We think it pays to cut corn-fodder with the hay-cutter before feeding out. It is more completely eaten up, while con in the tray, a lean pup hankers afthe convenience resulting from it in handling the manure is very considerable. Corn-fodder seasonably harvested and properly stored is of great value for feeding through the winter .- Mars. P.oughman.

Lange farm seems to be attracting gether. the attention of Agriculturists. Two wealthy enterprising gentlemen of Harrison County, Ohio, have purchased win your affections, I shall be as happy a township six miles square in Nebraska as a wood-pecker in a cherry tree, or a of government land, and propose to convert the whole into one grand farm of 23,040 acres. They intend to inclose it with a hedge of the osage orange, twenty-four miles in extent, and will put up cross hedges 12 miles in length. They will hire all their labor and the most improved agricultural machinery, intending to put the whole farm into wheat, as fast as possible. It will require about 20,000 bushels for the seed of such a farm. A colony is also being formed in Chicago under Mr. Amos Duffield, for the purchase of another township, in Nebraska for the same purposes. Eastern Florida is also being laid out in large farms, for the purpose of cultivating fruits and early vegeta-State, is but four days from New York by steamer, and less by railroad. It is if they can help it. Corns have kernel \$20 per thousand, as it hangs on the tree. The settlers at the extreme south-

THE Minnesota Agricultural Society has asked the ald of the Agricultural Department at Washington in procurappears that the yield rapidly diminishes under their system of continuous cropping from twenty-five or thirty sult is attributed to a "degeneracy in an exhaustion of fertility in the soil, dodger. The way it is very simple, and and it is thought that if new, good seed it is as follows (that is if you want to of suitable varieties could be introduced, the State would be benefitted to the extent of several millions of dollars yearly. The variety now relied upon for the main crop is the Fife, and has been used for many years. The Canada Club was formerly cultivated, but has now entirely disappeard. The Commissioner in his reply recognizes the importance of the subject, and promises to make special efforts to procure new varieties of spring and winter wheat.

IT is said that chestnuts and hickory nuts will be plenty this fall.

for the young folks.

WE have read love letters heretofore and, maybap, have written one or two; but for sublimity we never saw anything to compare with the following

"MY DEAR SALLY:-Every time 1 think of you my heart flops up and thrill tho' it like spanish needles through a pair of tow linen trowsers. lift myself by my boot straps to the top Allen, in his "American Farm Book" of a church steeple. Day and night says: "The stalks of corn ought never to be cut above the ear, but always near blushing like a bride, rises from her safthe ground, and for this obvious reason: from couch; when the jay-bird pipes the sap which nourishes the grain is his tuneful lay in the apple tree by the drawn from the earth, and passing spring house; when the chanticleer's through the stem enters the leaf, where shrill clarion hearlds the coming morn; a change is effected, analogous to what when the awakened pig ariseth from takes place in the blood, when brought his bed and grunteth and goeth for his to the surface of the lungs in the ani- morning refreshments; when the drowsy beetle wheels his drowning flight at ference, however, that while the blood sultry noon-tide, and when the lowing cows come home at milking time, I plants, under the influence of light and think of thee: and like a piece of gum heat, give out oxygen and absorb car- elastic my heart seems to stretch clean

bon. This change prepares the sap for across my bosom. Your hair is like the mane of a sorrel horse powdered with grain. But the leaves which thus di- gold; and the brass pins skewered gest the food for the grain are above it, through your waterfall fill me with unbounded awe. Your forehead is smoother than the elbow of an old coat, and cipally takes place. If the stalks be whiter than seventeen hundred linen. cut above the ear nourishment is at an Your eyes are glorious to behold. In end. It may then become firm and dry their liquid depths I see legions of little but it will not increase in quantity, Cupids battling and fighting like co-while, if cut near the root, it not only appropriate the sap already in the plant. When their fire hit me full on my manbut it also absorbs additional matter ly breast, it permeated my entire anatofrom the atmosphere, which contributes my, like as a load of bird shot would o its weight and protection."

Nectar lingers on your lips like but so far as we know they all tend to honey on a bear's paw, and myriads of the same results, that is, a gain from unfledged kisses are there ready to fly five to ten bushels to the acre, gained out and light somewhere like young over topping. Mr. Clark, of Northamp- Your laugh rings on my ears like the windharp's strains, or the bleat of a stray lamb on the hillside. The dimtopped corn lost from six to eight bush-els of grain by the process, while the beds of roses, or like hollo ws in cakes

I am dying to fly to your presence and pour out the burning eloquence of careful to secure to whole of the stover my love, as thrifty housewives pour out the hot coffee. Away from you, I am melancholy as a sick cat. Uncouth of a valuable feeding substance, as much so as if they should attempt to secure ble at my spirits, and my soul is piereed through with doubts as an old cheese is bored with skippers.

My love for you is stronger than the bor in husking corn cut and stooked in smell of old butter, Switzer cheese, or this way. But that is, after all, a small a kick of a mule; it is purer than the objection compared with the advanta- breath of a young cow, and more unselfish than the kitten's first caterwaul As the song bird hungers for the light of day, the cautious mouse for fresh bater new milk, so I long for thee.

You are fairer than a speckled pullet; sweeter than a Yankee doughnut fried In sorghum molasses; brighter than the top-knot plumage on the head of a museovy duck. You are candy kisses, pound cake, and sweetened toddy alto

and in coming years when the shadows grow long from the hills, and the philanthropic frog sings his evening hymn, you, happy in another's love, can come and drop a tear, and toss a clod upon the last resting-place of-

A School Boy's Composition Corn are of two kinds. Vegetable and animal. Vegetable corn grows in rows and animal corn on toes. There is a unicorn, capricorn, corn-dodgers, field corn, and toe corn, which is th bles for the Northern markets. Jack- corn you feel the most. It is said, I besonville, the chief shipping port of the lieve that gophers like corn; but perestimated that fifty thousand young or- and some colonels corns. Vegetable ange and lemon trees have been set corn grows on cars, but animal corn since the war, and that ten thousands are now in bearing, in the northern part of the State, the fruit selling at \$15 to acorn; these grow on cake, but there, is a hoax about the corn. The acorn is a corn with an indefinite article, indeed. ern part of the State are chiefly engaged in the manufacture of tapioca, which has a corn wishes it was an acorn. Folks root, as well as all other tropical plants, that have corns sometimes send for a Doctor himself is corned, he would probably do so well as if he isn't. The doctors say corn are produced by tight boots or shoes, which is probably the reason why when a man is tight they say he is corned. If a farmer manages ing new varieties of spring wheat. It well he can get a good deal of corn on one acm, but I know a farmer that has one corn that makes the biggest acher on his farm. The biggest crop of vegebushels on new land to twenty, fifteen, table corn a man raises the better he and even ten bushels per acre. The recorn he raises the better he does not the vitality of the seed," rather than to like it. Another kiel of corn is cornknow): You go along a street and meet a man you know has corns, and as is a rough character, then you step on the toe you know has the corn on it, and see if you don't have occasion to dodge. In that way you will find out what corn-dodger is.

> A TEACHER said to a little girl at school: "If a naughty girl should hurt you,like a good girl, you would forgive her wouldn't you?"
> "Yes, ma'am,', she replied, "if I couldn't catch her!"

VEGETABLE AMBROSIA IS THE MIRAGLE OF THE AGE!

Gray-Headed People have their locks restored by it to the dark, bostone, either tresses of youth, and are bujuy!
Young People, with light, facted over Hair, have these unfashionable colors changed to a beautiful auburn, and rejoice! People whose heads are covered with Datalenff and Howers, use it, and have clean coats and clear and healthy scales? Buld-Hended Veterins have their remaining locks tightened, and the bare spots covered with a luxuriant growth of Hair, and dance for joy!

Young Gentlemen use it because it is richly perfumed? Young Ladies use it because it keeps their Hair in place? Everybody must and self use it because it is the element and test article in the market:

For Sale by Druggists generally.
