From the reports of the Auditor Gen-cral and State Treasurer, the following statement has been carefully prepared, and exhibits the receipts and disburse-ments for the fiscal year ending November 30, 1868 : RECEIPTS. Balance in Treasury, Nov. 30, 1869 Ordinary receipts during the fiscal year ending No-. \$1,012,925 37 5,241,711 28 vember 80, 1869..... Total in Treasury during year ending Nov. 30,1869, 6,254,636 65 State be saved from all risks of loss by the accumulation of large amounts of surplus funds in the Treasury. A few illustrations will show the ben-eficial workings of this plan. At the termination of the fiscal year ending November 30, 1868, there was an unex-pended balance in the Treasury of \$1,-102,915.37. If the suggestions hereto-for made had been carried out by the investment of one million of dollars, at that time, in the five per cent, bonds that will fall due July 1, 1870, and which, I am credibly informed, could then have been purchased at something the above, part of the in the 30th of November 30, 1868, to July 1, 1869, would be \$79,107.65, which has been lost to the State. Again on the 30th of November, 1869, there was in the Treasury an unexpended bal-issioners of four hundred thousand dollars of this sum had been invested in the same kind of bonds, at par, on the 1st day of the commis-out of the the money thereof, and y ecommendations on this subject, and would, therefore, recommend that DISBURSIMENTS. \$2,485,114 27 \$4,853,774 16 . \$1,400,826 49

It will be observed from the above, that part of the loans and part of the interest are paid at the Treasury, and part of both by the Commissioners of the Sinking fund. This produces a com-plication of accounts, which, in order to avoid, and simplify the financial statement. I recommend that authority be given by law to charge the commis-sioners with the whole amount of the State debt, and also with all the money applicable to the payment thereof, and that they alone be credited with all payments on both principal and inter-est of the State debt. PUBLIC DEBT.

a prolific source from which the infinates of our prisons and penitentiaries are supplied. The number of children throughout the State attending private schools, is estimated at eighty-five thousand. The aggregate of the educational con-dition of the children of the Common-wealth may be thus stated:

wealth may be thus stated :

Whole number of children......975,753 The subject of non-attendance by so large a portion of children is specially and most carnestly commended to your consideration. It is true economy on the part of the State, if possible, to save my recommendations on this subject, and would, therefore, recommend that a law he passed making it the duty of the Commissione rs of the Sinking Fund

this patriotic undert king.
