Carving is a very desirable accomplishment for both ladies and gettemen, and should be taught. One cannot learn it by tuition, but by practice, joined by a small slice of theory. It is true that the French style of serving meat sliced is fast banishing the necessity of carving at the tables of the rich; but in middle life, where such elegan cies are not practiced, a knowledge of carving should be a part of a boy's or girl's education. How often do we hear a person say : "Oh, excuse me, I can't carve; I never tried." Or, if it be attempted, one soon finds himself sadly embarrassed. He grasps the knife and fork desperately. He has learned that a slice of the breast of a turkey is a dainty; that a wing is good; the second joint also; that the leg is not so good. But it is not an easy task to separate them; and he thinks he would rather chop wood than cut turkey. He does not know that on the back lies a delicious morsel called the oyster, and the side bones below the second joint are considered titbits. This must be taught him. Ladies ought especially to make carving a study; at their own homes the task often devolves upon them, and they should be able to perform it with ease, and not be forced to accept the assistance of visitors, who would dread the operation. The platter should be placed so near the carver that he has full control over it; if far off, nothing can prevent an ungraceful appearance A sharp knife is requisite, and a thin and well tempered blade. In carving turkey, cut off the wing nearest to you first; then the leg and second joint, then slice the breast until a rounded piece appears; insert the knife between them and separate them-this part is the nicest piece of the breast; next comes the "merry thought." After this, turn over the bird a little, and just below the breast you will find the proved Oversagues have our New Improved Oversagues ha just below the breast you will find the oyster, which you separate as you did the inner breast. The side bone lies beside the rump, and the desired morbins in the property of sel can be taken without separating the Eveny Plane fully Warranted for 5 Years, whole bone. Proceed the same with the other side. The fork need not be removed during the whole process. An experienced carver will dissect a fowl as easly as you can break an egg or cut as easily as you can break an egg or cut a potato. He retains his seat, manages his hands and cloows artistically, and his hands and clows artistically, and BOOT, SHOE, EAT CAP, AND FUR STORE.

The season for the use of out-door farm implements is nearly over, a fact entirely, and it is a very important one.

The cost of implements and machines to a firmer is one of his heaviest outlays, while the care of them with many is a mere secondary consideration. An implement will be guaranteed to give satisfaction. A call is believed that better agains are to be found than at any other many in the county. which many farmers appear to forget plement will frequently suffer greater tamage from a winter's exposure, than from a whole season's judicious use.

There is no principle in farming better established, than that all tools, implements and machines, should be housed when not in use, and the farmer | Berbs, Roots, and Berries, for who neglects to do this, is simply wanting in the first elements of economy. Because a mowing machine or a plow is made wholly of iron, it does not follow, that the weather will not effect it.
The mowing machine that is left standing in the fence corner from one senson to another, cannot be expected to do another, cannot be expected to do good work, and as to wooden implements the control of th ments, the case is worse still.

house his implements, but rainy and snowy days will be devoted to the repairing of them. A wooden plow beam to which a coat of paint is applied once a year, will last twice as long as one that is not, and it will look five hundred per cent. better. A mowing machine, the journals of which are cleansed of the accumulations of gummed grease, and carefully olled, will run twenty fifty per cent. lighter, and run fifty per cent. longer than one that does not receive this attention. We might multiply these Illustrations, ad infinitum, but it is unnecessary. We conclude with the remark that, he is an unwise keep his tools and implements housed SHARPLESS & HARMAN, when not in use, and who does not keep them in such repair that they are always ready for use.

Scraping and Washing Fruit

Trees. Perhaps October and November are the two best months in the year for scraping and washing fruit trees-apples and pears. The insects which hide in the bark and crevices of the trees have by that time retired to their winter quarters and can be easily destroyed. There is nothing equal as a "wash' with which to scrub the trees than a preparation of say one pound of whaleoil soup to a large bucket of water, well dissolved. There is nothing more nau seous to insects than this. It will lay 'cold' everything that we have tried It on but the circulio-that, however, cares no more for the the mixture, even though accompanied with sulphur, lime-water, and tobacco-juice, than if it were a gingerly dose of pure spring water. But rose-bugs and the steel-blue grape-bug, surrender to its power in- DENTISTRY. continently. Every farmer and gardener ought to have a supply of this soap on hand for use whenever necessary. Apple and pear trees well scraped and then washed with this preparation will not only be freed from some of the chief insects preying upon follage and fruit but will sensibly feel its invigorating effects.-Germantown Telegroph.

PLANTING NUTS, ETC .- In replying to an inquiry as to the best time to plant nuts for growing trees we would say that it should be done as soon as they come from the bur or pericarp, and of course before they get dry. This includes the chestnut, shellbark, walnut, acorn, as well as some seeds like the pawpaw, magnolia, etc. Hence left until the following spring they will SLATE ROOFING. either not come up at all or be two years in doing so.

Patent Medicines

THE KIDNEYS.

The Kidneys are two in number, situated at he upper part of the loin, surrounded by fat, and consisting of three parts, viz. the Anterior he Interior, and the Exterior.

The anterior absorbs. Interior consists of tisies or veins, which serve as a deposit for the urine and convey it to the exterior. The exterfor is a conductor also, terminating in a single tube, and called the Ureter. The ureters are nnected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz.: the Upper the Lower, the Nervous, and the Mucous. The the Lower, the Nervous retains. Many have a upper expels, the lower retains. Many have a desire to urinate without the ability; others P.M. prinate without the ability to retain. This fremeatly occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue. The reader must also be made aware, that

owever slight may be the attack, it is sure to affect the bodily health and mental powers, as our fiesh and blood are supported from these

GOUT, OR RHEUMATISM.-Pain occurring in th loins is indicative of the above diseases. They occur in persons disposed to acid stomach and

THE GRAVEL -- The gravel endies from neglect or improper treatment of the kidneys These organs being weak, the water is not expelled from the bladder, but allowed to remain ; t becomes feverish, and sediment forms. It is rom this deposit that the stone is formed, and

DROPSY is a collection of water in some parts f the body and bears different names, accord ing to the parts affected, viz.; when generally diffused over the body, it is called Anasarca, when of the abdomen, Assites: when of the hest, Hydrothorax.

TREATMENT.-Helmbold's highly concentrated ompound Extract Buchu is decidedly one of he best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumaism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, Scanty Secretion, or small and requent discharges of water; Strangury, or topping of water; Hematuria, or bloody urine; Sout and Rheumatism of the kidneys, without any change in quantity, but increase in color,or ed by the late Dr. Physick, in these affections, This medicine increases the power of digesion, and excites the absorbents into healthy exercise by which the watery or calcareous depsitions, and all unnatural enlargements, as well as pain and inflammation are reduced, and it is taken by men, women, and children. Directions for use and diet accompany,

I. T. HELMBOLD, Druggist:

DEAR SIR-I have been a sufferer, for upward f twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent Physicians experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my tamily physielan in regard to using your Extract Buchu,

I did this because I had used all kinds of adess, and, some quite injurious; in fact. I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the inyour remedy. As you advertised that it was composed of buchu, cubebs, and juniper berries, t occurred to me and my physician as an excel lent combination, and, with his advice, after at examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astenished and gratified at the beneffcial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at that time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you and toore satsfactory to me.

I am now able to report that a cure is effecte after using the remedy for five months.

I have not used any now for three months and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasan taste and odor, a nice tonic and invigorator o the system, I do not mean to be without it when ever occasion may require its use in such affec

A GREAT MEDICAL DISCOVERY Dr. WALKER'S CALIFORNIA VINEGAR BITTERS

Hundreds of Thousands WHAT ARE THEY?

THEY ARE NOT A VILE Made of Poor Rum, Whisker, Proof Spirits and Refuse Liquers doctored, spleed and swetched to please the taste, called "Tentes," "Restorer," ac., that lead the tupper on to drunksness and rath, but are a true Medicine, made from the Native Roots and Rerbs of California, Free from all Alcoholio Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE sperfet Renewto'r and Invigorator of the System, carrying of all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

\$100 wilbs given for an incursible case, provided the bonce are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

other means, and the vital organs wasted beyond the point of repair.

For Inflammutory and Chronic Rheumatism and Gout, Dyspepsia, or Indignation, Billious, Remittent and intermittent Powers Disenses of the Blood, Liver, Kidneys, and Bladder, tucte Bliters have been most successful. Such Disenses are caused by Vitiated Blood, which is generally produced by derangement of the Dignative Organs.

DYSPEPSIA OR INDIGESTION, Read ache, Pata in the Shoulders, Coughs, Tightness of the Cheet, Distincess, Sour Frechtions of the Stomach, Bad taste in the Mouth, Billious Attacks, Paipitation of the Heart, Indammation of the Lings, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They havigorate the Stomach and atimulate the ter-

of the Heart, indammation of the Lungs, Tain in the regions of the Hidneys, and a hindred other painful symptoms, are the offsprings of Dyspepels.

They invigorate the Stomach and atimulate the torpic liver and bowels, which render them orunequalled efficacy in cleanatog the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Epots, Pimples, Pustules, Bolls, Carbuncies, Ring-Worms, Scald-Hoad, Sore Eyes, Eryspelas, 1tch, Scurfs, Discolorations of the Skin, Humors and Diseases of the blin, of whatever name or nature, are illerally dug up and carried out of the system in a short time by the use of these Bitters. One bothle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Fimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

FIN. TAPE and other WORMS, jurking in the system of so many thousands, are drectually destroyed and removed. For full directious, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

DR. SAGE'S Catarrh Remedy.

I as not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures Consumption, when the larges are half consumed, in short, will cure all diseases whether of mind, body or estate, make men live forever, and beave death to play for want of work, and is designed to make our submany sphere a billistic Paradise, to which Heaven itself said be but a side show. And have heard enough of this Rind of humburgery. But when I tell you this, I'r, Sares Catarri, Remedy self positively on this, I'r, Sares Catarri, and the feed, I cally a seer that which thousands out teatify to I will pay \$500 Reward for a case that I cannot cure. A pumpiket giving symptoms and other information sent tree to any sadress. This remedy is SOLD BY MOST DRUGGISTS IN ALL PARTS OF THE WORLD.

Price 50 conts, Sent by mail, postpaid, on receipt of sixty cents, or four packages for two dollars, Heware of counter/cits and worthless imitations; see that my private Stamp, which is a positive guarantee of Genuinessa, is upon the outside wrapper, Renember that this private Stamples used by the United States Government expressing for stamping my medicines, has my soutrait, name and address, and the words my soutrait name and address, and they words upon it, and need not be mistaken. Bon't be swindled by a welers and others representing themselves as Dr. Sage; I am the only man now living that has the knowledge and right to manufacture the tenuine Dr Sage's that it knowledge and I never travel to actific a substitute the meaning the sage of the continues of the same determined by Sage's that it knowledge and I never travel to actific medicine.

R. S. FIERCE, M. D. obi2879-tf. 133 Senses street, Buffato, N. Y.

SEVEN REASONS WHY

IS THE BEST LINIMEST IN THE WORLD

FOR HORSES.

FIRST.—It is composed of the most powerful and Penerhatino liquids known in Chemistr SECOND.—Combined with the above is a Mannernal Cit, made expressly for this Liniment and mixed by an entirely new process.

THIRD.—The use of the powerful and penetrating ingredicute is to drive or force in this beautiful MEDICINAL Oil, which inbricates the joints and muscles, and immediately throttles the disease and e-mpels it to lossen its deathly, sickening and poisonous tangs. FOR HORSES. and poisonous sames.
Forsaru.—This Mydricinal Oil is used for the same reason that a good mechanic always uses ell—to make his machinery work with ease and precision. So in the same way the muscles and precision. So in the same way the muscles and precision. So in the same way the muscles and precision. So in the same way the muscles and precision. So in the same way the muscles and louist of our summals should be intricated if we wish to have them travel with rapidly and ease. First, with the property of the same and the must of the "ye do not "imment of the animal tike must of the "ye do not "imment of the alway. So it.—Not one drop of the this consolidation for we had that no liminent can be effective which begins and blisters the animal until the muscles are hard and dried almost to a crisp.

SEVENTH.—Every bottle by A REA STEP to give good satisfaction, or your money will be retinuted. This shows conclusively that the proprietors have full confidence in this preparation, and proves for the seventh the paid of Theters have full confidence in this preparation, in the best Liminent in the world for horses.

Washing Machines.

ehill 70-1y.

DOTY'S WASHING-MACHINE, LATELY MUCH IMPROVED-AND THE NEW UNIVERSAL CLOTHES WRINGER Improved with Rowell's Patent bouble Cog-wheels, and the Patent Stop, are now unques-tionably far superior to any apparatus for wash-ing clothes ever invented, and will save their cost twice a year, by saving labor and clothes. The Editor of this paper, who purchased a Washer and Wringer, thus testifies as to their value:

"We have had in use in our family for some time past, one of Doty's Clothes Washers and Writners, and are prepared to hear testimony as to les merits. It is emphatically a labor-suring manifes and close to work in the most thorough manifes and close to work in the most thorough manifes and close to work in the most thorough manifes and close to work in the washes these medianes could be invaluable."—Columnary Jan. 14, 1870.

PRICES-A FAIR OFFER. PRICES—A FAIR OFFER.

If the Merchants in your place will not furnish, or send for the Machines send us the retail price was been self-like and we will arrive whether or both machines, free of freight, to places where no one is solling; and so sure arrived will be fished, that we agree to refund the money if am one wishes to return the machines free of resight, after a month's trial, according to directions.

No husband, father or brother should permit the drawsery of washing with the hands, fifty iso days in the year, when it can be done better, nore expeditiously, with less labor, and no larty to the garments by a Doty Clothes Washer, and a Universal Wringer.
