SCHENCK'S OREAT MEDICINESWill people never learn to know that a discassed liver and stomach nec- essarily disease the entire system? The plainest principles of common sense teach this, and yet there are hundred who ridicule the kies, and continue in the course which almost inevitably brings them prematurely to the grave. Living as the majority of people do, at complete vari- ance, with the laws of nature, it must be appar- ent to all that, sconer or later, nature will re- verage herself. Hence we find that persons who indige to excess in the use of very rich or indi- gestible food or invice ting drinks, invariably becomes diportered and refuses to act, the liver taltendant evits follow, and still the sinfering in- dividuals persist in clinging to the thoroughly ex- ploaded deas of the past.
