#### 1840-1868.

THERE are many good people in this munty, who remember the contest between Harrison and Van Buren in 1840. The Democrats had been in power since 1829, and as a matter of course,

Whig orators, and the Whig press, were loud in demanding a change. Business was prostrated, for the country had not recovered from commercial revulsion of 1807. The currency was deranged: and above all the cry of a standing army was raised against Mr. Van Buren, rectuse his Secretary of War, Mr. Poinwtt, had recommended the organization of an army of five hundred thousand to be simply in readiness for any emergency, but in other respects to be unemployed, and at no other expense to the Government.

to shake the faith of thousands of Democrats, and they abandoned our party, and Harrison of course was elected. We recall this scrap of history, for the purpose of inquiring of the Whigs of 1840, whether there is not a thousand time greater cause for change now,than there was at that time, and whether it is not their duty to vote for Seymour. ical reconstruction:

Savannah, September 3.—A white boy who mysteriously disappeared, has been found murdered by negroes near the city. His gun and clothing were gone, and it is supposed he was killed for them. An inquest was held, and a verdict rendered that he was killed by some persons unknown. There is much excitement in the city, and parties have been out three days hunting the body. They met armed bodies of negroes, who halted them with precision. Parties are now out scouring the country in search of the murderers.

Robberies and assaults on white people, by negroes, on the roads leading to this city, are of hourly occurrence.

The negroes in and around this city are thoroughly organized, drilled, and well armed.

as the negro, and it will be done. They cannot buy our iron, cotton and woolen manufactures as long as we persist in keeping them poor. Put them to work to develop their resources, and allow them to aid in governing themselves, and we will relieve ourselves from a grievous burthen.

The Radicals have put the negro above the white man, and ought to be turned The exemption of bonds from taxa

The Radicals made this system, and defend it, and they ought to be turned

A greenback dollar is now worth about sixty-eight cents in gold. There are sixteen hundred millions of 5-20 bonds, which the bondholders want paid in gold, but which the law promised to pay in greenbacks. We now pay them one hundred and thirty millions In gold interest every year, we find this a grievous load. The debt bearing gold interest has increased sixty-seven and a half millions in the last two months. This has added four millions to our burthens. If the principal of the 5-20s be paid in gold, it will add eight hundred millions of dollars to the value of the claim they make, and this terrible debt will crush the energies of the people. They paid greenbacks for the bonds at fifty cents on the dollar, and the contract was they were to take the

The Radicals refuse to do this and ought to be lurned out. The debt must be paid, but we must commence to pay it now or it will never be paid; the people in power have earned to be extravagant, and cannot quit it if they wished to; a change can make it no worse; a change will reduce taxation and ensure the payment of the debt.

Let us go for a change and turn the Radicals out.

been compiled by Mr. Manker, Washington, D. C. THERE is heartrending news from South America. Thirty two thousand persons were swept out of existence in Peru and Ecquador on the 13th of August by an earthquake, and thirty thousand rendered homeless by the same terrible calamity. Cities were either submerged by a tidal wave, which rose to the unparlieled height of forty feet, or swallowed by openings in the earth. In one case a vast lake of unknown depth occupies the spot where a town recently stood. The loss of property is estimated at three hundred millions of dollars, while in many localities so numerous were the dead bodies that the survivors were forced to fly from the neigheorhood to avoid a pestilence. Misery, dismay, and suffering reign supreme in all the smitten region.

YEARS ago it was very common to hear some of the gentlemen of this county, now acting with the Radicals, declaim earnestly against the folly and wickedness of always "sticking to party"-in fact we remember the day when hey claimed to be the peoples party, the no party party.

How is it now? Can it be that these ame respectable and worthy citizens, have become so blind as not to see that it is high time to apply the "no party" doctrine to themselves

ical theory. "Let us have peace." THE Radical party was born, raised, and kept alive, on the principle of hate lowance, though only entitled to those towards the people of the South. Even now after having involved the country in a war, costing millions of lives, and thousands of millions of money, they are not content. It is a party of malignity, cruelty, and intolerance, and "go to hell with a loyal negro than to wholly unfit to rule a free country.

How long will the people tolerate, approve, and sanction a party so utterly corrupt and wicked?

SEVENTY millions of debt was all that appeared upon the books of the nation when the Democrats went out of power. From 1861 to 1865, four years of war, the Radicals increased this debt to 2,000,000,000. From 1865 to 1868, three years of peace, they added 900,000,000, and after three years of peace, making up with four years of war, seven years of Radical supremacy, the country is more two thousand millions of dollars worse off than we were in 1860,

General Mead immediately telegraphed to General Grant that it had been rejected, and advised the framing of a more liberal one. But the rejected constitution was forced on the unwilling people. Let us have peace!

It is a matter of small moment whether General Grant is a good soldier or a poor one. This is not the question the people desire to have answered just now. The popular query is, "What is his polley? What course will be pursue if elected ?" To this query the General gives the emphatic reply in his letter of acceptance, "I will have no policy of my own." Two leading Radical officials, now in

cause, under Radical legislation, the President cannot remove an appointee without the consent of the Senate, and the Senate has not consented to the removal of these choice spirits.
