

will produce curbs, spavin, ringbone or shoulders, and then set off to the mill. crooked hocks. The muscles and ten- The miller told him he might grind dons of their small legs are not capable there in the day time, but not by night; of carrying a heavy weight of body for for the mill was bewitched, and whoany length of time. He may not show ever went in at night had been found his blemishes in lameness, but it is only dead in the morning. "Never mind, because he lacks that fine feeling com-miller, I shall come out safe," said he; miller, I shall come out safe," said he mon to the horse. "only make haste and get out of the way, and look out for me in the morn

I have, singular as it may seem, seen mules that have been spavined, curbed ing." and ringboned, and yet have worked

So he went into the mill, and put the for years without exhibiting lameness. corn into the hopper, and about twelve The same attention has not been given o'clock sat himself down on the bench to the breeding of mules that horses in the miller's room. After a little have received. When they are bred as time the door all at once opened of itcarefully, and as well cared for while self, and in came a large table. On the young, they lose some of the charactable stood wine and meat, and many istics so disagreeable to many people. good things besides. All seemed placed

The southern farmers, many of them, the re by themselves; at any rate there consider mule labor much cheaper than was no one to be seen. The chairs next horse labor, even when they pay a moved themselves round it, but still higher price for the mules. Now are neither guests nor servants came; till they mistaken ? Whoever says they all at once he saw fingers handling the are, let him please demonstrate it. In knives and forks, and putting food on the north, mules are cheaper, and every the plates, but still nothing else was to consideration of economy seems to call be seen. Now our friend felt someloudly for their more general use on what hungry as he looked at the dishes, the farm.

From the report of an agricultural ate whatever he liked best. "A little committee in South Carolina, in the wine would be well after this cheer," year 1824, I quote the following : "The said her"but the good folks of this annual expense of keeping a horse is house seem to take but little of it." equal to his value. A horse at four Just as he spoke, however, a flagon of years old will not bring much more the best moved on, and our guest filled than his cost. Two mules can be raised a bumper, smacked his lips, and drank at a less expense than one horse (?). 'Health and long life to all the com-The mule is fit for labor earlier, and if pany, and success to our next merry of sufficient size will perform as much meeting!"

labor as a horse; and if attended to When they had enough, and the when first put to work, his gait and his habits may be formed to suit his were all emty, on a sudden he heard owner." comething blow out the lights. "Never

To sum up some of the advantages mind?" thought he "one wants no can of the mule over the horse. 'First, dle to show one light to go to sleep by." they are raised at less than half the But now that it was pitch dark he felt cost of horses. Second, they are kept a huge blow fall upon his head. for about half the expense. Third, they "Foul play!" cried he; "if I get such anare subject to few diseases of the horse, other box on the car I shall just give it and those easily cured. Fourth, their back again:" and this he really did average working age is more than twice when the next blow came. Thus the that of the horse. - American Stock game went on all night; and he never Journal.

Washing Table Linen.

said he in the morning, "I have had It is poor economy in our opinion to some little slaps on the face, but I've boil or freeze table-cloths if brown. It given as good, I warrant you; and gives them an old, yellow look. White meantime I have esten just as much as ones may be kept clear by spreading a 1 liked " The miller was glad to find for a few hours in the hot sun, or on the the charm was broken, and would have

snow when the sun shines. If there are given him a great deal of money. "I frait stains on them, pour boiling water want no money, I have quite enough," on them before washing. The boiling said he, took his meal on his back, and and freezing makes them soft, and went home to his master to claim his once hanging on the line in the air wages.

and freezing dry, wears linen more But the farmer was in great trouble, than two weeks' constant use. A little knowing there was now no help for starch should be added to the last water and they should be hung up straight on frames to dry. If they dry in a twist, they cannot be impact by with the they cannot be ironed smooth without the window for a little fresh air, extra pains. and before he was aware his foreman

gave him the first blow, and sucha A Dwarf Orange tree from China has blow, that off he flew over the hills and been imported into California ; they far away. The next blow sent his wife grow two feet high, and four thousand after him, and, for aught I know, they can be grown on an acre, at six or eight may not have reached the ground yet; oranges to the tree. The production but, without waiting to know, the exceeds that of standard trees to the young giant took up his iron walkingstick and walked off.
