So that a Senator who remains there three years plunders 2 copies of Purdon t ten dollars each, and 2 copies of Zeigler at \$2.00 each. And Purdon can be bought of the publisher at a much ters figure than Berguer charges the The same system obtains in the Hons

where Mr. Berguer provides 103 copies of Purdon and 103 copies of Zeigler at the same annual rates for 100 members. Except that in 1867 there were 112 copin 1898, 105 coplet of Purdon and 110 of elgior for the 100 members. All of the members therefore get two copies o each, and some of them more than two It may be said these are small mat-

THE NEW COINAGE .- It is proposed to withdraw the present one, three and five cent pieces from circulation, and substitute a new and more elegant issue, to be composed of one-quarter five grains respectively. The bill providing for the new coinage will also cent notes in circulation, and the redemption of the nickles from a fund obtained, from the profits arising from colnage, each piece being worth considerably less than its nominal value. The dies are being carefully prepared, and are said to be superior in beauty to any others of like denomination. The twenty-five and fifty cent paper currency will remain in circulation, it being found inexpedient to make coin of such Buckalew. Speaking of the fact it size and weight as would represent those values. Indeed the paper is more convenient for common use than the silver coins formerly current.

PLYMOUTH CHURCH,-At the annual meeting of Plymouth church on Friday evening, one of the female members was voted for to fill the office of deacon, Mr. Beecher said that as soon as three deacons had been elected, he would offer a resolution providing for the election ·of three denconesoes, to assist the deacons in the performance of their duties as visitors of the sick and poor. This course was adopted, and the question was discussed, several members opposing Mr. Beecher, The resolution was adopted by almost a unanimous vote and Mrs. Morrill, Mrs. Fanning and Mrs. Walkelmer were chosen the first deaconesses of Plymouth Church.

For the benefit of our lady readers, we would state that the recent investiulterations practiced and short weight rity is unimpeachable. Let the Radigiven in groceries, liquors, drugs, milk eals match him, and no Democrat will and coal, bet also sewing silk which is soaked in a preparation of lead to give it false weight, and, even after that, the amount sold for one pound, averages but ten or twelve ounces, a swindle of from a quarter to five-eighths of each pound sold, whilst the spool silk is almost invariably short from one-quarter to one fifth in length.

The State of Delaware will, after the of his client; and when one party is a 4th of March next, be represented in witness, and the other party is dead, THE State of Delaware will, after the the Senate of the United States by Jas. A. and Thos. F. Bayard-father and son. No case of the kind has ever before occurred, where two members of a family have represented the same State in the Senate at one time. James A. FOR THE COLUMNIAN. The New County.

UMBIAN of the 22nd inst. Lind a notice f a new county hald before the peode. Your notice is defestive as you will hereafter observe, in several points. I will state briefly, the proceedings up to the present time. On the evening of the 11th of Jan. notice was given to sitizens in and around Benton, that we would held a meeting in the school couse at Benton to take into consideration the propriety of forming a new county out of Lycoming, Columbia, Luzerne and a small part of Sullivan. We met on the eye of the 12th ust, and after proper consideration, favor of a new county. At this recting there was a committee apsointed to give notice that a meeting could be held in Benton on Saturday the 16th inst., in order to obtain a full expression of the people's views. The

committee gave the notice. The morning of the 16th arrived and the sun rose clear, and heaven seemed o smile upon our effort. Between 9 and 10 o'clock reports began to circulate, that Bloom had sent a Lawyer into our midst to demolish the new county. This produced considerable consternation amongst us, as we had no idea what the feeling of the people would be, in the surrounding country; this report was soon succeeded by another that he was here to rent an office. and that an editor from the same locality wanted to start a newspaper.

We replied to this that we did not want editors or lawyers as yet; that the ounty was not struck off by the Legislexuf Furdon and 110 of Zeigler; and lature. By 10 o'clock the sleds and sleighs began coming into Benton, and by two o'clock the school house was filled ; a large number found no seats to ecommodate them.

After due consideration of the subject we took a vote which resulted almost unanimously in favor of a new county; only two votes against. As the location of county seat, Cambra, Columbus Stillwater and Benton are to prominent points. The Commissioners ap pointed by the Governor have the sole power of locating the county seat, The bleets are to improve this back country and create a home market,

We claim that we have to travel an unnecessary distance to Court-we claim we can erect our county buildings and pay for them within five years without much increase of tax, and after that period our taxes will be less than now. Our county will contain over 400 square miles, and over 2,000 voters.

Will Columbia County allow us to secede? Or in other words will the people in the balance of the county sustain us in cutting off a portion of it to form new county? NEW COUNTY. Benton, Jan. 25, '69.

A New County.

SIR: The project of a new county to be erected out of parts of Columbia, Luzerne, Sullivan and Lycoming, hatched in Williamsport for the pur pose of bringing into market some wild lands, is a very ill considered and absurd one. There is not one valid reason in its favor. There are many against it. First, the constitutional objection of territory ; Second, of a vote of the people of Columbia and probably of Lyconing also, more than one-tenth of the population being taken; Third, the expense of inaugurating a new county, and getting it in operation, and lastly the utter lack of any necessity for a new county in the locality proposed.

There are only about half a dozen counties in the State smaller than Columbia. She does not now contain the constitutional number of square miles. No county can be formed with less than four hundred. Can a county have territory taken from ft, leaving it with less than four hundred; or if it have less, can anything be cut from it? Conickle and three-quarters copper, the lumbia count contains only three hunweight to be one and a half, three, and dred and forty square miles, and Sullivan county only four hundred and twenty, according to the Legislative provide for the withdrawal of the ten Hand-book of 1868. Where then is the territory to come from which is to make a new county, which must contain four

hundred square miles? It seems to me, Mr. Editor, that there is a large nigger in that woodpile. GERMANICUS.

SKEDADLED .- A rather decent lookng young man, named Bryson, came along last week, and being a saddler by trade, applied to Mr. Eli Ager of this place and got employment. From all that Mr. A. could see, his jour promised to be in every way desirable-both steady and temperate. About the lat ter part of the week Mr. Ager having occasion to go to Bloomsburg, left the oung man at work and in charge of the shop. Judge of his surprise on his return on Monday last to find his shop closed and Mr. Jour nowhere to be found. On entering he found himself minus a \$15 set of harness which had evidently gone on the same train. A letter which was found in the shop read about this wise: "Mr. Ager-when you receive this I will be in York State where I belong . not unless he should be in prison. Bryson professed to hail from Lewis town, Juniata county, and has probably gone there instead of to York State.
