedition lines, and of course votes the Radical Republican ticket. He handled the subject with considerable ability and well be might, as he has ridden this hobby until he has galled its back.

We will do him justice by saying that so long as he adhered to the legitimate and straightforward business of temperance he did well-talks easily and fluently-tells old stories with good effeet, and makes good points; but when he launched his political bark on the ocean of politics, he unfortunately forgets his compass and finds himself very much in the fix of the old Sea Captain who attempted to command the schooner "Sally Ann," but found her more than a match for him.

His story of "Pat voting fornints the government" was good, but his twaddle about we the sovereign people was bosh. His assertion that "when we see Victo ria we see the British Government, and when we see the Emperor of Russia we see the Russian Government," may be true, but his assertion that "when we see the President and Cabinet we do not see the Government," was still truer. But had he said that when we se the Rump Congress, we see the would-be Government of the United States, he would have hit the nail on the head.

His attack upon one of the leading members of the Methodist Church, and one of our most prominent and respectable citizens was uncalled for, and ungentlemantly and showed a want of that which is more desirable in a gentleman than temperance.

No medicine ever appeared with stronger vouchers for its general and substantial excellence than the Peruvian Syrup. Invalids, especially those suffering from dyspepsia or debility, which is more desirable in a gentleman than temperance.

His field of laor has been near Petersburg, some 22 miles south of Richmond. He bas, he eys, produced 2,343 pounds to the acre,

which he sold at 50 cents per pound. This, he adds, was under peculiarly favorable circumstances, and it would be unsafe to calculate beyond 1,200 or years. But even at the lowest figure, ay 1,200 pounds per acre, it would bring a return, at 47 cents, the average price for the past six years, of \$561 per acre-or over \$28,000 for fifty acres so planted! As yet, the great influx of emigration has been confined to the fabled valley of the Shenandoah; but we can assure speculators and settlers that just as rich lands may be found along the valley of the James, and about Norfolk, and at i much lower prices and nearer to the world's great markets. Near Petersburg, for instance, where the experiment of hop-raising, referred to, took place, land may be bought (good, clay sub-soil) at \$10 to \$15 per acre. This too, bordering an excellent, straight and level pike road, within a mile or so of Petersburg, which city is connected by ailread and boat with City Point and Norfolk; is the through point of the Great Northern & Southern route, which connects it alike with New York and New Orleans; is the terminus of the South-Side road, which pours out the mountain wealth of the "blue grass" region, and all the immense tobacco wealth of the Piedmont and Lynchburg section, right at its doors.
