#### TO OUR PRIENDS.

AFTER much delay in the completion of our new office, it has been finished, have employed an experienced man to rates lower than can be procured in the cities. Our stock of job type is the largest in the country, and we feel asbill and letter heads, envelopes, programmes, etc., on plain or colored painstitutions.

#### Revolutionary Proceedings.

IF anything was needed to convince the people of the Revolutionary tendencies of the Radical party, the count-Ing of the electoral vote on Wednesday of last week should prove the fact. The scene was not only disorderly and disgraceful, but the effort to exclude the electora! votes of Georgia and Louisiana shows to what length a partisan majority can go.

Georgia has been reconstructed and is now represented in the House of Representatives. She is therefore as much entitled to have her electoral vote counted as South Carolina or Massachusetts. If we concede the right of Congress to reject the votes of States by this means they might altogether defeat the will of the people, and by manipulating returns, declare elected a person who did not actually have a majority of the electoral votes.

To add to the indecency of the matter the State of Georgia did not alter the result of the election they might be counted; and if they did alter the result they were not to be counted," as if the political complexion of the State added to or took from its rights. By the same reasoning New Jersey or New York might have been excluded.

We now expect to see the Senate consistent with itself. Having accepted the vote of Georgia, it is an acknowledgment that she is a State and in the Union. If so, she is entitled to representation, and the refusal to admit Senator Hill is an act of gross injustice, and self-stultification on the part of the Senate.

### Tsurpation.

MANY Republicans have clung to that after the election, conservative influences would control it. They cannot a help but have noticed that more and more extreme measures are being adopted day after day. At present they are trying to engraft an article on th : Constitution forcing negro suffrage on all the States regardless of the will of the people. Months ago they stripped the President of all his powers, and the rights of the States have been ignored for years. The Supreme Court is now an object

of attack, and will soon we fear, become a mere machine for registering the de cisions of a partisan majority. To show how steadily the party is

advancing in its march of usurpation, we quote a remark made by Senator Drake, a leading Radical: Mr. White, (Democrat) of Maryland

asked him whether, if the Supreme Court should decide the Legal-tender act to be unconstitutional, the decision ought to be respected? Mr. Drake replied-Not at all. He

would be found standing in his position and both Houses of Congress would have to come to that position at last, or else sweep from the beach of the Supreme Court the men who dured to attempt to eripple, by their judicial decisions, the aw-making power of the country."

Can thoughtful, law-abiding citizens justify or tolerate such language? And yet not a single Radical in or out of Congress has excepted to it or expressed

# The Philadelphia Police.

Ir is unanimously conceded that the Philadelphia Police were never, better organized or more efficient. In this respect, as in others, Mayor Fox's administration has extorted praise even from his opponents. Notwithstanding this fact, the Radical party, cha ed at having lost Philadelphia, are determined to deprive the people of that City of all control over their Police, and to place the administration of that Department in strange and irresponsible hands.

It is not claimed that it will reform any abuses, for none are charged. It is not claimed that a Metropolitan Police will the better protect life or property; the condition of New York shows the centrary. It is not pretended that the citizens of Philadelphia demand a change, nor is there any good reason why her local administration should be. in the National Life Insurance Comwhy her local administration should be placed in the hands of persons not elected for that purpose. It is a purely podollars; and with such financiers as Jay ted for that purpose. It is a purely political scheme, and one which none but the lowest of tricksters and demagogues would engage in.

We shall watch the result of the Bill before the Legislature with interest, and we have a right to insist that all since that time cover insurance to the Democratic members be present when the vote is taken, and that they vote against the bitt. Such dodging as was done on the Peltz Bill must not be repeated. Any member doing this should be burnt in effigy, and advertised all over the State as a traitor to his party, who has sold himself to the

### The Tenure of Office Law.

In is an old idea that had schemes frequently return to plague the inventor. It is so with the Tenure of Office Law. Its avowed object was to take all patronage from Andrew Johnson, to cripple his administration, to keep in office all Republicans, good or bad, that he intends to be the actual, as well and to keep out all others. Grant demands its repeal on the ground that all appointments should be under his control in order to execute the laws faithfully. The same argument should have prevented its passage.

Times, a Radical journal, says:

"We believe that there has not yet been a single case in which the Senate has "approved" the removal or suspensian of a single office-holder, if he happened to be a member of the dominant party. Revenue officers have been convicted by the Courts of crime, have been sentenced and have actually gone to the Penitentiary, and have yet been kept in office by the refusal or failure of the Senate to approve their remov-
