THE COLUMBIAN AND DEMOCRAT, BLOOMSBURG, COLUMBIA COUNTY, PA. NEW ADVERTISEMENTS.

The Columbian

Bloomsburg Democrat.

BLOOMSBURG, PA. PRIDAY MORNING, JUNE 18, 1860.

47 THE COLUMBIAN has the Largest Direxistion of any paper published in Northern Pennsylvania, and is also a much larger sheet than any of its cotemoraries; and is therefore the best medium or advertising in this section of the Sinte

A Soldiers' Monument.

A few years ago several gentlemen o this County conceived the idea of raising funds for the erection of a monument at this place to be dedicated to the soldiers who were killed or died in the service, or since. They cleared over \$100, at a musical festival given for that purpose, but the amount is en-tirely too small to accomplish the ob-

ject in view. We now propose that a united effort be made in the county at large, for the purpose of procuring the necessary funds to erect a monument that shall be creditable to our citizens, and comment orate the names of those who gave their lives to their country's cause. When war came upon us, we remember how lavish people were in their promises t

reward the soldier when living, and to mourn him when dead;-to take care of his family when in distress, and to guard and cherish his children. The living soldier is forgotten in the hurlyburly of life. For our dead, a small, grass-grown mound in the Cemetery has been appropriated, without a stone or othersymbol to indicate that in that parrow circle lies a number of the nation's dead.

Its windings through the valley are so We would suggest the appointment o suitable committees for the furtherance of this object in all the prominent points of our county, and have it understood that the name of every Union soldier who enlisted from this county and who died either during the war or since, is to be carved upon it. which we passed were also peculiar, standing in detached groups with round-ed forms, wooded to the base, and

If the men are backward in this matter, let the ladies, ever forward in such movements, take it in hand. Success then will be certain, and tardy justice will be done to our dead soldiers.

THE PROSE OF THE THING .-- Cere mony is one thing and business another. After the silver bound tie was laid and the gold spike driven in the Pacific Railroad-after they "had got done praying," and before editors east and west had fixed to their satisfaction what tic articles represented the tie and the spikes (there were two of them) were quietly taken up again and deposited with Nevad'as silver hammer in a car and sent to San Francisco while a common wooden tie was sub-stituted and the "last rail" secured to it by a common iron spike.

THE strike in the coal regions still continues, though there are evident signs of a speedy resumption of work. We cannot help but think that it is more to the interest of coal operators than miners that these strikes should take place. The former sees the price of coal enhanced and is enabled to make necessary repairs during suspension, while the latter spends his bard-earned savings. It is far better to have steady

FOR THE COLUMBIAN. Notes of Travel. Thinking that a few incidents of travel might prove interesting to some of our readers we have jotted down a few items from memory. On Monday of last week some business matters call-

ed us to Tioga county, and our trip began by getting a fair start from the Exchange, in "Cooney's" well known Bus. At Rupert we took the Catawissa train west; and we may here remark that in all our travels we never came across a better managed road, or one that keeps its time table more strictly. Notwithstanding its sharp curves and

high bridges, accidents on it are exremely rare, while Messrs. Wright and Gwons have a State reputation as ficient and courteous conduc THE HERDIC HOUSE.

In good time we reached this far-famed House, which in architictural arrangement, management, and size is superior to any thing of the kind outside of Philadelphia ; it is some compensation to the inhabitants of the

"Lumber City" for being obliged to travel nearly a mile from the centre of the town in order to reach the depot. After partaking of a hasty supper, the gates were unlocked, and the loud tones of a fat policeman informed us which of the different trains the waiting passingers were to occupy.

NORTHERN CENTRAL R. R.

The N. C. R. R. which begins at Baltimore and follows the Susquehanna to Sunbury, here takes a fresh start and runs to Canandaigua via Elmira. We soon left the fertile valley of the Susquehanna, and commenced tracing to its source the Lycoming, now a sleepy brook, but in the spring and winter foaming torrent, frequently sweeping away bridges, track and rail road bed.

numerous that we crossed it every few moments, and were continually in doubt as to which side of the stream we were on. The hills and mountains, between narrow ravines running between each, keeping a continual query in the mind

as to which our train would take. As the bright sun-light left the valleys, and the ombre shades of night clothed hill and vale, a new source of pleasure was opened to the imaginative traveller.

The engine burned wood, and in conequence the air was filled with the parkling cinders; they showered down upon the cars, dashed against the win-dows, and sought entrance through the ventilators like demons seeking their prey, while the whistle of the locomotive suggested the shrieks of some poor victim of these spirits of the air.

TROY. We reached this well known place about 9 o'clock. But the glory of Troy has departed. Provost Marshals and Boards of Enrolment, armed with des-

potic power, no longer compel the peo-ple of our county to travel over 100 miles, through five counties, to an unimportant post-town in the corner of Bradford county, in order to "report," hunt up substitutes, or examine que Like Troy of old it presents a picture of desolation and decay, a disastrons fire having burned down Long's Hotel and the fine block of buildings opposite. With characteristic Yankee energy, they are all being rapidly rebuilt. The only Hotel now is the "Adams House."

County. THE PROHIBITORY LIQUOR LAW. At Wellsboro', Mansfield, and several other points in Tioga County, there is a stringent prohibitory liquor law. It

does not stop or even check drunkenness, but on the contrary opens a wide field to such doubtful beverages as Plantation Bitters, Hostetter, Hoofland, and even Fleschutt is not unknown. ' TIOGA COUNTY MORALS.

While there the Grand Jury found a true bill against a man named King and his wife, for the murder of a boy. The charges, if true, show a heartles ness in the prisoners seldom equalled It is charged that King and his wife, residents of Union township in Tioga county, had bound to him by the

poor overseers of Troy, an Irish pauper boy, After getting him in their clutches they began a systematic course of ill treatment; leaving him senseles from beatings, turning him out of doors all night in cold weather, and giving him but little food. One day he was found dead, and was taken to Troy,and buried. Rumors of the treatment of the boy, however, had reached Troy, and some of the citizens had the body disinterred and examined by competent physicians. Besides being much emaciated and bruised, it was found that me of his arms was broken-and that his legs from the hips down were in a blister as if scalded by hot water. This discov ery led to the arrest of the parties. We have since learned that King has tried

to commit suicide. STAGING IT AGAIN.

Not wishing to return via Troy, we took the stage again for Tloga, some seventeen miles distant, over what was formerly a plank road, but what is now kept up as a turnpike. The road was comparatively level the entire distance About midway is a singular locality known as the "Marsh", being a swampy level about three miles long, and evidently the bottom of some ancient lake. Years ago it was converted into a huge mill-pond, but the people believing it caused fever and ague, demolished the dam. Some attempts are being made to drain it. Cranberries grow in profu-

sion, and large quantities of coarse grass are secured annually. TIOGA. Tioga is a neat, thriving village, or the Corning & Blossburg R. R. It is a sort of commercial centre for the coun ty. At this point we took the cars for

WASHINGTON NEWS. WASHINGTON June 10. BADICAL PETS.

Negro outrages, following the riots of the election on Monday, continue to be reported. Respectable citizens in the northern part of the city, in the viciniy of negro quarters, go home early of lights and secure their premises against hostilities. Riots, thieving, and outrages by negroes make the burden of reports in the local columns of the news

papers of this unfortunate city. THE PROSPECT IN VIRGINIA.

Accounts from various parts of Virginia are very favorable to the Conservative cause. The people everywhere seem to be warming up to the work; and the indications are that Walker will be elected Governor of the State, and the expurgated constitution adopted beyond doubt. An editorial in the Richmond Whig of to-day states that the registration list of negroes this year shows only one-half of the number registered last year, namely, three thous and in that city. The question resulting therefrom is, "Was this fraudulent registration in the first place, or have the voters actually diminished by removal and death? At any rate, it appears that the Conservatives will carry Richmond, with Henrico attached and that will probably give them the

JUNE 11 .- The through express train from Washington to New York on Wednesday night, to which was attached the special car containing President Grant and family, Secretary Boutwell and others, met with a serious accident just north of Annapolis Junction. The engine struck a cow on the track and tossed her so that she fell under the wheels of the baggage car. This with two passenger cars following, was thrown from the track, overturned and shattered. Several passengers were badly injured. The President and party escaped injury.

JUNE 16 .- Senator Scott, of Pennsylvania, is here and says that unless some unusual effort is made by the republicans, the democrats will carry the State at the coming election.

THERE is a society in Chicago which s very industriously circulating Senator Buckalew's valuable report made to the United States Senate on the representation of minorities. There can hardly be any question that a reform in this matter is needed, for in the very idea of permitting men to vote is included that of allowing them, in proper numbers, a representative of their interests. THE fifteenth amendment was post poned in the Rhode Island Legislature by the anti-Sprague men. The New Haven Register says,"it is reported that Senator Anthony is opposed to the amendment, because he fears that it will Towanda, and has's wife, seven daughgive Irishmen and Germans the priviters, and a son. He has been leading a lege of voting, on the same ground with negroes. The negroes vote now, but the great majority of Irishmen and Germans are not allowed that privilege, because it is feared that they would vote with the Democrats."

IN Virginia the Conservatives are making a good fight, and will undoubt-edly succeed in defeating Welles and rejecting the offensive clauses of the proposed Constitution. It is thought that the number of negroes registered will be much less than last year, and that the number of whites will be largely increased. The Conservatives feel confident that they can carry the Legis ature and secure two United States Senators who will not misrepresent them.

THE first step towards a Democratic victory in October next-secure good and honest delegates to all the nominating conventions.

The second step-make a good and

popular ticket, from top to bottom. The third step—thoroughly organize your forces in every election precinct. The fourth and last step—go to the polls on election day, vote the whole Democratic ticket, and try to get al your neighbors to do likewise.

THE BEST PRINTING INK.—The ink with which this issue of the Cosmopo-lite is printed is from the Gray's Ferry Printing Ink works of C. E. Robinson, Philadelphia. We have tried many kinds of ink in the publication of our paper, and unhesitatingly pronounce Robinson's for the best, because it is the clearest works the cleanest and easiest, and is the best in color. If greatly im-proves the appearance of the Cosmopo-lite and we are under obligations to the manufacturer.—Cosmopolite.

We can endorse the above. For year we have been poying extortionate process for inferior inks, and are glad to have pri made Mr. Robinson's acquaintance We can promise him an unlimited de mand from the craft, so long as his ink keep up to their present standard.

RADICAL rule in Florida has resulted in virtual repudiation of the State debt, the Governor having arranged with the State Treasurer to refuse to pay the interest accruing on a large amount of bonds issued by direction of the Legis lature for the purpose of carrying on th State business. Radicalism and repu diation are synonymous terms in mor States than Florida.
