farmer's Department.

The Fruit Season.

THE late Spring has created fear in the minds of many for the safety of the fruit crop. Doubts and apprehensions are man had heard all they said, and as expressed on every hand, and no won- soon as they were gone he climbed to der, as rich and poor are alike concernthat sit there a short time, a cloud came fruits enter more largely into use as a staple of food, and its beneficial effect upon the general health is already felt some time, till it settled in a garden, and highly commended by medical and he fell quite gently to the ground,

nen. At this date we may safely say that Then Master Peter got up and scratchthe prospect for a generous crop of good ed his head, and looked around him, fruit has not been better for and said, "I wish I had something to healthy years. The backward Spring, on the eat; if I have not I shall be worse off whole, has been an advantage; the than before; for here I see neither apswelling of the tender buds, so easily ples nor pears, nor any kind of fruits; nipped when once hope has been re- nothing but vegetables." At last he pressed, and the full blossom is two or thought to himself, "I can eat salad, it three weeks later than usual. This se-cures a nuch greater probability of safe-he picked out a fine head of some plant ty than usual, when once the blossoms that he took for a salad, and ate of it are fully developed. The trees have but searcely had he swallowed two bites, not suffered from last winter's cold, as the abundant covering of blossoms now beautifying the face of the country fully to an ass. However, he still felt very shows, and only a cold shap can endan-ger the prospects now. Gages, Nectarines and Damsons, the

Dankey-wort.

most delicious of plums, have not of the first; but it really was quite differlate years been cultivated with a high ent, for he had scarcely tasted it when degree of success, owing to the ravages of the *curculio*, an insect which attacks and soon saw that he was lucky enough these and other fruit trees. As soon as to have found his old shape, and to have

the fruit is formed this insect cuts a become Peter again. circular or half-moon shaped orifice in Then he laid himself down and slept it and deposits its egg. From this egg off a little of his weariness ; and whe is hatched a worm which cats its way he awoke the next morning he broke to the heart of the fruit which dies and off a head of each sort of salad, and falls off. We are glad to be able to sug-thought to himself, "This will help me gest an easy and simple remedy, and this being just the season for this ap-plication, we hope our readers and friends will employ it. friends will employ it. Let the ground about the tree be thor-

oughly cleansed, or better, place a sheat Then he stained his face all over brown or newspaper under the tree, and give so that even his mother would not have it a sudden jar. The curculio will fall known him, and went into the castle on the ground or sheet and can easily and asked for a todging; "I am so be destroyed. If this process is contin-ued once every morning, for two or three weeks, the tree will bear as many durns every 2 and what is your busiplums as it can hold. Another remedy which has been successfully applied is ger sent by the king to find the finest to bandage the tree with wool or cot- salad that grows under the sun. I have ton about a foot from the ground, then ignite a whisp of musty hay and hold it so that the wind will drive the smoke sun is so scorehing that it begins to through the branches. The curculio wither, and I don't know that I can will fall to the ground, or, if crawling carry it any further."

down the tree, will become entangled When the fairy and the young lady in the wool or cotton and may thus be killed. This insect rarely flies, and if cd to taste it, and said, "Dear countrythe above remedies are adopted you man, let us just taste it !" "To be sure! answered he; "I have two heads of it with me, and I will give you one;" so may becaure your trees will bear.

Haymaking.

he opened his bag and gave them the THERE is annually so much good bad sort. Then the fairy herself took grass mercilessly manslaughtered in it into the kitchen to be dressed; and making it into hay, that it becomes the when it was ready she could not wait duty of every publisher, editor and ag- till it was carried up, but took a few ricultural writer in the land, happen- leaves immediately, and put them in ing to have a better practical knowledge her mouth: but scarcely were they of hay making, to begin, with the hay swallowed when she lost her own form, season, preaching as earnestly as they and ran braying down into the court in can, at every opportunity, better prin- the form of an ass. Now the servantciples, until a radical reform in much maid came into the kitchen, and seeing of our haymaking practice shall have the salad ready, was going to carry 1 been achieved. As clover usually up; but on the way she, too, felt a wish comes first in the routine of haying, to taste it, as the old woman has done and the season for putting mowers afield and ate some leaves, so she also wa is close at hand, let us bear in mind that the best standing condition of clov-other letting the dish with the salad er is when the plant itself is fully de- fall on the ground.

veloped, and the heads in full but early Peter had been sitting all this time bloom, before any considerable propor-tion of them have assumed the slight-nobody came with the salad, and she est tinge of brown. Then instead of be- longed to taste it, she said, "I don't ing roasted, broiled and baked, in the know where the salad can be." Then scorching sun until it is as black as Ja- he thought something must have happan tea, as is too frequently the case pened, and said, "I will go into the with clover hay, the best plan is to cut kitchen and see." And as he went he after the dew is off in the morning, cure saw two asses in the court running

DRUGS & MEDICINES. for the young folks. CONCLUMINT. THEN they passed on. But the hunts-HOOFLAND'S the top of the mountain ; and when he GERMAN BITTERS.
